**William Lane Craig**

## **Religion Philosophy Psychical Research:**

Religion, Philosophy and Psychical Research C.D. Broad, 2014-06-23 This is Volume I of seven in a series on the Philosophy of Religion and General Philosophy Originally published in 1953 this is a collection of selected essays looking at Psychical Research to philosophy arguments around the validity of a personal God and also looking at afterthoughts at the time of the Cold War

**Religion, Philosophy and Psychical Research** Charlie Dunbar Broad, 1953

**Founders of Constructive Postmodern Philosophy** David Ray Griffin, John B. Cobb, Marcus P. Ford, Pete A. Y. Gunter, Peter Ochs, 1993-01-01 In presenting Peirce James Bergson Whitehead and Hartshorne as members of a common and distinctively postmodern trajectory this book casts the thought of each of them in a new light It also suggests a new direction for the philosophical community as a whole now that the various forms of modern philosophy and even the deconstructive form of postmodern philosophy are widely perceived to be dead ends This new option offers the possibility that philosophy may recover its role as critic and guide within the more general culture a recovery that is desperately needed in these perilous times

*Philosophical Interactions with Parapsychology* H. Price, 1995-10-13 This is a collection of the most important writings of Oxford philosopher H H Price on the topics of psychical research and survival of death collected from a wide variety of sources unavailable to most interested readers Included are discussions of telepathy clairvoyance telekinesis precognition hauntings and apparitions the impact of psychical research on western philosophy and science and what afterlife is probably like Few twentieth century English speaking philosophers have written much on these topics Of those who did so and whose writings have not been collected and published in a single source H H Price was the most important

**Lectures on Psychical Research (Routledge Revivals)** C. D. Broad, 2011-03-31 This book first published in 1962 is based on a series of lectures first given at Cambridge University in 1959 and 1960 dealing with psychical research i e the scientific investigation of ostensibly paranormal phenomena Split into three sections Professor Broad s study examines numerous issues relating to psychical theory including guessing hallucinatory quasi perception and trance mediumship

**Religion, philosophy and psychical research** , 1953

**Exploring the Philosophy of Religion** David Stewart, 2017-09-29 Exploring the Philosophy of Religion 7th Edition combines the best features of a text and a reader by offering clear analysis coupled with important primary source readings Professor David Stewart called upon his 30 plus years of teaching experience to introduce students to the important study of philosophical issues raised by religion Beginning students often find primary sources alone too difficult so this text offers primary source materials by a variety of significant philosophers including a balanced blend of classical and contemporary authors but the materials are supported by clearly written introductions which better prepare students to understand the readings

**Psychic Exploration** Edgar D. Mitchell, 2011-07-01 Psychic Exploration A Challenge for Science is a primer on psychic research life s purpose and the meaning of the universe Originally published in 1974 this landmark anthology of nearly thirty chapters on every area of

psychic research is finally available again Edgar D Mitchell Apollo 14 astronaut and moonwalker as well as a distinguished researcher of the study of human consciousness brought together eminent scientists to write about issues once considered too controversial to discuss This book includes fascinating chapters on the history of parapsychology telepathy hauntings psychic phenomena and consciousness along with an extensive glossary and index This timeless anthology continues to be appealing as a reference work for those curious about the history of parapsychology fans of the world of psi and readers interested in the meaning of the universe Contributors include Willis W Harman Jean Houston Stanley Krippner Robert Masters William G Roll Russell Targ Charles T Tart Montague Ullman and many more *The Elements of Parapsychology* K. Ramakrishna Rao,2017-10-12

Psychic phenomena recorded throughout human history remained a mystery or a matter of faith rather than a subject of serious study until scientists began to investigate them roughly a century and a half ago Systematic experimentation began with the work of J B Rhine at Duke University resulting in the publication of Extra Sensory Perception 1934 followed by Extra Sensory Perception After Sixty Years 1940 Rhine and researchers who came after him struggled to present sufficient evidence to gain scientific credibility for the existence of extrasensory abilities Yet despite tight experimental controls and numerous significant results the subject remains controversial Parapsychologists argue that the impasse is not due to a lack of evidence but to the challenge their claims pose to the worldview of science in general This comprehensive overview of the discipline of parapsychology written by one of its most notable investigators offers the reader a full understanding of both its concepts theories and methods and its controversies problems and prospects **The Study of Science and Religion** Carl Reinhold Brakenhielm,2018-06-06

