stranger to trouble because he's swimming in it. Even before the latest murderous attack by a new gang of assailants, there seems no end to people determined to arrest, examine, or kill him. To add insult to all that injury, Flinx has been spirited away and enlisted in a battle against a monstrous extra-galactic threat. Hidden behind the Great Emptiness in a place where it seems matter and energy have never been, there is only evil. Pure evil that is approaching him, accelerating. Against such a quintessence of colossal evil, what can one puny human and a formidable mini-drag protector do? Flinx must tell someone or go out of his already addled mind. Choosing a confidant is easy. Clarity. Held a crush he hasn't seen in six years. She is a young woman who has clearly gone on with her life in ways that he soon learns don't necessarily include Flinx. Whatever happens, Flinx makes up his mind to act quickly. His decision is the beginning of a terrifying high-stakes adventure through perilous new realms that will rocket him into the very heart of danger and into the arms of the only woman he's ever loved. As he and Pip bravely travel to a place where no man or mini-drag has gone before, Flinx discovers he has a few more friends than he thought and far more enemies than he ever imagined.

**Patrimony** Alan Dean Foster, 2007-10-30 In this Pip Flinx thriller, Alan Dean Foster displays the brilliance that has made him one of the brightest lights in science fiction. In *Patrimony*, fans will learn more about their favorite redhead with emerald eyes, uncanny powers, and a poisonous minidrag than they ever dreamed possible. I know who your father is, Gestalt. A shocked Flinx hears these dying words from one of the renegade eugenicists whose experiments with humans twenty odd years ago shocked the galaxy and spawned Flinx. So Flinx and his minidrag Pip venture to Gestalt, an out-of-the-way planet perfect for someone who never wants to be found, disregarding the advice of those who think Flinx could make better use of his time locating the ancient sentient weapons platform that could be the galaxy's only chance of stopping the exterminating scourge that's fast approaching. Flinx might agree with them, but the quest for *patrimony* wins out. Sorry, galaxy. Could Gestalt supply the key to Flinx's shadowy past and strange powers? An eccentric loner in a remote area could be the father Flinx has never stopped searching for, perhaps the only person who can unravel the mystery of his birth and his amazing, agonizing powers. Unfortunately for Flinx, Gestalt also hosts a resident bounty hunter who's just learned about the stupendous reward offered for a certain dead redhead. Flinx gets a chance to test his adversary's skills when our hero's skimmer is blasted out of the sky and into a raging river in the middle of nowhere, a nowhere of impassable terrain and ravenous, carnivorous beasts. But hey, what's one more impossible challenge for someone who's spent his life defying the odds and escaping the inescapable? Flinx has one thing going for him: plenty of experience.

*Midworld* Alan Dean Foster, 2012-09-11 A jungle planet must defend against exploitative aliens in this novel by the #1 New York Times bestselling author of *Star Wars: The Force Awakens*. Covered by a lush rainforest, *Midworld* is home to a primitive society that lives in harmony with the natural world. But the arrival of an exploitative human company whose workers know nothing of *Midworld*'s delicate ecosystem sparks a conflict. Should

Midworld's villagers aid the humans or stand against them. The hero of Foster's addictive page-turner *Born* decides to lead two humans across the perilous jungle. His choice propels Midworld toward annihilation and leads him headlong into a battle for survival.

**The Icerigger Trilogy** Alan Dean Foster, 2012-09-11 Three novels from a New York Times bestselling author an exhilarating adventure that follows a group of human castaways stranded on an icy alien planet. Icy, desolate and sharply carved by hurricane force winds, Tran-ky-ky is a terrible place to crash land. But a botched kidnapping aboard the interstellar transport *Antares* sends Ethan Frome Fortune and a handful of his fellow travelers tumbling toward the stormy planet. Stranded and cut off from civilization, the castaways struggle to survive. In this page-turning trilogy, Fortune confronts vicious predators, even the plants want to make a meal of him, and forges an alliance with a native Tran. As he searches for a way off Tran-ky-ky, he helps the Tran gain admission to the Humanx Commonwealth and learns about their troubled history. Just as Fortune accepts that he'll never escape the harsh planet and acclimates to its relentless winter, he learns that scientists have detected rising temperatures in the atmosphere. This sinister change leads Fortune to a thrilling and unexpected final adventure.

