Normal Bad Boys Prue Rains, Eli Teram, 1992-08-27 Rains and Teram trace the history impact and subversion of public policies affecting the disposition of delinquent neglected and emotionally disturbed anglophone youth in Montreal They examine these policies through study of the more than eighty year history of The Boys Farm now known as Shawbridge Youth Centres and the strategies it used to control admissions in the face of changing relations with other organizations in Montreal s delinquency child welfare and mental health networks The authors describe the surprisingly direct efforts to increase the supply of reformable normal bad boys at the turn of the century the beginnings around mid century of the differential treatment ideology that eventually legitimized institutional control over admissions and the more recent child welfare environment that emphasised professional self regulation and organizational autonomy The final section of the book is a contemporary case study of Montreal s anglophone youth protection network in the wake of the implementation in 1979 of the Quebec Youth Protection Act [Youth and Justice in Western States, 1815-1950](#) Jean Trépanier, Xavier Rousseaux, 2018-02-05 This book explores the treatment of juvenile offenders in modern Western history The last few decades have witnessed major debates over youth justice policies Juvenile and youth justice legislation has been reviewed in a number of countries Despite the fact that new perspectives such as restorative justice have emerged the debates have largely focused on issues that bring us back to the inception of juvenile justice namely whether youth justice ought to be more akin to punitive adult criminal justice or more sensitive to the welfare of youths This issue has been at the core of policy choices that have given juvenile justice its orientations since the beginning of the twentieth century It also gave shape to the evolution that paved the way for the creation of juvenile courts in the nineteenth century Understanding those early debates is essential if we are to understand current debates and place them into perspective Based on primary archival research this comprehensive study begins by presenting the roots birth and evolution of juvenile justice from the nineteenth century up to the beginning of the twenty first The second part deals with nineteenth century responses to juvenile delinquency in England and Canada while the third focuses on the welfare orientation that characterized juvenile courts in the first half of the twentieth century in Switzerland the Netherlands Germany and Belgium Finally the fourth part focuses on the perspective of the youths and their families in Belgium France and Canada *Capitalism Reloaded* Peter Bloom, 2025-04-30 Available Open Access digitally under CC BY NC ND license In *Capitalism Reloaded* Peter Bloom charts a pivotal shift from the well known military industrial complex to a new Authoritarian Financial Complex Unlike its predecessor which centred on armaments and defence this emerging power structure fuses financial interests with advanced surveillance and digital control turning social repression into a lucrative industry Bloom introduces a ground breaking theory of complex power where control itself becomes a central driver of capitalism shaping economies and societies Bloom explores how this insatiable demand for security and profit extends beyond traditional authoritarian regimes permeating everyday life and eroding democratic

freedoms This book challenges readers to confront the deep entanglements of modern capitalism before they solidify into a techno authoritarian order *Complicity and the Politics of Representation* Cornelia Wächter, Robert Wirth, 2019-03-18 This book explores the concept of complicity with regard to the politics of representation Over the past decades complicity critique has evolved and become integral to literary and cultural studies Nonetheless the concept of complicity remains fundamentally underresearched Addressing topical and exigent concerns such as white supremacy war and displacement child abuse and mentalism this timely volume explores how producers texts consumers and critics can either intentionally or unwittingly become complicit in the creation and perpetuation of social harm and how the structures supporting such complicities can be resisted The contributors aim to raise awareness and lay the groundwork for a utopian radical unfolding that enables not just non complicity i e the refusal to be complicit but anti complicity the active and collective resistance to social harm Fostering Nation? Veronica Strong-Boag, 2011-09-28 *Fostering Nation* Canada Confronts Its History of Childhood Disadvantage explores the missteps and the promise of a century and more of child protection efforts by Canadians and their governments It is the first volume to offer a comprehensive history of what life has meant for North America s most disadvantaged Aboriginal and newcomer girls and boys Gender class race and dis ability are always important factors that bear on youngsters access to resources State fostering initiatives occur as part of a broad continuum of arrangements from social assistance for original families to kin care and institutions Birth and foster parents of disadvantaged youngsters are rarely in full control Children most distant from the mainstream ideals of their day suffer and that suffering is likely to continue into their own experience of parenthood That trajectory is never inevitable however Both resilience and resistance have shaped Canadians engagement with foster children in a society dominated by capitalist colonial and patriarchal power *Fostering Nation* breaks much new ground for those interested in social welfare history and the family It offers the first comprehensive perspective on Canada s provision for marginalized youngsters from the nineteenth to the twenty first century Its examination of kin care institutions state policies birth parents foster parents and foster youngsters provides ample reminder that children s welfare cannot be divorced from that of their parents and communities and reinforces what it means when women bear disproportionate responsibility for caregiving Encyclopedia of Case Study Research Albert J. Mills, Gabrielle Durepos, Elden Wiebe, 2010 This is the authoritative reference work in the field An interdisciplinary set it investigates the extensive history design and methods of case study research **Their Benevolent Design** Janice Harvey, 2024-03-12 Throughout the nineteenth century poor relief in Quebec was private and sectarian In Montreal bourgeois Protestant women responded by establishing institutional charities for destitute women and children *Their Benevolent Design* delves into the inner workings of two of these charities the Protestant Orphan Asylum and the Montreal Ladies Benevolent Society sheds light on little known aspects of the community s response to social inequality and examines the impact of liberalism on changing attitudes to poverty and charity Seeing charity as a class duty elite

women structured their benevolent design around the protection religious salvation and social regulation of poor children Janice Harvey explores how these philanthropists overcame the constraints of social conventions for women in polite society how charity directors devised and implemented institutional aid and how that aid was used by families and experienced by children Following the development of the charities through the end of the nineteenth century and into the early twentieth the book explores the conflict that arose between these institutions and other social services including those that advocated for foster care and so called scientific charity The 1920s marked a major social shift in how child poverty was understood and managed in Protestant Montreal Despite the gendered obstacles facing women in charity organization Their Benevolent Design celebrates the remarkable ingenuity and independence of a group of Canadian women in shaping social aid and improving the grim realities of child poverty

The Dominion of Youth Cynthia Comacchio, 2008-10-08 Adolescence like childhood is more than a biologically defined life stage it is also a sociohistorical construction The meaning and experience of adolescence are reformulated according to societal needs evolving scientific precepts and national aspirations relative to historic conditions Although adolescence was by no means a discovery of the early twentieth century it did assume an identifiably modern form during the years between the Great War and 1950 The Dominion of Youth Adolescence and the Making of Modern Canada 1920 to 1950 captures what it meant for young Canadians to inhabit this liminal stage of life within the context of a young nation caught up in the self formation and historic transformation that would make modern Canada Because the young at this time were seen paradoxically as both the hope of the nation and the source of its possible degeneration new policies and institutions were developed to deal with the problem of youth This history considers how young Canadians made the transition to adulthood during a period that was developmental both for youth and for a nation also working toward individuation During the years considered here those who occupied this dominion of youth would see their experiences more clearly demarcated by generation and culture than ever before With this book Cynthia Comacchio offers the first detailed study of adolescence in early twentieth century Canada and demonstrates how young Canadians of the period became the nation's first modern teenagers