The main aim of this book is to contribute to the relationship between science and religion This book aims to do constructive theological work out of a particular cultural context The point of departure is contemporary Swedish religion and worldviews One focus is the process of biologization i e how the worldviews of the general public in Sweden are shaped by biological science Is there a gap between Swedes in general and the perceptions of Swedish clergy The answer is based on sociological studies on science and religion in Sweden and the United States Furthermore the book contains a study of Swedish theologians from Nathan Soderblom to the present Archbishop Antje Jackelen and their shifting understanding of the relation between science and religion The philosophical aspects of this relation are given special consideration What models of the relation inform the contemporary scholarly discussion Are science and religion in conflict separate or in mutual creative interaction Religion, Philosophy, and Physical Research Charlie Dunbar Broad,1969 Yoga & Parapsychology K. Ramakrishna Rao,2010-01-01

Yoga and Parapsychology are two areas in which a significant amount of professional research is awaited Parapsychology considered as the discipline to study psi psychic abilities is essentially the science of siddhis extraordinary human abilities Yoga is considered to be an effective psycho spiritual pursuit that results in the manifestation of a variety of supernormal phenomena In fact Patanjali s Yoga Sutras is the foundational text of psychic science One of its four parts Vibhuti Pada is filled with the

description and discussion of a variety of paranormal phenomena There is thus an intrinsic commonality between yoga and parapsychology which remains essentially unexplored in any systematic way A serious and scientific study of the two and the resultant synergy of their confluence could result in resolving many of the riddles that puzzle parapsychology today and be a harbinger of a vibrant science opening up new frontiers Further it could be seen as a productive East West meet in a profound sense Keeping this in view a national conference and a workshop were organized during January 3 23 2006 at Andhra University by the Institute for Human Science and Service with international participation The present volume is a compilation of the major presentations at the conference and workshop which are appropriately revised and edited in light of the discussions The contents of the volume contain theoretical articles and reviews as well as experimental reports Contributors come from different countries besides India including the United States of America Sri Lanka the United Kingdom Germany and the Netherlands Thus the volume is international in scope and coverage

*Kant and Mysticism* Stephen R. Palmquist, 2019-07-10 What is happening when someone has a mystical experience such as feeling at one with the universe or hearing God's voice Does philosophy provide tools for assessing such claims Which claims can be dismissed as delusions and which ones convey genuine truths that might be universally meaningful Valuable insights into such pressing questions can be found in the writings of Immanuel Kant though few philosophical commentators have appreciated the implications beyond his famous Copernican hypothesis In *Kant and Mysticism* Stephen R Palmquist corrects this skewed view of Kant once and for all Beginning with a detailed analysis of Kant's 1766 work *Dreams of a Spirit Seer* Palmquist demonstrates that in *Dreams* Kant first discovers and explains his plan to write a new critical philosophy that will revolutionize metaphysics by laying bare the limits of human reason Palmquist shows how the same metaphorical relationship between reason's dreams metaphysics and sensibility's dreams mysticism permeates Kant's mature writings Clarifying how Kant's final unfinished book *Opus Postumum* completes this dual project Palmquist explains how the critical mysticism entailed by Kant's position has profound implications for contemporary understandings of religious and mystical experience both by religious individuals and by philosophers seeking to understand such experiences

**Critical Reflections on the Paranormal** Michael F. Stoeber, Hugo Anthony Meynell, 1996-01-01 Collection of essays that clarifies and evaluates the various aspects of paranormal phenomena including telepathy psychokinesis trance mediumship near death experiences and past life memories

*A Sense of Presence* Stephen H. Smith, 2016-09-15 Divided into five parts *A Sense of Presence* explores the central thesis that the resurrection of Jesus could be explained as a psychological event involving one hallucination possibly occurring to Peter and a hysterical reaction by colleagues which convinced them that Jesus had appeared to them too This approach is justified by showing that claims made by often impressionable people to have witnessed supernatural events in more recent times such as visions of the Virgin Mary or weeping statues have usually attracted a similar hysterical reaction involving large numbers Some of these reactions take hold sufficiently strongly to

