MagicNine Baisakhi Saha, 2014-09-09 when all roads come to an end the magical road begins This tale follows a young Indian girl who believes in the idea of a soul mate Guided by certain dreams she takes on the voyage of her heart magically navigating Asia Europe Africa South North Central America Through synchronous events Boi meets a mysterious man she believes is her soul mate But then the love she s just found is lost because of her own fears She must battle the dark nights of her soul or remain discontent the rest of her life Thus begins the inner journey Her heart nudges and like a fallen leaf she flies in the direction of her dreams blindly with only signs wrapped in the sheets of desire guiding her The day Boi decides to listen to her heart it compels her to bare her soul naked to this man for he is her magicNine Over the next three years she writes to him the story of her heart sometimes trying to impress him with her knowledge of the universe at other times desperate to revive her lost love yet never giving up until the writing takes on a life of its own and the saga of her life unfolds in the pages of this book through myriad musings mailed to him over millions of moments of madness melody and magic Words flow to her from all corners of the universe pushing her story in a collage of expressions a piece from here a text from there a poem from nowhere all of which fit the jigsaw of her life story one she is reluctant to write In search of her soul mate she met with her own soul Nonstop Nonsense Margaret Mahy, 2020-08-11 *StoryCraft* Martha Seif Simpson, Lynne

The World at First Light historian Bernd Roeck explores the cultural and historical preconditions that enabled the European Renaissance Roeck shows that the rediscovery of ancient knowledge including the science of the medieval Arab world played a critical role in shaping the beginnings of Western modernity He explains that the Renaissance emerged in a part of Europe where competing states and cities formed relatively open societies Most of the era s creative minds from Leonardo da Vinci and Michelangelo to Copernicus and Galileo came from the middle classes The art of arguing flowered the basso continuo to intellectual and cultural breakthroughs Roeck argues that two revolutions shaped the Renaissance a media revolution triggered by Gutenberg s invention of movable type which itself was a driving force behind the scientific revolution and the advent of modern science He also reports on the dark side of the era hatred of Jews witch panic religious wars and the atrocities of colonialism In a series of meditative counterfactuals Roeck considers other cultural rebirths throughout the first millennium from the Islamic empire to the Carolingians examining why the epic developments of the Renaissance took place in the West and not elsewhere The complicated legacy of the Renaissance he shows encompasses the art of critical thinking as learned from the ancients the emergence of the modern state and the genesis of democracy
