*Tamed Power* Peter J. Katzenstein, 2018-09-05 Revolutionary changes in global and European politics have reawakened old fears that Europe will be dominated by an unpredictable German giant The same changes have fueled new hopes for Germany and Europe as models of political pluralism in a peaceful and prosperous world In fact Peter J Katzenstein explains the current reality is too complex to fit either expectation Katzenstein contends that a multilateral institutionalization of power is the most distinctive aspect of the relationship between Europe and Germany Only the observer who is aware of this important fact can understand why Germany is willing to give up its new sovereign power Although Germany is larger than any other member of the European Union and plays a crucial role in the economic and political life of Eastern Europe its power is now funneled through the institutions of the European Union rather than erupting in a narrow power defined sense of national self interest The empirical chapters of this book explore the institutionalization of power relations between the European Union and Germany as well as the relations of Germany and the European Union with most of the smaller European states

concerned with the dispersion of authority from central states up to supranational institutions down to subnational governments and side ways to public private networks It brings together work that significantly advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series targets mainly single authored or co authored work but it is pluralistic in terms of disciplinary specialization research design method and geographical scope Case studies as well as comparative studies historical as well as contemporary studies and studies with a national regional or international focus are all central to its aims Authors use qualitative quantitative formal modeling or mixed methods A trade mark of the books is that they combine scholarly rigour with readable prose and an attractive production style The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and Walter Mattli of the University of Oxford

Sweden and Visions of Norway Hildor Arnold Barton, 2003 H Arnold Barton investigates Norwegian political and cultural influences in Sweden during the period of the Swedish Norwegian dynastic union from 1814 to 1905 After a proud medieval past Norway had come under the Danish crown in the fourteenth century and had been reduced to virtually a Danish province by the sixteenth In 1814 Denmark relinquished Norway which became a separate kingdom dynastically united with Sweden with its own constitutional government Disputes during the next ninety one years caused Norway unilaterally to dissolve the tie in 1905 Barton is the first historian to look beyond the cultural conflicts and examine the impact of the union on internal developments particularly in Sweden Prior to 1814 Norway unlike Sweden had no constitution and only the rudiments of higher culture yet paradoxically Norway exerted a greater direct influence on Sweden Reflecting a society lacking a native nobility Norway s 1814 constitution was with the exception of that of the United States the most democratic in the world It became the guiding star of Swedish liberals and radicals striving to reform the antiquated system of representation in their parliament Norway s cultural void was filled with a stellar array of artists writers and musicians led by Bjoernsjerne Boornson Henrik Ibsen and Edvard Grieg From the 1850s through the late 1880s this wave of Norwegian creativity had an immense impact on literature

art and music in Sweden By the 1880s however August Strindberg led a revolt against an exaggerated Norvegomania in Sweden Barton sees this reaction as a fundamental inspiration to Sweden s intense search for its own cultural character in the highly creative Swedish National Romanticism of the 1890s and early twentieth century **Parliamentary Dimensions**