facilitate the development of new sects or movements which persist even when their credibility is challenged The remaining four parts set this thesis in context Part 1 shows that resurrection was already a widely accepted concept in the socio cultural world in which Jesus was born Part 2 deals with the New Testament accounts of the resurrection showing that they are often contradictory Part 4 presents and discusses the philosophical problems involved in a psycho physical person rising from the dead while Part 5 looks at the historical and theological issues associated with such an event The argument presented is not intended to be dogmatic but simply seeks to show that naturalistic alternative explanations to the one generally accepted by believers should be given far more attention than they usually receive A Sense of Presence invites readers to challenge the status quo and will appeal to those wishing to challenge generally accepted Christian views The Tensed Theory of Time W.L. Craig, 2013-04-18 he present book and its companion volume The Tenseless Theory of Time a T Critical Examination are an attempt to adjudicate what one recent discussant has called the most fundamental question in the philosophy of time namely whether a static or a dynamic conception of the world is correct I had originally intended to treat this question in the space of a single volume but the study swelled into two I found that an adequate appraisal of these two of time requires a wide ranging discussion of issues in competing theories metaphysics philosophy of language phenomenology philosophy of science philosophy of space and time and even philosophy of religion and that this simply could not be done in one volume If these volumes succeed in making a contribution to the debate it will be precisely because of the synoptic nature of the discussion therein Too often the question of the nature of time has been prematurely answered by some philosopher or physicist simply because he is largely ignorant of relevant discussions outside his chosen field of expertise In these two complementary but independent volumes I have attempted to appraise what I take to be the most important arguments drawn from a variety of fields for and against each theory of time *C. D. Broad: Key Unpublished Writings* C. D. Broad, 2022-08-09 C D Broad 1887 1971 was a British philosopher who taught for many years at Trinity College Cambridge Possessing extremely wide ranging interests Broad made significant contributions to the mind body problem perception memory introspection the unconscious the nature of space time and causation He also wrote extensively on the philosophy of science ethics the history of philosophy and the philosophy of religion and had an abiding interest in psychical research a subject he approached with the disinterested curiosity and scrupulous care that is characteristic of his philosophical work Whilst overshadowed in his own time by figures such as Russell Moore and Wittgenstein he is acknowledged to have anticipated important developments in several fields such as emergence in philosophy of science sense perception and the growing block theory of time in metaphysics Although Broad published many books in his lifetime this volume is unique in presenting some of his most interesting unpublished writings Divided into five clear sections the following figures and topics are covered Autobiography Hegel and the nature of philosophy Francis Bacon Hume s philosophy of the self and belief F H Bradley The historical development of scientific thought from Pythagoras to Newton Causation Change and continuity

Quantitative methods Poltergeists Paranormal phenomena Each section is introduced and placed in context by the editor Joel Walmsley The volume also includes an engaging and informative foreword by Simon Blackburn It will be of great value to those studying and researching the history of twentieth century philosophy metaphysics and the recent history and philosophy of science as well as anyone interested in Broad s philosophical thought and his place in the history of philosophy

Divine Foreknowledge and Human Freedom William Lane Craig,1991 The ancient problem of fatalism more particularly theological fatalism has resurfaced with surprising vigour in the second half of the twentieth century Two questions predominate in the debate 1 Is divine foreknowledge compatible with human freedom and 2 How can God foreknow future free acts Having surveyed the historical background of this debate in *The Problem of Divine Foreknowledge and Future Contingents from Aristotle to Suarez* Brill 1988 William Lane Craig now attempts to address these issues critically His wide ranging discussion brings together a thought provoking array of related topics such as logical fatalism multivalent logic backward causation precognition time travel counterfactual logic temporal necessity Newcomb s Problem middle knowledge and relativity theory The present work serves both as a useful survey of the extensive literature on theological fatalism and related fields and as a stimulating assessment of the possibility of divine foreknowledge of future free acts

**Biographical Dictionary of Twentieth-Century Philosophers** Stuart Brown,Diane Collinson,Robert Wilkinson,2012-09-10 Prestigious board of advisory editors and contributors *Psychics, Sensitives and Somnambules* Rodger I. Anderson,2015-01-27 Claimants of paranormal abilities have always attracted controversy and fascination and sometimes rigorous study by scientists Charles Bailey an Australian medium was seemingly able to materialize different objects animate and inanimate under conditions which made it difficult to conceive how they could have been normally produced Sumitra Singh a woman of Northern India who in 1984 became subject to epileptic type seizures claimed to be possessed by spirits of the dead Franck Kluski was a Polish poet banker and physical medium who specialized in both human and animal materializations This biographical dictionary contains profiles of 330 psychics worldwide from Tony Agpaoa to Elenor Zugun each accompanied by a bibliography listing the primary sources consulted The primary focus is on those claimed psychics who have figured prominently in the history of the subject though some lesser known figures are included to show how rich varied and colorful that history has been The aim throughout is to present each case as fairly and dispassionately as the facts allow with a particular eye for accuracy in details and presentation The approach is historical not apologetic or accusatory making the work ideally suited as a permanent reference

As recognized, adventure as skillfully as experience approximately lesson, amusement, as without difficulty as covenant can be gotten by just checking out a books **Religion Philosophy Psychical Research** then it is not directly done, you could allow even more on the order of this life, as regards the world.

We have enough money you this proper as capably as simple pretentiousness to get those all. We offer Religion Philosophy Psychical Research and numerous books collections from fictions to scientific research in any way. in the midst of them is this Religion Philosophy Psychical Research that can be your partner.
