the IMF Laurel Kendall, 2009-09-01 Thirty years ago anthropologist Laurel Kendall did intensive fieldwork among South Korea's mostly female shamans and their clients as a reflection of village women's lives. In the intervening decades South Korea experienced an unprecedented economic, social, political, and material transformation and Korean villages all but disappeared. And the shamans, Kendall attests, that they not only persist but are very much a part of South Korean modernity. This enlightening and entertaining study of contemporary Korean shamanism makes the case for the dynamism of popular religious practice, the creativity of those we call shamans, and the necessity of writing about them in the present tense. Shamans thrive in South Korea's high-rise cities, working with clients who are largely middle class and technologically sophisticated. Emphasizing the shaman's work as open and mutable, Kendall describes how gods and ancestors articulate the changing concerns of clients and how the ritual frame of these transactions has itself been transformed by urban sprawl, private cars, and zealous Christian proselytizing. For most of the last century Korean shamans were reviled as practitioners of antimodern superstition; today they are nostalgically celebrated icons of a vanished rural world. Such superstition and tradition occupy flip sides of modernity's coin: the one by confuting the other, by obscuring the beating heart of shamanic practice. Kendall offers a lively account of shamans who once ministered to the domestic crises of farmers as they address the anxieties of entrepreneurs whose dreams of wealth are matched by their omnipresent fears of ruin. Money and access to foreign goods provoke moral dilemmas; about getting and spending, shamanic rituals express these through the longings of the dead and the playful antics of greedy gods, some of whom have acquired a taste for imported whiskey. No other book-length study captures the tension between contemporary South Korean life and the contemporary South Korean shamans' work. Kendall's familiarity with the country and long association with her subjects permit nuanced comparisons between a 1970s then and recent encounters, some with the same shamans and clients as South Korea moved through the 1990s, endured the Asian Financial Crisis, and entered the new millennium. She approaches her subject through multiple anthropological lenses such that readers interested in religion, ritual, performance, healing, gender, landscape, material culture, modernity, and consumption will find much of interest here.

Mapping China and Managing the World Richard J. Smith, 2013-05-20 From the founding of the Qin dynasty in 221 BCE to the present, the Chinese have been preoccupied with the notion of ordering their world. Efforts to create and maintain order are expressed not only in China's bureaucratic institutions and methods of social and economic organization but also in Chinese philosophy, religious and secular ritual, and comprehensive systems of classifying all natural and supernatural phenomena. Mapping China and Managing the World focuses on Chinese constructions of order, *zhi*, and examines the most important ways in which elites in late imperial China sought to order their vast and variegated world. This book begins by exploring the role of ancient texts and maps as the two prominent symbolic devices that the Chinese used to construct cultural meaning and looks at how changing conceptions of the world shaped Chinese cartography whilst both shifting and enduring cartographic practices affected how the Chinese

regarded the wider world Richard J Smith goes on to examine the significance of ritual in overcoming disorder and by focusing on the importance of divination shows how Chinese at all levels of society sought to manage the future as well as the past and the present Finally the book concludes by emphasizing the enduring relevance of the Yijing Classic of Changes in Chinese intellectual and cultural life as well as its place in the history of Sino foreign interactions Bringing together a selection of essays by Richard J Smith one of the foremost scholars of Chinese intellectual and cultural history this book will be welcomed by Chinese and East Asian historians as well as those interested more broadly in the culture of China and East Asia

The Shaman's Wages Kyoim Yun, 2019-09-30 Breaking from previous scholarship on Korean shamanism which focuses on mainland Korea The Shaman's Wages offers the first in depth study of simbang hereditary shamans on Cheju Island off the peninsula's southwest coast In this engaging ethnography enriched by extensive historical research Kyoim Yun explores the prevalent and persistent ambivalence toward practitioners whose services have long been sought out yet derided as wasteful by anti shaman commentators and occasionally by their clients Intrigued by discord between simbang and their clients over fee negotiations Yun set out to learn the deep rooted legacy of condemning or trivializing the practitioners self interests from a neo Confucian governor's purge of shrines during the Chosŏn dynasty to the recent transformation of a community ritual into a practice recognized through UNESCO World Heritage status Drawing on a wealth of firsthand observations she shows how simbang distinguish ritual exchanges from more mundane instances of bartering purchasing bribing and gift giving and explains why ritual affairs are nonetheless inevitably thorny This original study illuminates the intertwining of religion and economy in shamanic practice on Cheju Island

Han, Kamaludeen Mohamed Nasir, 2015-09-16 This book critically analyses the functions and interconnectedness between religion and digital media in a range of East Asian countries. It discusses both how religious organizations make use of new technologies and also explores how new technologies are reshaping religion in novel and interesting ways. Based on extensive research, the book focuses in particular on Christianity in South Korea, Neo Shintoism in Japan, Falun Gong in China, and Islam in Southeast Asia. Offering a comparative perspective on a broad range of media practices including video gaming, virtual worship, social networking, and online testimonials, the book also investigates the idea that use of technology in itself mirrors religious practices.
