Furtaw,1992 Open Institutions John W. Murphy,Dennis L. Peck,1993 Democratization involves far more than instituting a few democratic practices such as universal suffrage Instead people must be able to debate issues have access to diverse sources of information be able to tolerate viewpoints that are disliked and have access to every aspect of government But before today s society can be considered truly democratic the entire culture must be democratized Thus persons will demand autonomy and the freedom required to be self governed Yet as Murphy and Peck and the analysts brought together for this collection point out self government or democracy does not occur in a vacuum Democracy will occur only when personal autonomy critical thought and the desire for self government are encouraged by social institutions In this collection these and other considerations related to real participatory democracy are the focus of attention As such the volume will be of concern to political sociologists and those interested in social change
