El viejo y el nuevo poder económico en la Argentina Martín Schorr, 2021-03-20 Desde la conformación del Estado nacional a fines del siglo XIX hasta las noticias de ayer la lite empresarial ha sido un actor central con un poder de veto determinante en la economía argentina Por eso analizar la cúpula de las grandes empresas en distintos momentos históricos es una perspectiva reveladora que ayuda a comprender las dificultades recurrentes del país para reducir sus niveles de dependencia y desigualdad Este libro ofrece una mirada de largo plazo sobre el poder económico de la Argentina con el foco puesto en la trayectoria de las grandes firmas de la economía real En la rica tradición de los estudios de este campo pero con aportes originales en los indicadores que utilizan y la historia que reconstruyen los autores y las autoras parten de 1880 y llegan a las primeras décadas del siglo XXI repasando la composición el comportamiento y el grado de influencia de la lite empresarial en el país Muestran por ejemplo que más allá de los cambios en sus integrantes las grandes empresas han hecho jugar su influencia en su favor de maneras diversas corridas cambiarias subas de precios retención inversora obtención de prebendas y colonización de ciertos espacios del Estado También dejan claro el lugar destacado del capital extranjero en el seno del poder económico local sobre todo en aquellos sectores que en cada momento histórico impulsaron las mayores ganancias Y

reflexionan sobre la dificultad de calificar como burgues a nacional al empresariado local que salvo excepciones ha sido siempre m s propenso a fugar divisas y a subordinarse al capital extranjero que a privilegiar el desarrollo genuino Este recorrido termina con un planteo tan urgente como problem tico si no hay duda de que los sectores nacionales y extranjeros del gran capital tienen el poder para bloquear cualquier intento de cambio que no los beneficie directamente es posible condicionarlos solo por la v a de la acumulaci n de poder pol tico O es necesario al mismo tiempo transformar sus rasgos estructurales

Everyday Revolutions Marina A. Sitrin, 2012-09-13 In the wake of the global financial crisis new forms of social organization are beginning to take shape Disparate groups of people are coming together in order to resist corporate globalization and seek a more positive way forward These movements are not based on hierarchy rather than looking to those in power to solve their problems participants are looking to one another In certain countries in the West this has been demonstrated by the recent and remarkable rise of the Occupy movement But in Argentina such radical transformations have been taking place for years Marina Sitrin tells the story of how regular people changed their country and inspired others across the world Reflecting on new forms of social organization such as horizontalism and autogesti3n as well as alternative conceptions of value and power Marina Sitrin shows how an economic crisis spurred a people s rebellion how factory workers and medical clinic technicians are running their workplaces themselves without bosses how people have taken over land to build homes raise livestock grow crops and build schools creating their own art and media in the process Daring and groundbreaking Sitrin shows how the experiences of the autonomous movements in Argentina can help answer the question of how to turn a rupture into a revolution
