Religion and the Demise of Liberal Rationalism, 1998 **The Political Problem of Religious Pluralism** Thaddeus J. Kozinski, 2012-07-10 In contemporary political philosophy there is much debate over how to maintain a public order in pluralistic democracies in which citizens hold radically different religious views The Political Problem of Religious Pluralism deals with this theoretically and practically difficult issue by examining three of the most influential figures of religious pluralism theory John Rawls Jacques Maritain and Alasdair MacIntyre Drawing on a diverse number of sources Kozinski addresses the flaws in each philosopher's views and shows that the only philosophically defensible end of any overlapping consensus political order must be the eradication of the ideological pluralism that makes it necessary In other words a pluralistic society should have as its primary political aim to create the political conditions for the communal discovery and political establishment of that unifying tradition within which political justice can most effectively be obtained Kozinski's analysis though exhaustive and rigorous still remains accessible and engaging even for a reader unversed in the works of Rawls Maritain and MacIntyre Interdisciplinary and multi thematic in nature it will appeal to anyone interested in the intersection of religion politics and culture **Freedom of Religion and the Secular State** Russell

Blackford, 2012-01-17 Exploring the relationship between religion and the state Focusing on the intersection of religion law and politics in contemporary liberal democracies Blackford considers the concept of the secular state revising and updating enlightenment views for the present day Freedom of Religion and the Secular State offers a comprehensive analysis with a global focus of the subject of religious freedom from a legal as well as historical and philosophical viewpoint It makes an original contribution to current debates about freedom of religion and addresses a whole range of hot button issues that involve the relationship between religion and the state including the teaching of evolution in schools what to do about the burqa and so on

Eric Voegelin Today Scott Robinson, Lee Trepanier, David Whitney, 2019-07-25 This book analyzes Eric Voegelin's scholarly works from the 1950s and early 1960s and examines the ways in which these works are relevant to the twenty first century political environment The collection of essays evaluated in this book cover a wide array of topics that were of great curiosity sixty years ago and still relevant in today's society The authors in this volume demonstrate that Voegelin's erudition on topics such as revolutionary change ideological fervor industrialization globalism and the place for

reason and how it may be cultivated in complex times remains as meaningful today as it was then **Theology, Political Theory, and Pluralism** Kristen Deede Johnson, 2007-01-25 How can we live together in the midst of our differences This is one of the most pressing questions of our time Tolerance has been the bedrock of political liberalism while proponents of agonistic political thought and radical democracy have sought an answer that allows a deeper celebration of difference Kristen Deede Johnson describes the move from tolerance to difference and the accompanying move from epistemology to ontology within political theory Building on this ontological turn in search of a theological answer to the question she puts Augustine into conversation with recent political theorists and theologians This theological option enables the Church to envision a way to engage with contemporary political society without losing its own embodied story and practices It contributes to our broader political imagination by offering a picture of rich engagement between the many different particularities that constitute a pluralist society How to Read Journal Articles in the Social Sciences Phillip C. Arriaga, 2006-01-01 This book examines the social relevance of philosophy as this problem is posed in the contemporary Modernism Postmodernism debate Manuel P Arriaga critically investigates the two sides of the debate in their various presuppositions and their equally diverse ramifications in fields ranging from political theory philosophy of religion and theory of knowledge among others Making use of the problematic of social justice as touchstone in threshing out the issue and aided particularly by the thought

of Emmanuel Levinas Arriaga then presents a view of the social relevance of philosophy that incorporates the good points of the opposing camps of the debate The Modernist Postmodernist Quarrel on Philosophy and Justice will interest anyone wishing to ask about the social relevance of what philosophers do **The Politics of Secularism in International**

