**Moral Responsibility in Twenty-First-Century Warfare** Steven C. Roach, Amy E. Eckert, 2020-09-01 2021 CHOICE Outstanding Academic Title Moral Responsibility in Twenty First Century Warfare explores

the complex relationship between just war theory and the ethics of autonomous weapons systems AWS One of the challenges facing ethicists of war particularly just war theorists is that AWS is an applicative concept that seems in many ways to lie beyond the humanist scope of the just war theory tradition The book examines the various ethical gaps between just war theory and the legal and moral status of AWS addresses the limits of both traditional and revisionist just war theory and proposes ways of bridging some of these gaps It adopts a dualistic notion of moral responsibility or differing related notions of moral responsibility and legitimate authority to study the conflicts and contradictions of legitimizing the autonomous weapons that are designed to secure peace and neutralize the effects of violence Focusing on the changing conditions and dynamics of accountability responsibility autonomy and rights in twenty first century warfare the volume sheds light on the effects of violence and the future ethics of modern warfare

Gandhi's Thought and Liberal Democracy Sanjay Lal, 2019-03-13 With an intense focus on both the depth and practicality of Mahatma Gandhi's political and religious thought this book reveals the valuable insights Gandhi offers to anyone concerned about the prospects of liberalism in the contemporary world Gandhi's Religious Thought and Liberal Democracy makes the case that for Gandhi in stark contrast to commonly accepted liberal orthodoxy religion is indispensable to the public life and indeed the official activity of any genuinely liberal society Gandhi scholars political theorists and activist members of a lay audience alike will all find much to digest comment upon and be motivated by in this work

Crashing the Idols Will D. Campbell, Richard C. Goode, 2010-04-01 If prophets are called to unveil and expose the illegitimacy of those principalities masquerading as the right and purportedly using their powers for the good then Will D Campbell is one of the foremost prophets in American religious history Like Clarence Jordan and Dorothy Day Campbell incarnates the radical iconoclastic vocation of standing in contraposition to society naming and smashing the racial economic and political idols that seduce and delude Despite an action packed life Campbell is no activist seeking to control events and guarantee history's right outcomes Rather Campbell

has committed his life to the proposition that Christ has already set things right Irrespective of who one is or what one has done each human being is reconciled to God and one another now and forever History's most scandalous message is therefore Be reconciled because once that imperative is taken seriously social constructs like race ethnicity gender and nationality are at best irrelevant and at worst idolatrous Proclaiming that far too many disciples miss the genius of Christianity's good news the kerygma of reconciliation this Ivy League educated preacher boldly and joyfully affirms society's so called least one cultivating community with everyone from civil rights leaders and Ku Klux Klan militants to the American literati and exiled convicts Except for maybe the self righteous none is excluded from the beloved community For the first time in nearly fifty years Campbell's provocative *Race and Renewal of the Church* is here made available Gayraud Wilmore called Campbell's foundational work an unsettling reading experience but one that articulates an unwavering confidence in the victory which God can bring out of the weakness of the church *In the School of Prophets* Ephrem

Arcement, 2015-03-31 The distinctive prophetic quality of Thomas Merton's spirituality shaped by figures ranging from the Hebrew prophets to Thich Nhat Hanh emerges from this fresh examination of the works Merton read responded to and celebrated in his own writing *In the School of Prophets* examines the final decade of Merton's life mainly through the lens of his journals and letters and helps to fill a gap in contemporary Merton studies William Blake and various Latin American poets novelists Boris Pasternak Albert Camus and William Faulkner existentialists Søren Kierkegaard and Gabriel Marcel monks of the Egyptian desert and Bernard of Clairvaux number among those who helped shape Merton's prophetic consciousness leading him to reexamine what it means to be both a human being and a contemplative monk of the twentieth century *Thomas Merton Peacemaker* Dear, John, 2015-04-30 *Bulletin of the Atomic Scientists*, 1987-01 **Engaging**

**the Powers** Walter Wink, 2017-10-15 In this brilliant culmination of his seminal Powers Trilogy now reissued in a twenty fifth anniversary edition Walter Wink explores the problem of evil today and how it relates to the New Testament concept of principalities and powers He asks the question How can we oppose evil without creating new evils and being made evil ourselves Winner of the Pax Christi Award the Academy of Parish Clergy Book of the Year and the Midwest Book Achievement Award for Best Religious Book *Assessing the War on Terror* Charles Webel, Mark Tomass, 2017-02-17 This volume is a collection of articles that critically examine the efficacy ethics and impact of the War on Terror as it has evolved since 9/11 During the decade and a half of the Global War on Terror GWOT numerous books have considered the political psychosocial and economic impacts of terrorism However there has been little systematic effort to examine the effectiveness of the GWOT in achieving its goals Furthermore there is virtually nothing that presents a comparative analysis of the GWOT by the people most directly affected by it citizens and scholars from conflict zones in the Middle East There is therefore great need for a book that analyzes the strategies tactics and outcomes of the GWOT and that also presents facts and ideas that are missing or underrepresented in the dominant public narratives The contributions in this volume were chosen to specifically

address this need In doing so it uniquely provides not only Western perspectives of the GWOT but also importantly includes perspectives from the Middle East and those most directly affected by it including contributions from scholars and policy makers Overall the contributions demonstrate how views differ based on geographical location and how views have changed during the course of the still evolving War on Terror The book will be of much interest to students and scholars of terrorism and counter terrorism foreign policy Middle Eastern politics security studies and IR as well as policy makers **James Tully** Alexander Livingston, 2022-05-30 James Tully's scholarship has profoundly transformed the study of political thought by reconstructing the practice of political theory as a democratising and diversifying dialogue between scholars and citizens Across his writings on topics ranging from the historical origins of property constitutionalism in diverse societies imperialism and globalisation and global citizenship in an era of climate crisis Tully has developed a participatory mode of political theorising and political change called public philosophy This practice oriented approach to political thought and its active role in the struggles of citizens has posed fundamental challenges to modern political thought and launched new lines of inquiry in the study of constitutionalism democracy and citizenship settler colonialism comparative political theory nonviolence and ecological sustainability James Tully To Think and Act Differently collects classic contemporary and previously unpublished writings from across Tully's four decades of scholarship to shed new light on these dialogues of reciprocal elucidation with citizens scholars and the history of political thought and the ways Tully has enlarged our understanding of democracy diversity and the task of political theory
