Disrupted Dialogue Robert M. Veatch,2004-09-16 Medical ethics changed dramatically in the past 30 years because physicians and humanists actively engaged each other in discussions that sometimes led to confrontation and controversy but usually have improved the quality of medical decision making Before then medical ethics had been isolated for almost two centuries from the larger philosophical social and religious controversies of the time There was however an earlier period where leaders in medicine and in the humanities worked closely together and both fields were richer for it This volume begins with the 18th century Scottish Enlightenment when professors of medicine such as John Gregory Edward Percival and the American Benjamin Rush were close friends of philosophers like David Hume Adam Smith and Thomas Reid They continually exchanged views on matters of ethics with each other in print at meetings of elite intellectual groups and at the dinner table Then something happened physicians and humanists quit talking with each other In searching for the causes of the collapse this book identifies shifts in the social class of physicians developments in medical science and changes in the patterns of medical education Only in the past three decades has the dialogue resumed as physicians turned to humanists for help just when humanists wanted their work to be relevant to real life social problems Again the book asks why finding answers in the shift from acute to chronic disease as the dominant pattern of illness the social rights revolution of the 1960 s and the

increasing dissonance between physician ethics and ethics outside medicine The book tells the critical story of how the breakdown in communication between physicians and humanists occurred and how it was repaired when new developments in medicine together with a social revolution forced the leaders of these two fields to resume their dialogue **Bernard Lonergan's Method and a Medical Doctor's Approach to Healthcare** John Raymaker,2021-03-10 Pat Daly MD has written a series of articles which uphold Bernard Lonergan s method explored in his famous book Insight as a model that could be followed or applied in practicing medicine or promoting healthcare Daly calls his effort a GEM Model for medicine Daly however has not explored in depth Lonergan s second major work Method in Theology which develops an eight step method that complements Insight This book focuses on these eight steps or Functional Specialties so as to better promote Lonergan s views on Healing and Creating in History **Morphogenesis of Symbolic Forms: Meaning in Music, Art, Religion, and Language** Wolfgang Wildgen,2023-03-01 In the present book the starting line is defined by a morphogenetic perspective on human communication and culture The focus is on visual communication music religion myth and language i e on the symbolic forms at the heart of human cultures Ernst Cassirer The term morphogenesis has more precisely the meaning given by Ren Thom 1923 2002 in his book Morphogenesis and Structural Stability 1972 and the notions of self organization and cooperation of subsystems in the Synergetics of Hermann Haken 1927 The naturalization of communication and cultural phenomena is the favored strategy but the major results of the involved disciplines art history music theory religious science and linguistics are respected Visual art from the Paleolithic to modernity stands for visual communication The present book focuses on studies of classical painting and sculpture e g Leonardo da Vinci William Turner and Henry Moore and modern art e g Jackson Pollock and Joseph Beuys Musical morphogenesis embraces classical music from J S Bach to Arnold Sch nberg and political songwriting Bob Dylan Leonhard Cohen The myths of pre literary societies show the effects of self organization in the re assembly bricolage of traditions Classical polytheistic and monotheistic religions demonstrate the unfolding of basic germs religious attractors and their reduction in periods of crisis the self organization of complex religious networks and rationalized macro structures in theologies Significant tendencies are analyzed in the case of Buddhism and Christianity Eventually a holistic view of symbolic communication and human culture emerges based on state of the art in evolutionary biology cognitive science linguistics and semiotics philosophy of symbolic forms Christian Ethics Russell A. Morris,2015-08-14 Within the Christian community at large there is often little correlation between scriptural guidelines for Christian living and the lifestyle practices and behavior of believers Christian social scientist George Barna has done extensive research in this area that reveals alarming data For example nearly nine of ten adults state that religious faith is very important in their lives However only one in five adults claims that the Bible is the dominant influence in their decisions regarding lifestyle practices Further research suggests that there is often little difference between the lifestyle practices of Christians and non Christians This nominal difference in lifestyle practices and behavior between Christians and

non Christians as well as the minimal correlation between Scripture and practice among many Christians produced an interest in this area of practical theology Serving as a Christian pastor over the past two decades the reality of Barnas research has been observed personally The biblical parallel of the prevailing apathy within todays churches is seen in Judges 21 25 NASB In those days there was no king in Israel everyone did what was right in his own eyes That is in those days there was no accepted standard of truth Likewise only one in four American adults believes in the existence of absolute truth As a result the relationship between doctrine and practice belief and behavior is often minimal with many Christians doing only what is right in their own eyes rather than allowing Gods Word to influence their mode of living A distinct relationship between belief and behavior is seen in I Timothy 4 16 In this passage Paul clearly identifies a correlation between what one believes doctrine and the lifestyle behavior one lives when he writes Watch your life and doctrine closely Persevere in them because if you do you will save both yourself and your hearers From this verse it is clear that there are two areas in the life of the Christian that need to be scrutinized and pursued namely belief and behavior The fundamental thesis of this book is that a deeper understanding of Christian ethics will inform and facilitate the Christian life

Ethics in Crisis David Clough, 2016-05-13

Ethics in Crisis offers a constructive proposal for the shape of contemporary Christian ethics drawing on a new and persuasive interpretation of the ethics of Karl Barth David Clough argues that Karl Barth s ethical thought remained defined by the theology of crisis that he set out in his 1922 commentary on Romans and that his ethics must therefore be understood dialectically caught in an unresolved tension between what theology must and cannot be Showing that this understanding of Barth is a resource for contemporary constructive accounts of Christian ethics Clough points to a way beyond the idolatry of ethical absolutism on the one hand and the apostasy of ethical postmodernism on the other
