Iain Begg

North American Cities And The Global Economy Vol 44 Challenges And Opportunities:

The New Regional Economies William R. Barnes, Larry C. Ledebur, 1998 The politics and economics of the United States are wedded in the political economy of the nation state and the nationalist economic policies This nationalist paradigm is however showing the following signs of fatigue the role of the nation state is diminishing as the economy globalizes US national accounting systems are less effective technology forces change trading blocs are emerging there is less control of exchange rates regional economies are restructuring and competitive environments are changing This book proposes that political jurisdictions are not economies but polities and explores the complex and important economic implications of this thesis

North American Cities and the Global Economy Peter Karl Kresl, Gary Gappert, 1995-07-18 As the global economy becomes ever more interconnected what role will North American cities play What challenges will North American cities encounter as they become more integrated in the world economy The contributors to this groundbreaking volume examine these questions and offer a candid analysis of urban economics in a global age Taking a multidisciplinary approach contributors address such salient issues as the politics of international engagement planning strategic linkages between cities cross border interaction and networking in North America wage polarization and urban competitiveness Scholars and students in the fields of urban studies economics international studies and urban planning will find this an invaluable resource In addition this volume will also serve a key resource for city practitioners

Urban Competitiveness Iain Begg, 2002-02-27 The factors that make some cities more successful has become an increasingly important policy issue This book is the first to explore facets of competitiveness in a systematic way that combines theory evidence and policy implications Bringing together experts on urban economic performance it provides a new look at urban competitiveness

Cities in the International Marketplace H. V. Savitch, Paul Kantor, 2018-06-05 Does globalization menace our cities Are cities able to exercise democratic rule and strategic choice when international competition increasingly limits the importance of place Cities in the International Marketplace looks at the political responses of ten cities in North America and Western Europe as they

grappled with the forces of global restructuring during the past thirty years H V Savitch and Paul Kantor conclude that cities do have choices in city building and that they behave strategically in the international marketplace Rather than treating cities through case studies this book undertakes rigorous systematic comparison In doing so it provides an innovative theory that explains how city governments bargain in the capital investment process to assert their influence The authors examine the role of economic conditions and intergovernmental politics as well as local democratic institutions and cultural values They also show why cities vary in their approaches to urban development They portray how cities are constrained by the dynamics of the global economy but are not its prisoners Further they explain why some urban communities have more maneuverability than do others in the economic development game Local governance culture and planning can combine with economic fortune and national urban policies to provide resources that expand or contract the scope for choice This clearly written book analyzes the political economy of development in Detroit Houston and New York in the United States Toronto in Canada Paris and Marseilles in France Milan and Naples in Italy and Glasgow and Liverpool in Great Britain **Spectrum** ,1996 **Bibliographic Index** ,1995 **Fast-Forward** Richard Hillestad,Ben D. Van Roo,Keenan D. Yoho,2009-08-31 Efficient movement of freight within the United States and across its borders is a critical enabler of future U S economic growth The authors provide an overview of the freight transportation system and the problems it faces concluding with a discussion of key system modernization issues including increasing capacity making the system less vulnerable to disruption addressing environmental concerns and building support for funding **Environment and Planning** ,1997 Journal of urban planning and design Publishes research in the application of formal methods methods models and theories to spatial problems involving the built environment and the spatial structure of cities and regions Includes the application of computers to planning and design in particular the use of shape grammars artificial intelligence and morphological methods to buildings and towns the use of multimedia and GIS in urban and regional planning and the development of ideas concerning the virtual city
