festivals and animal sacrifice The aim of such a comparison is to discover clues that may further our understanding of the deep history of religious practices and when used in conjunction with historical data illuminate the differences between cultures and reveal what is distinctive about each of them *Ricoeur's Hermeneutics of Religion* Brian Gregor, 2018-11-29 Religion was a constant theme throughout Paul Ricoeur's long career and yet he never wrote a full length treatment of the topic In this important new book Brian Gregor draws on the full scope of Ricoeur's writings to lay out the essential features of his philosophical interpretation of religion from his earliest to his last work Ricoeur's central claim is that religion aims at the regeneration of human capability in his words the rebirth of the capable self This book provides a rich thematic account of Ricoeur's hermeneutics of religion showing how the theme of capability informs his changing interpretations of religion from his early work on French reflexive philosophy and the philosophy of the will to his late work on forgiveness mourning and living up to death Gregor exhibits Ricoeur's original contribution to philosophical reflection on such themes as evil suffering and violence as well as imagination embodiment and spiritual exercise He also presents a critical reconsideration of Ricoeur's separation of philosophy from theology and his philosophical interpretation of Christian theological ideas of revelation divine transcendence and personhood atonement and eschatology Additionally Gregor provides an expansive look at Ricoeur's interlocutors including Marcel Jaspers Kant Hegel Levinas and Girard Theologically inclined readers will be particularly interested in the book's treatment of Karl Barth and the Protestant theology of the Word which was a vital influence on Ricoeur The result is a study of Ricoeur that is both sympathetic and critical provocative and original inviting the reader into a deeper engagement with Ricoeur's philosophical interpretation of religion **The Community of**

contemporary philosophical engagement with religion that orientate it on its practical rather than metaphysical dimension That is its social political and ethical significance This collection provides important insights for those interested in philosophy religious studies politics human rights globalisation social theory ethics sociology political economy government anthropology contemporary culture and issues of justice and power generally Religion, Myth and Folklore in the World's Epics Lauri Honko, 2011-08-02 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series Migrating Texts and Traditions William Sweet, 2012-12-15 There can be little dispute that culture influences philosophy we see this in the way that classical Greek culture influenced Greek philosophy that Christianity influenced mediaeval western philosophy that French culture influenced a range of philosophies in France from Cartesianism to post modernism and so on Yet many philosophical texts and traditions have also been introduced into very different cultures and philosophical traditions than their cultures of origin through war and colonialization but also through religion and art and through commercial relations and globalization And this raises questions such as What is it to do French philosophy in Africa or Analytic philosophy in India or Buddhist philosophy in North America This volume examines the phenomenon of the migration of philosophical texts and traditions into other cultures identifies places where it may have succeeded but also where it has not and discusses what is presupposed in introducing a text or a tradition into another intellectual culture

Religions of Late Antiquity in Practice Richard Valantasis, 2000-06-19 This book is a collection of nearly seventy Late Antique primary religious texts that constitute a comprehensive view of religious practice in Late Antiquity This sourcebook includes discussions of asceticism religious organization ritual martyrdom **The New Sciences of Religion** W. Grassie, 2010-11-22 Performing a critical analysis of new scientific research on religious and spiritual phenomena Grassie takes a two staged phenomenological approach working from the outside in and the bottom up without privileging at the outset any religious traditions or philosophical assumptions *Text and Artifact in the Religions of Mediterranean Antiquity* Stephen G. Wilson, Michel Desjardins, 2006-01-01 Can archaeological remains be made to speak when brought into conjunction with texts Can written remains on stone or papyrus shed light on the parables of Jesus or on the Jewish view of afterlife What are the limits to the use of artifactual data and when is the value overstated Text and Artifact addresses the complex and intriguing issue of how primary religious texts from the ancient Mediterranean world are illuminated by and in turn illuminate the ever increasing amount of artifactual evidence available from the surrounding world The book honours

Peter Richardson and the first two chapters offer appreciations of this scholarship and teaching. The remaining chapters focus on early Christianity, late antique Judaism, and topics germane to the Roman world at large. Many of the essays relate to features of Jewish life, the epigraphic evidence for gentile converts to Judaism or for Jewish defectors, ancient accounts of the Essenes or of the siege of Masada, and the material context of the first great rabbinic work, the Mishnah. Other essays connect early Christian texts with the social and cultural realia of their day, modes of travel, notions of gender, patronage and benefaction, the relation of tenants and owners, or reflect on the aesthetics of Christian architecture and the relation between building and ritual in Constantinian churches. One study relates the writing of the famous novelist Apuleius to a household mithraeum in Ostia, while another explores the changing appropriation of religious realia as the Roman world became Christian. These wide-ranging and original studies demonstrate clearly that texts and artifacts can be mutually supportive. Equally, they point to ways in which artifacts, no less than texts, are inherently ambiguous and teach us to be cautious in our conclusions.

Science and the Confucian Religion of Kang Youwei (1858-1927) Zhaoyuan WAN, 2021-11-15. WAN Zhaoyuan analyses how Chinese intellectuals conceived of the relationship between science and religion through an in-depth examination of the writings of Kang Youwei, a prominent political reformer and radical Confucian thinker often referred to by his disciples as the Martin Luther of Confucianism. Confronted with the rise of scientism and challenged by the Conflict Thesis during his life, among adversarial Chinese New Culture intellectuals, Kang maintains a holistic yet evolving conception of a compatible and complementary relationship between scientific knowledge and true religion, exemplified by his Confucian religion, kongjiao. This close analysis of Kang's ideas contributes to a richer understanding of the history of science and religion in China and in a more global context. *New Approaches to the Study of Religion*, Peter Antes, Armin W.

Geertz, Randi Ruth Warne, 2004. *Merriam-Webster's Encyclopedia of World Religions*, Merriam-Webster, Inc., 1999. Contains 3,500 alphabetically arranged entries that provide information about various aspects of the world's religions; features thirty in-depth discussions of major religions and includes illustrations and maps.