Relations Elizabeth Shakman Hurd,2009-01-10 Conflicts involving religion have returned to the forefront of international relations And yet political scientists and policymakers have continued to assume that religion has long been privatized in the West This secularist assumption ignores the contestation surrounding the category of the secular in international politics The Politics of Secularism in International Relations shows why this thinking is flawed and provides a powerful alternative Elizabeth Shakman Hurd argues that secularist divisions between religion and politics are not fixed as commonly assumed but socially and historically constructed Examining the philosophical and historical legacy of the secularist traditions that shape European and American approaches to global politics she shows why this matters for contemporary international relations and in particular for two critical relationships the United States and Iran and the European Union and Turkey The Politics of Secularism in International Relations develops a new approach to religion and international relations that challenges realist liberal and constructivist assumptions that religion has been excluded from politics in the West The first book to consider secularism as a form of political authority in its own right it describes two forms of secularism and their far reaching global consequences **Political Philosophy and the God of Abraham** Thomas L. Pangle,2007-07-25 In this

book noted scholar Thomas L Pangle brings back a lost and crucial dimension of political theory the mutually illuminating encounter between skeptically rationalist political philosophy and faith based political theology guided ultimately by the authority of the Bible Focusing on the chapters of Genesis in which the foundation of the Bible is laid Pangle provides an interpretive reading illuminated by the questions and concerns of the Socratic tradition and its medieval heirs in the Christian Jewish and Islamic worlds He brings into contrast the rival interpretive framework set by the biblical criticism of the modern rationalists Hobbes and Spinoza along with their heirs from Locke to Hegel The full meaning of these diverse philosophic responses to the Bible is clarified through a dialogue with hermeneutic discussions by leading political theologians in the Judaic Muslim and Christian traditions from Josephus and Augustine to our day Profound and subtle in its argument this book will be of interest not only to students and scholars of politics philosophy and religion but also to thoughtful readers in every walk of life who seek to deepen their understanding of the perplexing relationship between religious faith and philosophic reason James V Schall Richard Rorty Michael Bacon,2008-01-01 Michael Bacon gives a

critical presentation of Rorty s writings on pragmatism and political theory comparing and contrasting him with pragmatists such as Hilary Putnam and Susan Haack and liberals such as John Rawls and Brian Barry The result is an imaginative presentation of one of contemporary philosophy s most innovative and important thinkers *Modern Democracy and the Theological-Political Problem in Spinoza, Rousseau, and Jefferson* L. Ward,2014-12-04 The book examines the intersection of

two philosophical developments which define contemporary life in the liberal democratic west considering how democracy has become the only legitimate and publicly defensible regime while also considering how modern democracy attempts to solve what Leo Strauss called the theologico political problem

The Founders and the Idea of a National University George Thomas, 2015 Constituting the American Mind is about early efforts to establish a national university and what those efforts say about the nature and logic of American Constitutionalism This book offers the first in depth study of the efforts to establish a national university from a constitutional perspective While mostly noted in passing the national university was put forward by every president from Washington to John Quincy Adams as a necessary supplement to the formal institutions of government it would help constitute the American mind in a manner that carried forward the ideas the constitution rested on including for example the separation of the civic from the theological

The End of Secularism Hunter Baker, 2009-08-05 This ambitious work offers one of the most comprehensive attacks on secularism yet attempted Hunter Baker argues that advocates of secularism misunderstand the borders between science religion and politics and cannot solve the problem of religious difference University scholars have spent decades subjecting religion to critical scrutiny But what would happen if they turned their focus on secularism Hunter Baker seeks the answer to that question by putting secularism under the microscope and carefully examining its origins its context its claims and the viability of those claims The result of Baker's analysis is The End of Secularism He reveals that secularism fails as an instrument designed to create superior social harmony and political rationality to that which is available with theistic

alternatives Baker also demonstrates that secularism is far from the best or only way to enjoy modernity's fruits of religious liberty free speech and democracy The End of Secularism declares the demise of secularism as a useful social construct and upholds the value of a public square that welcomes all comers religious and otherwise into the discussion The message of The End of Secularism is that the marketplace of ideas depends on open and honest discussion rather than on religious content or the lack thereof
