Simon,2011-11-30 In culture that exploits sex in everything from advertising to climbing the corporate ladder it s easy to lose sight of the true purpose and place of sexuality Philosopher and ethicist Caroline J Simon identifies six lenses through which people understand sex and sexuality and provides clarity for developing a holistic biblical sexual ethic The Popular and the Sacred in Music Antti-Ville Kärjä,2021-11-28 Music as the form of art

whose name derives from ancient myths is often thought of as pure symbolic expression and associated with transcendence. Music is also a universal phenomenon and thus a profound marker of humanity. These features make music a sphere of activity where sacred and popular qualities intersect and amalgamate. In an era characterised by postsecular and postcolonial processes of religious change, re-enchantment and alternative spiritualities, the intersections of the popular and the sacred in music have become increasingly multifarious. In the book, the cultural dynamics at stake are approached by stressing the extended and multiple dimensions of the sacred and the popular, hence challenging conventional taken-for-granted and rigid conceptualisations of both popular music and sacred music. At issue are the cultural politics of labelling music as either popular or sacred and the disciplinary and theoretical implications of such labelling. Instead of focussing on specific genres of popular music or types of religious music, consideration centres on interrogating musical situations where a distinction between the popular and the sacred is misleading, futile and even impossible. The topic is discussed in relation to a diversity of belief systems and different repertoires of music, including classical, folk and jazz, by considering such themes as origin, myths, autonomy, ingenuity and stardom, authenticity, moral ambiguity, subcultural sensibilities and political ideologies.

Imposed Morality Dr Alena Rada, PhD, 2021-06-01. The book *Imposed Morality* is written from a multidisciplinary perspective and in this sense is totally different from other books dealing with human sexuality and particularly homosexuality. While other books usually present only one point of view, such as medical, psychiatric, psychological, social or legal, this book presents a total and multidisciplinary view. It also includes a discussion of the present views of homosexuality both in the western countries as compared to some non-western societies which do not seem to take the many important aspects of this practice recently discussed and evaluated by western scientists into consideration and continue to criminalize homosexuality, leading to death sentences and executions of gay people or them being stoned publicly to death.

Religious Intimacies Mary Dunn, Brenna Moore, 2020-11-03 Scholars of religion have come a long way since William James famously made of religion a matter between man and his maker For decades now they have been attentive to the ways in which religion takes shape as the product of broad social forces focusing on the dynamics of power and culture as heuristics for understanding religious phenomena and experience What however might they be missing by moving too quickly from one interpretative extreme to the other and what might we learn about religion by staying in the interstitial space between the individual in her solitude and society as a whole Religious Intimacies edited by Mary Dunn and Brenna Moore brings together nine scholars of modern Christianity to probe this in between space In essays that range from treatments of Jesuit indigenous relations in early modern Canada to the erotics of contemporary black theology each contributor makes the case for the study of the presence and power of affective ties and relational dynamics between friends lovers and intimate others even things as vital to the understanding of religion
