Problems And Perspectives Of Fundamental Theology:

Problems and Perspectives of Fundamental Theology René Latourelle, Gerald O'Collins, 1982 Nineteen scholars assess contemporary fundamental theology To locate and define their field a team of international experts address four kinds of problems 1 problems of identity and method the nature of fundamental theology in historical and in systematic perspective 2 questions of hermeneutics 3 Christological approaches 4 problems of ecclesiology No other work in any language provides such an extensive in depth account of the tasks and future possibilities for fundamental theology It is an indispensable aid for understanding the revolutionary development which this discipline has undergone before during and after the Second

Vatican Council **A History of Apologetics** Avery Dulles, 2018-08-22 Making the case for the Christian faith apologetics has always been part of the Church's mission Yet Christians sometimes have had different approaches to defending the faith responding to the needs of their respective times and framing their arguments to address the particular issues of their day Cardinal Avery Dulles's A History of Apologetics provides a masterful overview of Christian apologetics from its beginning in the New Testament through the Middle Ages and on to the present resurgence of apologetics among Catholics and Protestants Dulles shows how Christian apologists have at times both criticized and drawn from their intellectual surroundings to present the reasonableness of Christian belief Written by one of Catholicism's leading American theologians A History of Apologetics also examines apologetics in the 20th and early 21st centuries including its decline among Catholics following Vatican II and its recent revival as well as the contributions of contemporary Evangelical Protestant apologists Dulles also considers the growing Catholic Protestant convergence in apologetics No student of apologetics and contemporary theology should be without this superb and masterful work The Westminster Dictionary of Christian

Theology Alan Richardson, John Bowden, 1983-01-01 The Westminster Dictionary of Christian Theology is an important reference for any pastor scholar or student of theology The articles are clearly written historically informative and conceptually clarifying The entries are arranged alphabetically for ease of use

On Divine Revelation: The Teaching of the Catholic Faith Vol. One Fr. Reginald Garrigou-Lagrange, 2022-05-27 In On Divine Revelation one of Garrigou Lagrange's most significant works here available in English for the very first time he offers a classic treatment of this foundational topic It is an organized and thorough defense of both the rationality and supernaturality of divine revelation He presents a careful yet stimulating account of the scientific character of theology the nature of revelation itself mystery dogma the grace of faith the powers of human reason false interpretations thereof rationalism naturalism agnosticism and pantheism the motives of credibility and much more Though written a century ago On Divine Revelation will restore confidence in theology as a distinct and unified science and return focus to the fundamental questions of the doctrine of revelation It also serves as a salutary corrective to contemporary theology's anthropocentrism and concern with what is relative in revelation and religious experience by reorienting our theological attention to what is most certain central and sure in our knowledge of

divine revelation the Triune God who has revealed his inner life and salvific will Readers will see the great splendor of the gift of divine revelation radiant with credibility before the gaze of reason and drawing our supernatural assent to the mysteries through the gift of faith As Fr Cajetan Cuddy O P observes On Divine Revelation is a stunning work of inestimable value No other subsequent work on this topic has come close to meeting it much less surpassing it **Reconstructing Theology** Terence Bateman,2014 Francis Schussler Fiorenza is one of the pivotal contemporary Roman Catholics working in the field of systematic theology and has made vital contributions to the discipline This book the first of its kind provides an overview of Fiorenza s theological biography from early influences and original insights to a comprehensively systematic project to reconstruct the foundations of theology and explicates the major contours of Fiorenza s vital contributions to theological method foundational systematic and constructive theology and the practical function of religion in society and politics As the author argues Fiorenza s vision is one of unrivaled clarity and coherence even more it follows a path of the shifting patterns in theology over the past half century thus shedding light upon the internal constitution of recent Catholic and Protestant theology **American Theological Inquiry, Volume Two, Issue One** Gannon Murphy,2009-01-15 American Theological Inquiry ATI was formed in 2007 by Drs S Gannon Murphy PhD St David s College Univ Wales Theology Presbyterian Reformed and Stephen Patrick PhD Univ Illinois Philosophy Eastern Orthodox to open up space for diverse Christian academicians who affirm the Ecumenical Creeds to share research throughout the broader Christian scholarly community in America ATI reaches thousands of Christian scholars throughout the United States particularly specialists in theology Though ATI is a new journal scholars who publish with ATI benefit from exposure to a vast non insular network of one of the broadest Christian academic communities possible *Liturgy as Revelation* Philip Caldwell,2014-12-01 A critical issue in modern Catholic theology has been the relationship between the doctrine of revelation and the church s liturgical and sacramental practice This volume argues that although in the twentieth century Catholic theology increasingly recognized the centrality of Christology particularly the person of Christ as the locus of revelation and drew out the crucial implications of Christ as the revelation of God it was slow to connect this revelatory dynamic with the encounter that occurs within the sacramental space of the liturgy most notably the Eucharist Taking the decline of the neoscholastic enterprise in Catholic theology and the challenges posed by modernism as his point of departure Philip Caldwell traces the evolution of the Catholic theology of revelation in the twentieth century and the vital role played by the liturgical and sacramental renewal movements in reimagining this pivotal theological category Examining the specific contributions of Ren Latourelle Avery Dulles Salvatore Marsilli and Gustave Martelet against a background of pre conciliar ressourcement theology this volume provides a comprehensive account of why a Trinitarian and Christological construal of liturgy and sacraments as revelation is key to the vision that informed Vatican II and offers constructive theological and ecclesial possibilities for the future

