Randall Jarrell On W H Auden:

Randall Jarrell on W.H. Auden Randall Jarrell, 2005 Delivered at Princeton University in 1951 and 1952 Jarrell's lectures reflect a passionate appreciation of Auden's work a witty attack from an informed opponent and an important document of a major poet's reception Jacket **The Achievement of Randall Jarrell** Randall Jarrell, Frederick J. Hoffman, 1970 *The Etymological Poetry of W. H. Auden, J. H. Prynne, and Paul Muldoon* Mia Gaudern, 2020-07-10 This book defines analyses and theorises a late modern etymological poetry that is alive to the past lives of its words and probes the possible significance of them both explicitly and implicitly Close readings of poetry and criticism by Auden Prynne and Muldoon investigate the implications of their etymological perspectives for the way their language establishes relationships between people and between people and the world These twin functions of communication and representation are shown to be central to the critical reception of etymological poetry which is a category of difficult poetry However resonant poetic etymologising may be critics warn that it shows the poet's natural interest in language degenerating into an unhealthy obsession with the dictionary It is unavoidably pedantic in the post Saussurean era to entertain the idea that a word's history might have any relevance to its current use As such etymological poetry elicits the closest of close readings thus encouraging readers to reflect not only on its own pedantry obscurity and virtuosity but also on how these qualities function in criticism As well as presenting a new way of reading three very different late modern poet critics this book addresses an understudied aspect of the relationship between poetry and criticism Its findings are situated in the context of literary debates about difficulty and diction and in larger cultural conversations about the workings of language as a historical event Kipling, Auden & Co Randall Jarrell, 1980 *The Age of Auden* Aidan Wasley, 2010-12-28 How W H Auden's emigration to the United States changed the course of postwar American poetry W H Auden's emigration from England to the United States in 1939 marked more than a turning point in his own life and work it changed the course of American poetry itself The Age of Auden takes for the first time the full measure of Auden's influence on American poetry Combining a broad survey of Auden's midcentury U S cultural presence with an account of his dramatic impact on a wide range of younger American poets from Allen Ginsberg to Sylvia Plath the book offers a new history of postwar American poetry For Auden facing private crisis and global catastrophe moving to the United States became in the famous words of his first American poem a new way of happening But his redefinition of his work had a significance that was felt far beyond the pages of his own books Aidan Wasley shows how Auden's signal role in the work and lives of an entire younger generation of American poets challenges conventional literary histories that place Auden outside the American poetic tradition In making his case Wasley pays special attention to three of Auden's most distinguished American inheritors presenting major new readings of James Merrill John Ashbery and Adrienne Rich The result is a persuasive and compelling demonstration of a novel claim In order to understand modern American poetry we need to understand Auden's central place within it Restless Secularism Matthew

Poetry and Theology in the Modernist Period Anthony Domestico, 2017-10-17 What if the religious themes and allusions in modernist poetry are not just metaphors Following the religious turn in other disciplines literary critics have emphasized how modernists like Woolf and Joyce were haunted by Christianity s cultural traces despite their own lack of belief In *Poetry and Theology in the Modernist Period* Anthony Domestico takes a different tack arguing that modern poets such as T S Eliot W H Auden and David Jones were interested not just in the aesthetic or social implications of religious experience but also in the philosophically rigorous dogmatic vision put forward by contemporary theology These poets took seriously the truth claims of Christian theology for them religion involved intellectual and emotional assent doctrinal articulation and ritual practice Domestico reveals how an important strand of modern poetry actually understood itself in and through the central theological questions of the modernist era What is transcendence and how can we think and write about it What is the

sacramental act and how does its wedding of the immanent and the transcendent inform the poetic act How can we relate kairos holy time to chronos clock time Seeking answers to these complex questions Domestico examines both modernist institutions the Criterion and specific works of modern poetry Eliot s Four Quartets and Jones s The Anathemata The book also traces the contours of what it dubs theological modernism a body of poetry that is both theological and modernist In doing so this book offers a new literary history of the modernist period one that attends both to the material circulation of texts and to the broader intellectual currents of the time

Dismantling Glory Lorrie Goldensohn,2006-04-18 Dismantling Glory presents the most personal and powerful words ever written about the horrors of battle by the very soldiers who put their lives on the line Focusing on American and English poetry from World War I World War II and the Vietnam War Lorrie Goldensohn a poet and pacifist affirms that by and large twentieth century war poetry is fundamentally antiwar She examines the changing nature of the war lyric and takes on the literary thinking of two countries separated by their common language World War I poets such as Wilfred Owen emphasized the role of soldier as victim By World War II however English and American poets influenced by the leftist politics of W H Auden tended to indict the whole of society not just its leaders for militarism During the Vietnam War soldier poets accepted themselves as both victims and perpetrators of war s misdeeds writing a nontraditional more personally candid war poetry The book not only discusses the poetry of trench warfare but also shows how the lives of civilians women and children in particular entered a global war poetry dominated by air power invasion and occupation Goldensohn argues that World War II blurred the boundaries between battleground and home front thus bringing women and civilians into war discourse as never before She discusses the interplay of fascination and disapproval in the texts of twentieth century war and notes the way in which homage to war hero and victim contends with revulsion at war s horror and waste In addition to placing the war lyric in literary and historical context the book discusses in detail individual poets such as Wilfred Owen W H Auden Keith Douglas Randall Jarrell and a group of poets from the Vietnam War including W D Ehrhart Bruce Weigl Yusef Komunyakaa David Huddle and Doug Anderson Dismantling Glory is an original and compelling look at the way twentieth century war poetry posited new relations between masculinity and war changed and complicated the representation of war and expanded the scope of antiwar thinking