**Reunion** Alan Dean Foster, 2002-03-26 Bestselling author Alan Dean Foster returns to his acclaimed Humanx universe where a young human orphan called Flinx seeks to unlock the dangerous secrets of his past and the uncertain prospects of his future with the aid of the formidable minidrag known as Pip. This mind-bending Pip and Flinx adventure is a roller coaster ride into the unknown filled with wonder and humor and a host of deadly adversaries. Using his enhanced empathic abilities, Flinx finesses his way into a top secret security installation on Earth. Once there, he bamboozles a sophisticated AI program into releasing classified information about the Meliorare Society, the sect of renegade eugenicists whose experiments with human beings had horrified the civilized universe more than twenty years ago. After all, as one of the few Meliorare experiments to survive, Flinx has a right to know about his past. Especially since his telepathic powers seem to be evolving. The question is, evolving into what? The excruciating headaches afflicting Flinx with increasing frequency make him wonder if he will be alive to find out.

**Lost and Found** Alan Dean Foster, 2005-05-31 Ever since his classic debut *The Tar Aiyem*, Krang, the first of the wildly successful Pip and Flinx adventures, New York Times bestselling author Alan Dean Foster has captivated readers around the world. Now this writer of bold imagination and stunning originality has created an electrifying space epic set in a universe at once strangely familiar and starkly terrifying. Familiar because the universe is ours, terrifying because the human condition might soon be. Not so long ago, Marcus Walker was just another young commodities trader in Chicago, working hard and playing harder. But that's all in the past, part of a life half-forgotten, a reality that vanished when he was attacked while camping and tossed aboard a starship bound for deep space. Desperately, Walker searches for explanations, only to realize he's trapped in a horrifying nightmare that is all too real. Instead of being a rich hotshot at the top of the food chain, Walker discovers he's just another amusing novelty, part of a cargo of cute aliens from primitive planets destined to be sold as pets to highly advanced populations in civilized regions of the galaxy. Even if he weren't constantly

watched by his captors Walker has few options After all there is no escape from a speeding starship Another man might resign himself to the inevitable and hope to be sold to a kindly owner but not Walker This former college football star has plenty of American ingenuity and no intention of admitting defeat now or ever In fact he s only just begun to fight The adventure will continue with two more novels *Flinx in Flux* Alan Dean Foster,2002-03-26 When Flinx no stranger to galactic intrigue found an unconscious woman on a riverbank deep in the jungles of Alaspin he took it in stride When he learned that the woman Clarity Held was a brilliant scientist abducted from a remote outpost on inhospitable Longtunnel by a group of fanatic assassins he tried to help the beautiful Clarity back to her project Unfortunately the assassins were still at work They would do anything to stop the research on Longtunnel and would kill anyone or anything that got in their way

**The End of the Matter** Alan Dean Foster,2002-03-26 Accompanied by his faithful minidrag Pip and a most troublesome alien called Abalamahalamatandra Ab for short Flinx set out for Alaspin the ruggedly primitive homeworld of his flying snake

