**Norman Lindsay** John Hetherington,1969      *Norman Lindsay* Douglas Stewart,2012 Douglas Stewart s record of thirty years close friendship with Australia s most controversial artist Norman Lindsay and Douglas Stewart were friends for close to thirty years enjoying a creative companionship that spanned from their first meeting in 1940s bohemian Sydney to Lindsay s death in 1969 In this moving record of that friendship Douglas Stewart remembers Norman Lindsay the man his richly talented family and circle of friends his quicksilver and vital personality and his exceptional gifts as painter etcher and writer But above all this is an act of homage to a man whom Douglas Stewart saw as one of the greatest figures of Australian art and literature      *Australian Writers, 1915-1950* Selina Samuels,2002 The starting date for this volume is central to Australia s self definition it is the year of the most famous battle in Australian military history Gallipoli during World War I It marked the first time that Australians fought as a nation rather than part of the British military and the Gallipoli campaign has come to signify a legendary image of the Australian character one who is brave in the face of danger stoic in adversity and loyal to ones comrades      **The ALS Guide to Australian Writers** Martin Duwell,Laurie Hergenhan,1992 Alphabetically organised chronological listing of the primary works of each author as well as selected critical biographical and historical articles and reviews and interviews Material is drawn from the series Annual Bibliographies of Studies in Australian Literature published in Australian Literary Studies between 1964 and 1991      **Official Year Book of the Commonwealth of Australia No. 48 - 1962** ,      *Australia's Writers and Poets* John Miller,2010-07-30 From the iconic poems of Banjo Paterson to today s international bestsellers by Peter Carey and Patrick White Australian literature has reflected the changes in Australia s national development and today it stands proudly on the world stage At the same time Indigenous writing has come into its own with authors such as Oodgeroo Noonuccal giv      *A Companion to Australian Literature Since 1900* Nicholas Birns,Rebecca McNeer,2007 A fresh twenty first century look at Australian literature in a broad inclusive and multicultural sense      **Australian Books and Authors in the American Marketplace 1840s-1940s** David Carter,Roger Osborne,2018-07-02 Australian Books and Authors in the American Marketplace 1840s 1940s explores how Australian writers and their works were present in the United States before the mid twentieth century to a much greater degree than previously acknowledged Drawing on fresh archival research and combining the approaches of literary criticism print culture studies and book history David Carter and Roger Osborne demonstrate that Australian writing was transnational long before the contemporary period In mapping Australian literature s connections to British and US markets their research challenges established understandings of national imperial and world literatures Carter and Osborne examine how Australian authors editors and publishers engaged productively with their American counterparts and how American readers and reviewers responded to Australian works They consider the role played by British publishers and agents in taking Australian writing to America and how the international circulation of new literary genres created new opportunities for novelists to move