Retrieving Apologetics Glenn B. Siniscalchi,2016-01-07 Given the popes recent statements of their desires to implement

the New Evangelization it is imperative that Catholic theologians and other intellectually engaged laypersons retrieve the vital discipline of apologetics For the New Evangelization places particular emphasis on reproposing the Gospel to those who have experienced a crisis of faith due to secularization One salient method of Catholic apologetics used to be characterized by three demonstrations each of which assumes the conclusions established in the previous step s Some might think that this classical method of apologetics has been abandoned in the postconciliar Church but Siniscalchi s book updates it Unlike the classical apologetics of the preconciliar era Siniscalchi engages contemporary scholarship in a variety of academic disciplines such as philosophy history biblical studies sociology and theology to develop the steps that are necessary for showing the reasonableness of faith

Trinity in Unity in Christian-Muslim Relations Risto Jukko, 2007-07-30 Christian Muslim relations are one of the major issues in contemporary theology of religions This book deals with the theological foundations that have been laid for these relations in the recent official documents 1966 2005 of the Secretariat for Non Christians the Pontifical Council for Interreligious Dialogue There is a continuous interrelationship in recent Roman Catholic thinking between philosophy existentialism and personalism and theology nouvelle th ologie and kerygmatic theology This study shows that the doctrine of the Trinitarian nature of God is the cornerstone on which this documentation rests and that the Trinitarian dimension of Roman Catholic theology of religions will challenge the Christology of 21st century theology

[Theology in Search of Foundations](#) Randal Rauser, 2009-08-20 A pithy account of theological rationality justification and knowledge that avoids the twin pitfalls of modern rationalism and postmodern irrationalism This lively and accessible survey debates with the ideas of key theological and philosophical thinkers past and present providing a fresh understanding of theology as a discipline

The Primacy of God: The Virtue of Religion in Catholic Theology R. Jared Staudt, 2022-02-08 To contemporary minds the notion of justice toward God is seldom considered and often foreign Far more discussed is how God might either undermine or motivate social justice The Primacy of God by R. Jared Staudt offers an important intervention With the aid of St. Thomas Aquinas Staudt argues that it is vital for both contemporary society and contemporary Catholic theology to return to the traditional view of God as the one to whom all human and social action must be ordered and to recover the virtue of religion as the virtue which orders all other virtues to God Not only does Staudt helpfully remind readers of the ancient philosophical and biblical notion of worship as a dictate of the natural law he also illuminates the way in which Christian liturgy as an enactment of Christ's high priesthood is the great fulfillment of natural and biblical worship Accordingly Staudt secures religion as essential for the virtue of love This brings Staudt to criticize modern theologians like Karl Barth who claimed that religion is inherently idolatrous as well as Karl Rahner who claimed that love of neighbor is the highest moral act Staudt also considers the question of religious truth in light of the plurality of religions soliciting the assistance of Hans Urs von Balthasar and Joseph Ratzinger as well as the way in which religion relates to the development of culture engaging the great Catholic social historian Christopher Dawson The Primacy of God is a much needed work that ought to set the agenda for Catholic theology in the twenty first century

The Church We Believe in Francis A. Sullivan, Francis Aloysius Sullivan, 1988 An ecclesiology textbook establishing theological grounds for ecumenism

The Cambridge Encyclopedia of the Jesuits Armstrong, Megan and Corkery, James, SJ, and Fleming, Alison and Worcester, Thomas SJ Prieto, Andrés Ignacio Shea, Henry, SJ, *Dictionary of Fundamental Theology* René Latourelle, Rino Fisichella, 1994 Because of the massive changes in society and the church over the last 50 years traditional apologetics has changed and a new discipline with its own specific character object and method has been born Now in 221 authoritative articles this comprehensive dictionary provides a complete A-Z reference to this new theology

The Study of Theology Richard A. Muller, 1991 The Study of Theology addresses two major concerns the place of biblical hermeneutics and practical theology The author discusses the hermeneutical implications of biblical historical systematic and practical theology and

presents a case for the relationship between exegesis and the other theological disciplines However the relationship between hermeneutics and practical theology is also essential According to the author the traditional forms of theology and preaching frequently fail the tests of exegesis and contemporary theologizing while at the same time most contemporary theology and exegesis fails to address directly the needs of the church Muller presents a case for the structure of hermeneutics and argues that it is essential to the church because theological training as a whole ought to reflect the life of the church and be of value to the life of the church

Magisterium Francis A. Sullivan SJ, 2002-09-30 A striking series of events of the past two decades have tended to raise questions about the exercise of teaching authority in the Catholic Church The Second Vatican Council the Encyclical Humanae Vitae the controversy over Hans Kung's book on infallibility and the subsequent declaration of Rome that he could no longer teach as a Catholic theologian the colloquium to which Edward Schillebeeckx was summoned by the Vatican the pastoral letter of the American bishops on the question of nuclear warfare have all stimulated a lively discussion of the claims of the Catholic hierarchy to authoritative magisterium With all the abundance of literature on the subject a book was still needed that would offer an up to date systematic presentation of Catholic thinking about the nature and function of this magisterium This is what the present volume sets out to provide It takes as its point of departure the belief which a great many Christians besides Catholics share namely that the Church of Christ is maintained in the truth of the Gospel by the Holy Spirit It then examines the various ministries by which the Gospel has been handed on and interpreted for each generation of believers looking especially to the role of the bishops and among them of the Bishop of Rome in settling disputes about the faith Questions concerning papal infallibility the response called for by papal encyclicals the critical role of Catholic theologians vis a vis the magisterium are treated in the light of current theological literature with the non specialist reader in mind

The Three Dynamisms of Faith Louis Roy, 2017-12-15 Fr Roy shows how The Three Dynamisms of Faith are lived in today's culture and how they are systematically related sometimes in alliance and sometimes in apparent opposition Having led the reader to a plausible answer to the human condition in Catholicism in his final chapter he discusses some classic issues that result possible tensions between meaning and truth between feelings and insight and about the role of religious experience in becoming attuned to Christian revelation