Echo and Critique Florian Gargaillo,2023-05-10 In Echo and Critique Florian Gargaillo skillfully charts the ways that poets have responded to the clichés of public speech from the start of the Second World War to the present Beginning around 1939 many public intellectuals on both sides of the Atlantic lamented that the political lexicon had become saturated with bureaucratic stock phrases such as the fight for freedom revenue enhancement and service the target designed for the mass media and used to euphemize obfuscate and evade Instead of ridding their writing of such language many poets parroted these tropes as a means of exploring the implications of such expressions weighing their effects and identifying the realities they distort and suppress With its attentiveness to linguistic particulars poetry proved especially well suited to this innovative mode of close

listening and intertextual commentary At the same time postwar poets recognized their own susceptibility to dead language so that co-opting political clichés obliged them to scrutinize their writing and accept the inevitability of cant while simultaneously pushing against it This innovative study blends close readings with historical context as it traces the development of echo and critique in the work of seven poets who expertly deployed the method throughout their careers W H Auden Randall Jarrell Langston Hughes Claude McKay Robert Lowell Josephine Miles and Seamus Heaney Gargaillo's analysis reveals that poetry can encourage us to listen diligently and critically to the insincerity ubiquitous in public discourse *The Columbia Granger's Guide to Poetry Anthologies* William A. Katz, Linda Sternberg Katz, Esther Crain, 1994

Reference guide to poetry anthologies with descriptions and evaluations of each anthology **Lament for the Makers**, 2010-11-01 With *Lament for the Makers* W S Merwin honors the lives and work of twenty-three poets of our time Each of them has been important to him and all of them died during his life as a poet Following the title poem Merwin presents works by Dylan Thomas Wallace Stevens Edwin Muir Sylvia Plath William Carlos Williams Robert Frost Theodore Roethke Louis MacNeice T S Eliot Randall Jarrell John Berryman W H Auden Marianne Moore Ezra Pound David Jones Robert Lowell Elizabeth Bishop James Wright Howard Moss Robert Graves Howard Nemerov William Stafford and James Merrill Photographs and brief biographies of the poets are also included *Lament for the Makers* connects the work of one of our most gifted contemporary poets with the modern masters who have defined the twentieth-century poetic tradition News of War Rachel Judith Galvin, 2018 A new work of scholarship that considers several of the most prominent poets writing from the outbreak of the Spanish Civil War to the end of World War II An American Vein Danny Miller, Sharon Hatfield, Gurney Norman, 2005 *An American Vein* is an anthology of literary criticism of Appalachian novelists poets and playwrights The book reprises critical writing of influential authors such as Joyce Carol Oates Cratis Williams and Jim Wayne Miller It introduces new writing by Rodger Cunningham Elizabeth Engelhardt and others Words to Measure a War David K.

Vaughan, 2009-04-23 This is a study of the war poetry of nine American men who served in World War II The efforts of those who had established themselves as poets prior to or during the war Karl Shapiro Randall Jarrell John Ciardi and William Meredith are compared with those whose poetic careers began after the war Louis Simpson James Dickey Richard Hugo Howard Nemerov and Lincoln Kirstein The military careers of these soldiers illuminate how their experiences affected the content as well as style of their poems Each man's poetry directly related to his involvement with the combat environment the closer the combat experience the more personal the poetry the more distant the experience the more detached the poetry

The Cambridge Companion to Modernism Michael Levenson, 2011-09-15 This Companion has long been a standard introduction to the field This second edition is updated and enhanced with four new chapters addressing the key themes being researched taught and studied in modernism Its interdisciplinary approach is central to its success as it brings together readings of the many varieties of modernism Chapters address the major literary genres the intellectual religious

and political contexts and parallel developments in film painting and music The catastrophe of the First World War the emergence of feminism the race for empire the conflict among classes the essays show how these events and circumstances shaped aesthetic and literary experiments In doing so they explain clearly both the precise formal innovations in language image scene and tone and the broad historical conditions of a movement that aspired to transform culture

In Solitude, for Company Wystan Hugh Auden, 1995 The third volume of Auden Studies presents Auden in maturity and includes a large amount of previously unpublished prose by him The book concentrates on the relatively unexplored area of Auden's post 1940 writings and the letters essay and lectures printed here demonstrate the Goethean scope of his intellect which ranged easily from psychoanalysis to theology archaeology to politics In Solitude for Company contains two hitherto unpublished and little known lectures The first of these introduced by Nicholas Jenkins is on the theme of vocation delivered during the troubled war years when Auden was examining his own vocation The second lecture was given near the end of the poet's life on the subject of the value of the work of Sigmund Freud Katherine Bucknell precedes this with the first full length examination of Auden's intensely ambivalent relation to Freud Auden's correspondence with his close friends James and Tania Stern reveals much new and important biographical information and Edward Mendelson's further supplement to the Auden Bibliography provides an extensive listing of all published letters by Auden In addition distinguished literary critics including David Bromwich Lawrence Lipking Edna Longley and Michael Wood together with the nonagenarian communist Edward Upward contribute to a symposium on one of this century's most famous poems In Praise of Limestone
