Religion And Revelation A Theology Of Revelation In The Worlds Religions:

Religion and Revelation Keith Ward, 1994-09-30 Since first Thomas Aquinas defined theology as revelation or the rational elucidation of revealed truth the idea of revelation has played a fundamental role in the history of western theology This book provides a new and detailed investigation of the concept examining its nature sources and limitations in all five of the major scriptural religions of the world Christianity Judaism Islam Hinduism and Buddhism The first part of the book discusses the nature of theology and expounds the comparative method as the most useful and appropriate for the modern age Part Two focuses on the nature of religion and its early historical manifestations whilst the third part of the book goes on to consider the idea of revelation as found in the great canonical traditions of the religions of the world Part Four develops the distinctively Christian idea of revelation as divine self expression in history The final part of the book discusses how far the idea of revelation must be revised or adapted in the light of modern historical and scientific thought and proposes a new and positive theology of revelation for the future The book includes discussions of the work of most major theologians and scholars in the study of religion Aquinas Tillich Barth Temple Frazer and Evans Pritchard and should be of interest to many scholars and students of comparative religion and theology and anthropologists **Revelation and the Religions** Avery

Dulles, 1999 **Revelation, the Religions, and Violence** Leo D. Lefebure, 2000 Leo Lefebure extends the insights of Rene Girard into a multi religious context He examines the basic human dynamics that produce violence and shows how the diverse experiences of Christianity Judaism and Islam as well as Chinese and Indian religions address this universal problem BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Modern Western**

Christian Theological Understandings of Muslims Since the Second Vatican Council Mahmut Aydin, 2002 **Karl Barth's Theology as a Resource for a Christian Theology of Religions** Sven Ensminger, 2014-08-28 This book uses Karl Barth's theology as a resource for Christian theology of religions For this purpose it examines Barth's theology under the doctrinal aspects of revelation revelation and religion theological anthropology and election addressing questions such as the possibility of and context for revelation Barth's understanding of religion the theological approach to the human being and soteriology Furthermore Barth's thought is put into conversation with other approaches in the field of theology of religions notably Karl Rahner's inclusivism and John Hick and the pluralist paradigm It is shown that Barth's theological system as a whole can serve as a resource for the Christian approach to and interaction with those of other faiths or no faith at all This is achieved through maintaining a balance between the commitment to the own faith and the openness to the sovereignty of God impacting the whole of creation Central to Barth's approach is the challenge to the Christian community to see their presuppositions challenged in the most unexpected circumstances while looking beyond human categories to affirm the dignity bestowed upon all of humanity through the divine Yes in the person Jesus Christ Barth's theology with its starting point in the person of Jesus Christ is advocated as a framework for the members of the Christian community as they live

