Pious Pro-family Rhetoric Jay Newman, 2007 This wide ranging interdisciplinary study examines the contemporary media debate between traditionalists and progressivists over religion the family and culture Consideration of this persistent and often fierce debate reveals much about the state of religion in

Western democracies varieties of religious commitment strategies of religious and cultural competition religious uses of politics and political uses of religion images of religion in the media and images of the media in religion the conditions of a sustainable pluralism ideals of tradition and progress and the relations of religion and the family **The Bishop, the Mullah, and the Smartphone** Bryan Winters, 2015-05-01 Not so long ago the world resisted change often using religious reasoning Small wonder the printing press a sixteenth century disruptive device split Christianity Now the globe welcomes digital disruption even praising it as a solution for faltering economies Religions don't have much choice but to follow because information is a prime asset of faith Believers treasure and reframe their past and present However both old and current data is now available in huge quantities visually and instantly Movies provide more spiritual guidance than holy texts and terror merchants use the uncontrollable Internet to gain hearts and minds Nevertheless a turbulent re-mythologization of adherents towards peaceful versions of their belief can be tracked There are positive things we can all do to help which is just as well in a world that suggests only political acts count **Power of Scandal** P. Johannes Ehrat, SJ, 2011-03-05 Are there events that are inherently scandalous Power of Scandal finds that the very idea of scandal is derived not from an event but from public opinion which in turn is construed by media narratives Scandal is powerful because of its ability to challenge institutions by destabilizing their legitimacy The media plays an integral role in the creation of scandal because it interprets real events as purposeful actions for the public Examining the ubiquity of scandals in today's mass media Johannes Ehrat's conclusions are fresh and surprising Ehrat applies classic semiotic and pragmatic thought to contemporary media issues mainly moralist discourse from sex abuse cases to the phenomenon of televangelism Arguing that sociological and communications studies of scandal have ignored the media's constructed nature Ehrat focuses on how meaningful public narrative is produced By examining the parallel worlds of media and public opinion Power of Scandal uses an alternative heuristic for understanding mass communication that is both rigorous and sophisticated **Perspectives on Science and Christian Faith**, 1998 **Canadian Philosophical Reviews**, 1997 *Religion and Technology* Jay Newman, 1997-04-30 Religion and technology have always been at the heart of any civilization says Newman and the changing relations between them have and will continue to have a powerful influence on social and personal development Newman begins with a look at religious criticism of technology most specifically the view that technology undermines religious world views religious practices and spirituality in general But what the religious antitechnologist might be misunderstanding he argues are the essence of technology its relation to progress and its significance as a religious endeavor Indeed religion may be a form of technology or both may be the same as culture itself International Who's Who of Authors and Writers 2004 Europa Publications, 2003 Accurate and reliable biographical information essential to anyone interested in the world of literature The International Who's Who of Authors and Writers offers invaluable information on the personalities and organizations of the literary world including many up and coming writers as well as established names With over 8 000 entries this updated
