Our Way Of Life Twelve Aspects Of The Br:

Cricket, Literature and Culture Anthony Bateman, 2016-05-13 In his important contribution to the growing field of sports literature Anthony Bateman traces the relationship between literary representations of cricket and Anglo British national identity from 1850 to the mid 1980s Examining newspaper accounts instructional books fiction poetry and the work of editors anthologists and historians Bateman elaborates the ways in which a long tradition of literary discourse produced cricket's cultural status and meaning His critique of writing about cricket leads to the rediscovery of little known texts and the reinterpretation of well known works by authors as diverse as Neville Cardus James Joyce the Great War poets and C L R James Beginning with mid eighteenth century accounts of cricket that provide essential background Bateman examines the literary evolution of cricket writing against the backdrop of key historical moments such as the Great War the 1926 General Strike and the rise of Communism Several case studies show that cricket simultaneously asserted English ideals and created anxiety about imperialism while cricket's distinctively colonial aesthetic is highlighted through Bateman's examination of the discourse surrounding colonial cricket tours and cricketers like Prince Kumar Shri Ranjitsinhji of India and Sir Learie Constantine of Trinidad Featuring an extensive bibliography Bateman's book shows that while the discourse surrounding cricket was key to its status as a symbol of nation and empire the embodied practice of the sport served to destabilise its established cultural meaning in the colonial and postcolonial contexts

Sport, History, and Heritage Jeff Hill, Kevin Moore, Jason Wood, 2012 Sport is an integral part of British culture and an important aspect of modern life but although its importance has been recognised in academic history in the growing and related fields of heritage and museum studies it has yet to be fully appreciated and brought into interaction More with historical studies Ideologically sport and heritage both convey powerful messages responsible for shaping our understanding of sport history and the past although they have essentially operated as separate spheres one important aspect of convergence between them is seen in the rise and popularity of sports museums the collecting of sporting art and memorabilia and popular concern over the demise of historic sports buildings and places The essays in this volume look at sports history as manifested in academic enquiry museum exhibition and heritage sites They deal among other things with the public representation of sport and why it matters its impact on public spheres the direction of sports heritage studies and what they should be attempting to achieve the role of museums in public history and the place memory and meaning in the historic sports landscape

Theatres of Memory Raphael Samuel, 2012-09-11 When Theatres of Memory was first published in 1994 it transformed the debate about what is to be considered history and questioned the role of heritage that lies at the heart of every Western nation's obsession with the past Today in the age of Downton Abbey and Mad Men we are once again conjuring historical fictions to make sense of our everyday lives In this remarkable book Samuel looks at the many different ways we use the unofficial knowledge of the past Considering such varied areas as the fashion for retrofitting the rise of family history the joys of collecting old photographs

the allure of reenactment societies and televised adaptations of Dickens Samuel transforms our understanding of the uses of history He shows us that history is a living practice something constantly being reassessed in the world around us

Ulster Unionism and British National Identity Since 1885 James Loughlin,1995 Much has been written on the Irish problem and on the political manifestations of Ulster Unionism but the history of Unionist ideology has been relatively neglected James Loughlin aims to correct this and to discuss the relationship of Unionism to the idea of Britishness demonstrating that the central element of Unionism was its rejection of Irish nationalism and its firm embracing of British national identity particularly with regard to the monarchy and membership of the wider British nation The author pays close attention to primary sources especially local newspapers and thus reveals the regional variations in the character of Unionism

British Sporting Relations with Apartheid South Africa Matthew P. Llewellyn,Toby C. Rider,2024-11-25 The transnational anti apartheid sport boycott of South Africa represented the most prominent extended and controversial anti racism campaign in the history of sport Spearheaded by prominent British religious and anti colonial figures and exiled South Africans emboldened by communist and Global South support and legitimised by supranational political bodies such as the United Nations the Organisation of African Unity and the Commonwealth the sport boycott helped propel anti apartheid out of relative obscurity and struck at the very heart of a cultural practice that served an explicitly ideological function in Afrikaner society Britain held a dichotomous even paradoxical role as both prosecutor and defender of white South Africa This book utilises sport as a critical lens for understanding the dynamics and dichotomies of British attitudes towards the apartheid regime Debates over whether to continue or to cut sporting links with apartheid South Africa proved bitterly divisive The considerable weight the subject carried and the degree to which it saturated British political and social discourse for four decades speaks to its impact and importance British Sporting Relations with Apartheid South Africa represents the first archival based historical examination of Britain s sporting relations with South Africa throughout the apartheid era 1948 1994 Situating the analysis within the shifting multiracial and multicultural landscapes of postcolonial Britain and within global political cultural sporting and ideological debates the authors trace the origins and evolution of the transnational sport boycott and examine what inspired Britons to energise anti apartheid sport campaigns and in contrast what drove many others to vehemently oppose them at every turn **Library of Congress Catalogs** Library of Congress,1955 *The British Workwoman Out and at Home* ,1863