There he hoped to find the giant man with the gold earring who somehow held the key to Flinx's mysterious past and to the strange powers he possessed. Chasing down his heritage was trouble enough but Flinx didn't know what real trouble was until he realized that the Qwarm, a deadly assassin squad, were three steps behind him with a contract to kill. But the minidrag's homeworld did not offer safety and Flinx had a terrible time just staying alive, a matter complicated to no mean degree by a collapstar already set on an unstoppable death course across the galaxy. **Sequels** Janet G. Fans of fun, fast-paced imaginative science-fiction adventure rejoice! 1. New York Times bestselling author Alan Dean Foster returns to his much-loved Commonwealth series with a new novel starring the indefatigable Flinx and his venomous minidrag Pip. Facing danger and doing good is their business, provided the price is right. The unexpected return of an old friend draws Flinx and Pip to the backward planet of Largess, whose seal-like denizens, primitive technology, and fractious clan politics have kept a wary Commonwealth from a profitable trade relationship. But now a rogue human, employing forbidden advanced weaponry, threatens to ignite a war among the Larians. And Flinx is just the man to stop it before it starts. But once on Largess, Flinx discovers that his empathic abilities, usually his greatest asset, are rendered useless by the natives' unique language, which is sung rather than spoken. Worse, the abduction of a powerful chieftain's daughter has raised tensions to the boiling point. Now Flinx must depend on his own mettle, and of course Pip, the devoted minidrag with the deadly edge to right wrongs, mend fences, and battle a cold-blooded adversary armed with enough firepower to blow them all away and destroy the chance for peace in Largess forever. Advance praise for *Strange Music*: Adventure-loving readers, new to the series as well as old fans, will enjoy Alan Dean Foster's return to Commonwealth space. Publishers Weekly. **The Chronicles of Riddick** Alan Dean Foster, 2007-12-18 No matter how long or how hard they strive, no matter how extensive their education as a species, no matter what they experience of the small heavens and larger hells they create for themselves, it seems that humans are destined to see their technological accomplishments always exceed their ability to understand themselves. *The Candle of Distant Earth* Alan Dean Foster, 2006-06-27 From science-fiction legend and New York Times bestselling author Alan Dean Foster comes the climactic final novel in The Taken trilogy, his electrifying space epic about a man and his dog for whom the expression "out of this world" takes on a whole new meaning. Location is everything. In Chicago, Marcus Walker was a hotshot commodities broker. In the cargo hold of the alien Vilenjji spaceship, he and a laconic dog named George, who has been speech-enhanced to increase his value, are just two more primitive creatures being shipped to the civilized part of the universe where the market for cuddly extraterrestrial pets is busting wide open. Though Walker and George manage to escape, man and dog are far from overjoyed, being even farther from Earth, billions of miles in fact, and without a clue as to whether the direction

home is up down or sideways Possessing universe level social skills Walker becomes the leader of his own armada Yet even a fleet commander is hard pressed to find a piece of space that no one s ever heard of much less cares to find To make matters worse it seems the Vilenjji are proving to be notoriously sore losers Even if Walker does pull off the impossible and pinpoint his needle of a solar system in the universe haystack there s a good chance that the unrelenting Vilenjji will get to him before he ever gets to Wrigley Field Yep it s a wide open universe out there bursting with possibilities and Walker s going to get hit with all of them

**Running from the Deity** Alan Dean Foster,2006-11-28 From science fiction legend Alan Dean Foster comes a thrilling Pip and Flinx adventure wherein a certain red haired green eyed young man blessed or cursed with strange powers finds himself and his mini dragon sidekick on a top secret mission concerning deep space alien worlds and a primordial horror intent on devouring all of it In the outer depths of the universe lies the Great Emptiness where something dreadful lurks hidden behind a great gravitational lens of dark matter Something horrific that howls and writhes and rages across three hundred million light years of space and is now heading straight for the Commonwealth and moving faster all the time One slim chance exists to avert catastrophe and only Flinx can take it Roaming the galaxy is a conscious planet size weapons system the legacy of a long extinct race As Flinx is the only one who has ever experienced mental contact with the machine it is his job to find the powerful alien artifact and coax it into joining the battle against the behemoth from beyond So Pip and Flinx valiantly sail into the unknown aboard their little spaceship which is immediately forced down for emergency repairs on planet Arrawd home to less advanced sentients and therefore off limits to space travelers But what with Arrawd being very beautiful and Flinx being Flinx this particular rule doesn t stand a chance Now Flinx is no stranger to murderous attacks and stalking assassins evading them occupies most of his waking hours but to be besieged by hordes bent on worshipping him as a god Worse still escaping this fate is going to be as impossible as fulfilling his dire mission What s a deity to do
