## **Religion In Focus Judaism:**

*Religions in Focus* Graham Harvey, 2016-04-08 *Religions in Focus* engages with the religious lives of members of some of the most significant religions today. It presents religions as contemporary ways of life that motivate and inspire people. Because religious people refer to sacred texts, honour the founders of their religions, learn from elders or mould their lives according to authoritative teachings, *Religions in Focus* explains the relationship between tradition and contemporary practice. It offers an introduction to religions that is rooted in the best scholarship of the Study of Religions and provides a secure foundation for further study. A team of Religious Studies scholars from many countries, all skilled communicators about the contemporary religions with which they are thoroughly familiar, introduce what it means to live as a religious person today. They insist that however old or young, these religions may be, what is most interesting is the ways in which people express them today. This is not a history of religions but an insightful introduction to living religions. A guide to further study and a companion website will point to ways of building on knowledge gained in studying this book and applying skills developed in studying people's religious lives.

**Ancient Jewish Historians and the German Reich** Daniel R. Schwartz,2024-04 Apart from an opening survey of modern study of ancient Jewish history which emphasizes the foundational role of German Jewish scholars the studies united in this volume apply philological methods to the writings of four of them Heinrich Graetz Isaak Heinemann Elias Bickerman n and Abraham Schalit In each case it is argued that some seemingly trivial anomaly or infelicity in a publication about such ancient characters as Antiochus Epiphanes Herod and Josephus points to the way in which the historian constructed and revised his understanding of the Jews situation under Greeks or Romans in light of his perception of the Jews situation under the Second or Third Reich The collection also includes a study that focuses on a Jewish medievalist Philipp Jaff and unravels the indirect but inexorable process that led from a scholarly feud about the editing of medieval Latin texts in the 1860s to the Berlin Antisemitism Dispute Berliner Antisemitismusstreit of 1879 1881 which is commonly viewed as the opening act of modern German antisemitism

Judaism and Modernization on the Religious Kibbutz Aryei Fishman,1992-06-25 This work in the field of intellectual history explores religious ideas which emerged in Jewish thought

under the influence of secular ideologies and in response to the social and cultural realities created by Jewish Emancipation Zionism and socialism By concentrating on the major Jewish Orthodox movements of the nineteenth and twentieth centuries Professor Fishman examines the innovative mechanisms of traditional Judaism that were activated by these movements as they strove to accommodate new realities The study focuses specifically on the Religious Kibbutz Federation in Israel which in the process of building its self contained pioneering settlements developed a religious sub culture that incorporated the central values of Jewish nationalism and socialism Professor Fishman shows that by creating the most far reaching synthesis of modern and traditional Jewish culture at the community level the settlements of the RKF may be regarded as a test case for the measure of the capacity of Judaism to adapt to modern life

**Managing Death: International Perspectives** Gerry R. Cox, Neil Thompson, 2022-09-23 There is a huge collection of literature relating to death grief and bereavement but one aspect that has received relatively little attention is that of death management practices by which we mean the various ways of managing the circumstances of the death ritually acknowledging it and sensitively handling the disposal of the body and so on While ways of disposing of the dead and grief practices have been thought of as based upon individual responses grief and bereavement practices can be understood not only by looking at psychological and medical frameworks but also by examining people as part of a complex structure of social arrangements institutions structures and patterns By examining the social and institutional structures of various groups around the world we provide an international framework for a better understanding of the study of dying death and bereavement This book highlights the significance of these matters in an international context reflecting common themes and important differences It will highlight common themes across diverse cultures and national settings while also drawing attention to significant differences If professionals working in the field of death grief and

bereavement are not aware of such differences their practice can be insensitive discriminatory and therefore ineffective if not actually counterproductive As such the book provides an invaluable resource for a wide variety of professionals and students including medicine and health care social work counselling and psychotherapy chaplaincy and pastoral work and of course those involved in the funeral industry In addition students of sociology psychology and anthropology will find much of interest here in terms of appreciating the diversity of ways in which funerals and other death management practices are managed and integrated into social life