alongside those with a different faith from their own **Can Evangelicals Learn from World Religions?** Gerald R. McDermott, 2000-08-15 More than ever before Christians need to explain why they follow Jesus and not the Buddha or Confucius or Krishna or Muhammed This evangelical theology of religions addresses the problem of truth and revelation and takes seriously the normative claims of other traditions McDermott shows readers what Christians can learn from world religions without sacrificing the finality of Christ The Dialectics of Mission Elmer A. Guzman, 2023-09-15 Drawing on the resources of contemporary systematic theologians Kevin Vanhoozer and Veli Matti K rkk inen Elmer A Guzman explores the generative dimension of mission for the formation of doctrine for a church that needs to witness in a pluralistic world Guzman argues that understanding doctrinal formation and development depends on the missional dimension of doctrinal hermeneutics In other words these theological concepts and practices are justified based on the negotiation between theological sources identity markers and the context s diversity markers This book shows how perspectives arising from the structural elements in theological methodology shed fresh light on missional theology and the interconnections between the doctrinal loci in theology **Musicology of Religion** Guy L. Beck, 2023-05-01 For generations religion and music have been regarded as universals yet despite the fact that they have been frequently linked throughout history and topography and despite the importance of music in the early stages of religious studies their combined presence has not until now been considered a separate area of study and research While there are well developed fields of anthropology of religion psychology of religion and philosophy of religion the widely recognized connections between religion and sound chant and music warrant comparable study Drawing upon theories and methods in the study of both religion and music referencing examples from world religious traditions and addressing challenges posed by critics this book envisions a unified field for religion and music musicology of religion Grounded in the scope and methods of phenomenology and comparative analysis musicology of religion represents an innovative direction in interdisciplinary study enriched by the social sciences ethnomusicology philosophy theology liturgical studies and cognitive studies As conceived musicology of religion will spearhead new and creative paths in the study of religion **Revelation and Grace** Philip Djung, 2021-06-01 Our globalized world with its increasingly pluralistic societies necessitates a theological framework that enables Christians to embrace their neighbors with respect understanding and love without compromising the essential components of their own faith In Revelation and Grace Dr Philip Djung explores the ways in which Hendrik Kraemer s theology of religions offers the church such a framework By placing Kraemer in conversation with other twentieth century Dutch Reformed theologians namely Herman Bavinck Johan H Bavinck and Abraham Kuyper Dr Djung allows the doctrine of revelation and grace to inform his interpretation of Kraemer s work He provides a critical assessment of Kraemer s theology illustrating the significance of Kraemer s commitment to the uniqueness of Christ and the necessity of Christian mission while advocating for the need to amend certain aspects of Kraemer s perspective to more fully reflect God s presence in world religions **Approaches to**

the Study of Religion Peter Connolly, 1999-10-01 It has been argued that religious studies is a polymethodic discipline and that the student of religion should be familiar with the approaches of the major disciplines concerned with understanding the nature of religion not least because the approach adopted has profound influence on the phenomena chosen for investigation and the conclusions reached This book is the first textbook specifically designed for undergraduate students that provides the essential background on methods of the major relevant disciplines Presenting each of the significant approaches to religion in an informed manner the book brings together experienced researchers from feminism anthropology sociology phenomenology psychology philosophy and theology It presents a consistent approach throughout with each chapter dealing with the same themes the historical development of the approach the characteristics of the approach and the surrounding issues and debates

Who Do the Ngimurok Say That They Are? Kevin P. Lines, 2018-04-12 How do missiologists describe the cosmologies of those that Christianity encounters around the world Our descriptions often end up filtered through our own Western religious categories Furthermore indigenous Christians adopt these Western religious categories This presents the problem of local Christianities described by Kwame Bediako as those that have not known how to relate to their traditional culture in terms other than those of denunciation or of separateness Kevin Lines's phenomenological study of local religious specialists in Turkana Kenya not only challenges our Western categories by revealing a more authentic complexity of the issues for local Christians and Western missionaries but also provides a model for continued use of phenomenology as a valued research method in larger missiological studies Additionally this study points to the ways that local Christians and traditional religious practitioners interpret Western missionaries through local religious categories Clearly missionaries missiologists anthropologists and religious studies scholars need to do a much more careful job of studying and describing the contextually specific phenomena of traditional religious specialists before relying on meta categories that come out of our Western theology or older overly simplified ethnographies The research from this current study of Turkana religious specialists begins that process in the Turkana context and offers a model for future studies in contexts where traditional religion and Christianity intersect

The Hebrew Bible and Philosophy of Religion Jaco Gericke, 2012-11-01 This study pioneers the use of philosophy of religion in the study of the Hebrew Bible After identifying the need for a legitimate philosophical approach to Israelite religion the volume traces the history of interdisciplinary relations and shows how descriptive varieties of philosophy of religion can aid the clarification of the Hebrew Bible's own metaphysical epistemological and moral assumptions Two new interpretative methodologies are developed and subsequently applied through an introduction to what the biblical texts took for granted about the nature of religious language the concept of deity the properties of Yhwh the