between markets Some of these writers such as Christina Stead and Patrick White remain household names others who once enjoyed international fame such as Dale Collins and Alice Grant Rosman have been largely forgotten The story of their books in America reveals how culture commerce and copyright law interacted to create both opportunities and obstacles for Australian writers **Australian Literary Studies** ,1995 *The Cambridge History of the Australian Novel* David Carter,2023-07-27 The Cambridge History of the Australian Novel is an authoritative volume on the Australian novel by more than forty experts in the field of Australian literary studies drawn from within Australia and abroad Essays cover a wide range of types of novel writing and publishing from the earliest colonial period through to the present day The international dimensions of publishing Australian fiction are also considered as are the changing contours of criticism of the novel in Australia Chapters examine colonial fiction women s writing Indigenous novels popular genre fiction historical fiction political novels and challenging novels on identity and belonging from recent decades not least the major rise of Indigenous novel writing Essays focus on specific periods of major change in Australian history or range broadly across themes and issues that have influenced fiction across many years and in many parts of the country **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library. **National Treasures from Australia's Great Libraries** National Library of Australia,2005 National treasures from Australia s great libraries brings our national memory to life for the first time showcasing more than 170 treasures that have helped define our nation where we come from who we are and what sets us apart Both a guide and a lasting record of a remarkable exhibition this richly illustrated catalogue reveals the magnificent collections of Australia s National State and Territory libraries *The Cambridge History of Australian Literature* Peter Pierce,2009-09-17 Draws on scholarship from leading figures in the field and spans Australian literary history from colonial origins indigenous and migrant literatures as well as representations of Asia and the Pacific and the role of literary culture in modern Australian society *The Cambridge Companion to Australian Literature* Elizabeth Webby,2000-08-21 An indispensable reference for the study of Australian literature **Modern Australian Literature (1900-1923)** Nettie Palmer,1924 *Australian Children's Authors* Rachel Dixon,2017-09-01 The short biographies in Australian Children s Authors are arranged alphabetically They include a brief description of the genre and style of each author and a select bibliography of their publications Children can browse through the list and look for an author whose work they would like to read They can also find out about the history of writing for children in Australia Included are tips for writing your own books and explanations that reveal how a writer turns thoughts into a finished book Famous Australians presents short biographies of people who have made notable contributions to society and who have helped make sport and children s literature such important and popular aspects of Australian culture *On Our Selection!* Steele Rudd,1899 *Inventing Australia* Richard White,2020-07-28 White sets himself a most ambitious task and he goes remarkably far to achieving his goals Very few books tell so much about Australia with elegance

and concision as does his Professor Michael Roe Stimulating and informative an antidote to the cultural cringe Canberra Times To be Australian what can that mean Inventing Australia sets out to find the answers by tracing the images we have used to describe our land and our people the convict hell the workingman s paradise the Bush legend the typical Australian from the shearer to the Bondi lifesaver the land of opportunity the small rich industrial country the multicultural society The book argues that these images rather than describing an especially Australian reality grow out of assumptions about nature race class democracy sex and empire and are invented to serve the interests of particular groups There have been many books about Australia s national identity this is the first to place the discussion within an historical context to explain how Australians views of themselves change and why these views change in the way they do

**The Routledge Companion to Australian Literature** Jessica Gildersleeve, 2020-12-22 In recent years Australian literature has experienced a revival of interest both domestically and internationally The increasing prominence of work by writers like Christos Tsiolkas heightened through television and film adaptation as well as the award of major international prizes to writers like Richard Flanagan and the development of new high profile prizes like the Stella Prize have all reinvigorated interest in Australian literature both at home and abroad This Companion emerges as a part of that reinvigoration considering anew the history and development of Australian literature and its key themes as well as tracing the transition of the field through those critical debates It considers works of Australian literature on their own terms as well as positioning them in their critical and historical context and their ethical and interactive position in the public and private spheres With an emphasis on literature s responsibilities this book claims Australian literary studies as a field uniquely positioned to expose the ways in which literature engages with produces and is produced by its context provoking a critical re evaluation of the concept of the relationship between national literatures cultures and histories and the social function of literary texts

**History of the Book in Australia Volume 3** Craig Munro, 2006-07 This new volume in UQP s History of the Book in Australia series explores Australian book production and consumption from 1946 to the present day In the immediate postwar era most books were imported into a colonial market dominated by British publishers Paper Empires traces this fascinating and volatile half century using wide ranging research oral history and memoir to explore the worlds of book publishing selling and reading After 1945 Australian publishing went from a handful of fledgling businesses to the billion dollar industry of today with thousands of new titles each year and a vast array of imported books Publishing s postwar expansion began with the baby boom and the increased demand for school texts with independent houses blossoming during the 1960s and 70s followed by the current era dominated by global conglomerates All aspects of print culture are explored from authorship and editing to bookselling libraries and reading habits in the context of today s rapidly changing publishing landscape with its many technological challenges A wide range of expert contributors including book trade practitioners have produced this lively and indispensable account of our vital cultural industry
