Germany's Africa Policy Revisited Ulf Engel,2002 Although Germany has been a major international player in Africa ever since West Germany's readmission to international politics after 1955 surprisingly little has been written about this topic and even less reliable knowledge has been established This study poses the need for a review of Germany's relations with the African continent over the past decades It challenges scholars to fill the factual gaps that characterize the state of research so far Ulf Engel is associate professor of politics in Africa at the Institute of African Studies University of Leipzig Robert Kappel is professor of politics and economics at the Institute of African Studies University of Leipzig

Africa and the Backlash Against International Courts Peter Brett,Line Engbo Gissel,2020-07-23 At the start of the twenty

first century the story of Africa's engagement with international law was one of marked commitment and meaningful contributions. Africa pioneered new areas of law and legal remedies such as international criminal law and universal jurisdiction and gave human rights jurisdiction to a number of new international courts. However in recent years African states have mobilised politically and collectively against the regional courts and the International Criminal Court contesting these institutions' authority and legitimacy at national, regional and international levels. *Africa and the Backlash Against International Courts* provides the first comprehensive account of this important phenomenon bringing together original fieldwork, empirical analysis and a critical overview of the diverse scholarship on both international and African regional courts. Moving beyond conventional explanations, Brett and Gissel use this remarkable research to show how the actions of African states should instead be seen as part of a growing desire for a more equal global order, a trend that not only has huge implications for Africa's international relations but that could potentially change the entire practice of international law.

Sweden and National Liberation in Southern Africa Tor Sellström, 1999. In 1969 the Swedish parliament endorsed a policy of direct assistance to the liberation movements in Southern Africa. Sweden thus became the first Western country to enter into a relationship with organizations that elsewhere in the West were shunned as Communist or terrorist. This book, the first in a two-volume study on Sweden, the regional struggles for majority rule, national independence, traces the background to the relationship. Presenting the actors, factors behind the support to MPLA of Angola, FRELIMO of Mozambique, SWAPO of Namibia, ZANU ZAPU of Zimbabwe, ANC of South Africa, it addresses the question why Sweden established close relations with the very movements that eventually would assume state power in their respective countries. The second volume, later this year, will discuss how the support was expressed, covering the period from 1970 until the democratic elections in South Africa in 1994.

Sanctions and Honorary Whites Masako Osada, 2002-02-28. This study critically examines for the first time the unlikely friendship between apartheid South Africa and non-white Japan. In the mid 1980s Japan became South Africa's largest trading partner while South Africa purportedly treated Japanese citizens in the Republic as honorary whites under apartheid. Osada probes the very different foreign policy making mechanisms of the two nations and analyzes their ambivalent bilateral relations against the background of postcolonial and Cold War politics. She concludes that these diplomatic policies were adopted not voluntarily or willingly but out of necessity due to external circumstances and international pressure. Why did Japan exercise sanctions against South Africa in spite of their strong economic ties? How effective were these sanctions? What did the sensational term honorary whites actually mean? When and how did this special treatment begin? How did South Africa get away with apparently treating the Japanese as whites but not Chinese, other Coloureds, Indians and so forth? By using Japan's sanctions against South Africa and South Africa's honorary white treatment of the Japanese as key concepts, the author describes the development of bilateral relations during this unique era. The book also covers the fascinating historical interaction between the two countries from the mid 17th century onward. **Africa**
