Normative Politics And The Community Of Nations:

Normative Politics and the Community of Nations Haskell Fain, 1987 Social Trust and Human Communities Trudy Govier, 1997 Govier offers a general account of trust in a variety of social contexts and explores the negative effects of distrust on society For example she examines the role of trust in relationships between doctors and patients and between politicians and constituents With well chosen examples ranging from the Oka crisis to Meech Lake Govier points out that distrust in politics has been especially prevalent and while it may be well founded can have pernicious effects Social Trust and Human Communities will be of great interest to students and scholars in the areas of applied ethics social theory and politics Communitarian International Relations Emanuel Adler, 2005 Emanuel Adler is one of the leading IR theorists of his generation This volume brings together a collection of his articles including four new and previously unpublished chapters **Citizenship and State Succession** European Commission for Democracy through Law, 1998-01-01 On cover title page European Commission for Democracy through Law **Full Responsibility** Steven G. Smith, 2022-09-01 Starting with an appreciation of the practical realizations that move us to assume responsibility Full Responsibility develops an ontologically grounded model of different forms of responsibility and the challenges and fulfillments found in each Special attention is given to pragmatic and political responsibility highlighting considerations for right action that are not accurately recognized by universalizing ethics Issues in abortion decisions providing for responsible work and immigration and refugee policy are examined in the complex frame of political responsibility Moving past the standoff between political moralism and political realism Steven G Smith offers an account of political responsibility as an unstable combination of all modes of responsibility The book concludes by reviewing different approaches to the impossible but compelling ideal of full responsibility The distinctive natures of ethical historical and religious forms of responsibility are discussed in appendices **An Ethic of Responsibility in International Relations** Daniel Warner, 1991 Questioning many of the traditional assumptions found in discussions of ethics in international relations Warner introduces a new way of thinking about moral responsibility and invites reflection on the nature of communities and states **Nationalism and Internationalism in the Post-Cold War Era** Kjell Goldmann, Ulf Hannerz, Charles Westin, 2000 The tension between nationalism and internationalism has been a major feature of world politics since the end of the Cold War Based on a Nobel symposium this collection brings together an international selection of acclaimed authors from a wide variety of academic disciplines The book combines focused case studies and more theoretically based material to examine critically the post Cold War political landscape Subjects covered include changing interpretation of the nation state and nationalism the growing prominence of transnational organisations technological changes in information communication and transport multiculturalism and citizenship ethnicity and religious identity in African Indian Bosnian and Polish nationalism the growing global significance of Islam *International Organization* John J. Kirton, 2017-05-15 For well over a century international organizations have been

central to the study and practice of international relations and global governance But how much and how do they help hinder or otherwise alter the behaviour of the actors who utilize them and provide public goals for the global community as a whole By assembling the leading works that have defined the scholarly field of international organization from realist liberal institutionalists constructivists and political economy traditions this work examines the many organizations which have formed in ever expanding numbers and fields over the years the degree to which they have succeeded and their future potential It looks at the changing international arena particularly with the expansion of civil society and how that affects the role of such organizations Has a formula for an effective and successful international organization developed or will one have to wait for the next generation of organizations institutions and regimes

Reckoning with Empire: Self-Determination in International Law Miriam Bak Mckenna, 2022-11-28 The book adopts a new approach to self determination s international legal history tracing the ways in which various actors have sought to reinvent self determination in different juridical political and economic iterations to create the conditions for global transformation The value of the book s approach lies not only in a more nuanced understanding of self determination s legal history but in excavating the multiple ways in which actors particularly those from the Global South have challenged the existing normative and legal structures which rendered them unequal under the European system of international law Rethinking this process touches on issues that are relevant not only to debates about the enduring legacy of imperialism in our present but also to contemporary discussions of the position self determination has come to occupy in international law

Democracy, Nationalism and Multiculturalism Ramón Máiz, Ferrán Requejo, 2004-06-11 This book provides an up to date review of subnational and multicultural issues in Western multinational states

Constitutional Law and Politics of Secession Antoni Abat i Ninet, 2023-07-31 This collection presents an analysis of the concept of secession and its constitutional accommodation alongside an assessment of the effects of secession in constitutional and international law The work proposes a new approach and insights into the existing literature that fill a gap from multidisciplinary and transdisciplinary perspectives The book approaches the topics of secession constitutionalism and their relationship from both theoretical and empirical perspectives including the analysis of particular secessionist examples such as Catalonia the Basque Country Tigray the Palestinian minority in Israel Bosnia and Herzegovina and the Mapuche Nation from a comparative constitutional perspective Elucidating these issues from different methodological and conceptual perspectives produces novelties in the scientific and constitutional debate The interplay between constitutions constitutional law and secession is indeed explored from philosophical socio legal but also from strict constitutional law outlooks Written by constitutional and public international law experts the book will be of interest to students academics and researchers working in the areas of constitutional law legal theory theory of the state philosophy of law and political science
