S. Feldman, 2013-03-14 When I organized a symposium on the development of nonverbal behavior for the 1980 meeting of the American Psychological Association I was faced with an embarrassment of riches Thinking about the many people who were

doing important and interesting research in this area it was hard to narrow down the choice to just a few Eventually I put together a panel which at least was representative of this burgeoning area of research In planning this volume two years later I was faced with much the same predicament except to an even larger degree For during that short period the area of children s nonverbal behavior came to grow even larger with more perspectives being brought to bear on the question of the processes involved in the development of children s nonverbal behavior The present volume attempts to capture these advances which have occurred as the field of children s nonverbal behavior has moved from its own infancy into middle childhood The book is organized into five major areas representative of the most important approaches to the study of children s nonverbal behavior 1 Psychobiological and ethological approaches 2 social developmental approaches 3 encoding and decoding skill approaches 4 discrepant verbal nonverbal communication approaches and 5 personality and individual difference approaches The discreteness of these categories should not be overemphasized as there is a good deal of overlap between the various approaches Nonetheless they do represent the major areas of interest in the field of the development of nonverbal behavior in children

Credibility Assessment J.C. Yuille, 2013-03-14 Credibility assessment refers to any attempt to ascertain truthfulness Other terms which have been used to refer to the assessment of credibility include the detection of deception and lie detection The term lie detection has become virtually synonymous with the use of the polygraph and can no longer be used to refer to the range of procedures currently employed to assess credibility Also both lie detection and the

detection of deception have a negative cast which does not fully capture the orientation of current approaches to credibility. Consequently the term credibility assessment has emerged recently as the preferred label. The goal of credibility assessment is typically the determination of the truth of a statement or be found in set of statements. The need or desire to make such an assessment can every human context from marital relations through clinical examinations to police and court interrogations. Examples of the kinds of statements which require credibility assessment are 1 A child's assertion that she or he has been sexually abused 2 The claim by a previously suicidal person that he or she has recovered and will not attempt suicide again 3 The denial of guilt by a suspect in a criminal investigation 4 The confident statement of a witness that he or she is sure in his or her identification of a thief 5 The vow of loyalty by a potential employee for a security job. It is necessary to assess the credibility of these and similar statements.

Silence as Language Michal Ephratt, 2022-08-25 Verbal silence touches on every possible aspect of daily life. This book provides a full linguistic analysis of the role of silence in language exploring perspectives from semantics, semiotics, pragmatics, phonetics, syntax, grammar, and poetics, and taking into account a range of spoken and written contexts. The author argues that silence is just as communicative in language as speech as it results from the deliberate choice of the speaker and serves functions such as informing, conveying emotion, signalling turn switching, and activating the addresser. Verbal silence is used alongside speech to serve linguistic functions in all areas of life as well as being employed in a wide variety of written texts. The forms and functions of silence are explained, detailed, and illustrated with examples taken from both written texts and real life interactions. Engaging and comprehensive, this book is essential reading for anyone interested in this fascinating linguistic phenomenon.

The Power of Discourse Moira Chimombo, Robert L. Roseberry, 2013-04-03 This volume is intended for students who desire a practical introduction to the use of language in daily and professional life. It may be used either as part of a course or as an aid to independent study. Readers will find that concepts relating to language and discourse are highlighted in the text, explained clearly, illuminated through examples, and practice exercises, and defined in the Glossary Index at the back of the book. Divided into two parts, this text presents an introduction to the elements and practice of discourse analysis in general as well as an introduction to the actual kinds of discourse crucial to personal and professional life. In Part I, examples and practice exercises are used which make use of a variety of genres common in daily and professional life. Genres included are advertising, biography, travel guide, news clipping, prose fiction, students writing, telephone conversation, poetry, police suspect interview, face to face conversation, war cry, political speech, medical text, legislation, textbook, discourse of the mentally disturbed, and detective fiction, among others. Wherever feasible, authentic examples are used. Part II of the book applies the principles and techniques of Part I to an investigation of discourse in daily use. Chapters include discourse in education, medicine, law, the media, and literature. Not only will these be of particular interest to students planning to enter any of these professions, but will also be of general interest since all of us encounter them in daily life. As a result, this is a very practical book.

New Approaches and

Tendencies in Entrepreneurial Management Alexandru Costin Cîrstea, Ovidiu Nicolescu, George Plesoianu, 2017-06-23 This volume presents a set of innovative approaches to international management theory and practice.
