Non-Specific Factors Influencing Host Resistance W. Braun, J. Ungar, 1973-08-15 **Gram-Negative Bacterial Infections and Mode of Endotoxin Actions** Bernhard Urbaschek, Renate Urbaschek, Erwin Neter, 2012-12-06 The relevance of international symposia and congresses has been questioned with increasing frequency All too often presentations at such meetings are meaningful only for very few members of the audience fundamental scientific principles and relationships between disciplines are not always taken into account Under present conditions rapid sharing of new information is highly desirable However many journals do not lend themselves to speedy exchange of information nor do many provide the opportunity for the publication of discussion by various specialists of problems arising from different disciplines Symposia may lend themselves perhaps more readily to the identification of current knowledge and the exchange of thoughts between scientists from various fields It was particularly opportune to have the present symposium held in Vienna where as early as 1365 the University was founded and where the medical sciences have played a dominant role in the investigation of the nature of diseases It was the aim of the organizer to provide in this city the opportunity for the exchange of information and of thoughts between scientists from different disciplines and different countries One of the many current important problems relates to the fundamental basis of the pathogenesis of gram negative infections Information on immune mechanisms against these infections is inadequate the relative role of non specific resistance and specific immunity has not been fully elucidated Problems regarding active immunization and the effectiveness of passively administered immuno globulins still exist even today **"Non-specific" Factors Influencing Host Resistance** ,1973

National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1974 First multi year cumulation covers six years 1965-70 Invertebrate Immunity Karl Maramorosch, 2012-12-02 Invertebrate Immunity Mechanisms of Invertebrate Vector Parasite Relations consists of chapters presented at a workshop on invertebrate defense mechanisms sponsored by the National Institutes of Health and held in Bethesda Maryland on April 17 and 18 1974 Organized into four parts having a total of 24 chapters this book first discusses the barrier imposed by the gut of invertebrates to invading parasites It then centers on the role of invertebrate hemocytes and other phagocytic cells in immunity as well as the humoral defense mechanisms of these organisms Other topics discussed include parasite encapsulation in insects role of melanin in host parasite interaction and use of host hormones by insect parasites to make the host environment favorable for their growth and development This book will be essential for those interested in comparative immunology and in invertebrate immune responses It will be of special interest to entomologists protozoologists physicians veterinarians ecologists pathologists research workers science teachers and graduate students **Chemotaxis: Its Biology and Biochemistry** E. Sorkin, 1974-11-28 **The Development Of Dictyostelium Discoideum** William Loomis, 2012-12-02 The Development of Dictyostelium discoideum consists of 11 chapters representing the 11 major aspects at which continuous progress are made

in the study of Dictyostelium discoideum This book begins with the discovery classification ecology and development of Dictyostelium discoideum It then outlines the advances in genetic manipulation and mutant isolation of the organism Much of the advances in cell biology have been related to a better understanding of the composition and function of the cell membrane Hence analyses of Dictyostelium plasma membranes are collated This reference material also describes the role of chemoattractants in organizing cell movements and the intracellular events triggered by occupancy of chemoreceptors It also explains the understanding of the macromolecular components of the chemosensory system of Dictyostelium discoideum It further discusses the cell motility cell adhesion morphogenetic signaling cytodifferentiation and gene expression in the species Finally the phenomenon of cell type specification and regulation in this organism is addressed This book will be valuable for those already familiar with the general outlines of Dictyostelium biology *Journal of the National Cancer Institute* ,1979 **JNCI, Journal of the National Cancer Institute** National Cancer Institute (U.S.),1979

Intervirology ,1973 International Archives of Allergy and Applied Immunology ,1947 *Cyclic AMP, Cell Growth, and the Immune Response* W. Braun,L.M. Lichtenstein,C.W. Parker,2013-11-09 The brilliant research of Dr Earl Sutherland and his colleagues has had a broad impact on many areas of biology Among the fields influenced rather late by the insights arising from this work were immunology and oncology Although research relating cyclic AMP metabolism to the development and manifestations of the immune response and the control of mammalian cell growth is relatively recent the growth of knowledge in these areas has been rapid and there is already a considerable amount of empirical information This conference provided an opportunity to collate and begin to interpret that information A deliberate attempt was made to bring together investigators nominally involved in immunology biochemistry pharmacology or cellular biology for in many instances parallel observations are being obtained in these fields For example the immunologist studying the transformation of lymphocytes by antigens or mitogens is carrying out experiments that are very close to those of the biologist studying the growth of cells in culture in both cases the phenomena they observe are modulated by changes in the intracellular level of cyclic nucleotides Many other examples of closely analogous experiments in different fields could be cited but perhaps the point is clear **Accessions of Unlimited Distribution Reports** ,1972-10-13 Medical Research in the Veterans'