Mudge, 2007-12-12 The nature and story of the Christian church is immensely important to theology students and scholars alike Written by an international team of distinguished scholars this comprehensive book introduces students to the fundamental historical systematic moral and ecclesiological aspects of the study of the church as well as serving as a resource for scholars engaging in ecclesiological debates on a wide variety of issues It divides into six parts the church in its historical context the different denominational traditions global perspectives methods and debates in ecclesiology key concepts and themes ecclesiology and other disciplines social sciences philosophy literature and film Authoritative accessible and easily navigable this book is indispensable for everyone interested in the nature and history of the Christian Church **Christian Faith** B. A. Gerrish, 2015-08-24 At the beginning of Christian Faith B A Gerrish reminds us that dogmatics involves critical transmission of the Christian heritage The dogmatic theologian must interpret and assess the traditional beliefs of the church while also considering the new and changing conditions in which that tradition is being embodied With that Gerrish goes on to outline the various presuppositions and affirmations of the Christian faith before ultimately offering a powerful and compelling restatement of Christian faith for the twenty first century As part of his framework Gerrish includes a critical comparison of Calvin s Institutes of the Christian Religion and Schleiermacher s Christian Faith while still paying close attention to the great cloud of theological witnesses from across the spectrum of Christian traditions Gerrish s book provides a robust and penetrating revisioning of Christian theology one that is thoroughly grounded in the classical traditions of the church SCM Studyguide to Religious and Spiritual Experience Jeff Astley, 2020-03-31 Spiritual religious sacred or mystical experiences may be broadly defined as subjective human experiences that appear to the person undergoing them or to others to convey or imply contact with or knowledge about a transcendent power presence or superior reality beyond the realm of the physical Research has shown that these forms of awareness of something beyond are of considerable significance in the ordinary lives of very many people as well as being elements of signal importance in the origin and development of religion not least by deepening characteristically spiritual or religious attitudes emotions beliefs values and practices along with fundamental orientations of life and quests for meaning This Studyguide provides a succinct and lucid introduction to the subject for those studying religion at both undergraduate and GCE AS A level By exploring the key areas of both the empirical and theoretical study of religious and spiritual experience the Studyguide will serve as an accessible and nonpartisan guide to enable its readers to explore the range of challenging data debates approaches and issues that relate to the study of this widespread and significant phenomenon *One God Of All?* Garth Hallett, 2010-10-21 **Outline of Christian Doctrine** Wilfried Harle, 2015-04-14 In this book Wilfried Hrle so distills Protestant Christian teaching as to bring fresh insight both to new students and to experienced readers of systematic theology Outline of Christian Doctrine however is not merely a translation of Hrle s classic German text

Nicholas Sagovsky has also entirely adapted the original work to the needs and resources of English speaking readers Biblically rooted contextually sensitive alert to philosophical issues and relevant with respect to debates about the world as we know it today Hrle s Outline of Christian Doctrine An Evangelical Dogmatics is an ideal contemporary theology book for both class use and individual study *Twentieth-Century Western Philosophy of Religion 1900-2000* Eugene Thomas Long,2012-12-06 In the fall of 1994 Hendrik Jan van Leusen an acquisitions editor from Kluwer Academic Publishers visited me in my home to discuss a proposal for a handbook in the philosophy of religion He reported that he had been talking about this with philosophers of religion at several universities and that the response to the idea had been quite favorable I suggested that given the dif ferent approaches to the philosophy of religion it might be good for him to meet with philosophers representing different philosophical traditions at an up coming meeting of the Eastern Division of the American Philosophical Association Jude Dougherty Joseph Kockelmans Robert Neville William Rowe and Merold Westphal kindly agreed to attend that meeting They made many substantial and helpful suggestions and a summary of the discussions was sent to van Leusen Some months later he wrote to inquire whether I might consider editing the series and writing the first volume which was to provide a historical map of twentieth century western philosophy of religion Although I could imagine myself editing the series I was initially reluctant to under take the task of writing a volume that would take me across the lines of many different philosophical traditions By coincidence I had been asked some months earlier to contribute an essay on the philosophy of religion for a conference being held at the Catholic University of America on the general topic One Hundred Years of Philosophy **Human Identity at the Intersection of Science, Technology and Religion** Christopher C.
