Decolonisation, and the Cold War in South and Southeast Asia Clemens Six, 2017-07-20 The intensifying conflicts between religious communities in contemporary South and Southeast Asia signify the importance of gaining a clearer understanding of how societies have historically organised and mastered their religious diversity Based on extensive archival research in Asia Europe and the United States this book suggests a new approach to interpreting and explaining secularism not as a Western concept but as a distinct form of practice in 20th century global history In six case studies on the contemporary history of India Indonesia Malaysia and Singapore it analyses secularism as a project to create a high degree of distance between the state and religion during the era of decolonisation and the emerging Cold War between 1945 and 1970 To demonstrate the interplay between local and transnational dynamics the case studies look at patterns of urban planning the struggle against religious nationalism conflicts around religious education and anti communism as a dispute over secularism and social reform The book emphasises in particular the role of non state actors as key supporters of secular statehood a role that has thus far not received sufficient attention A novel approach to studying secularism in Asia the book discusses the different ways that global transformations such as decolonisation and the Cold War interacted with local relations to reshape and relocate religion in society It will be of interest to scholars of Religious Studies International Relations and Politics Studies of Empire Cold War Studies Subaltern Studies Modern Asian History and South and Southeast Asian Studies

The Development of Pluralism in Modern Britain and France Richard Bonney, David J. B. Trim, 2007 Europe is increasingly multi ethnic and multi faith as well as multi cultural Western democracies now comprise a plurality of fundamental opinions and inherited cultures it is not clear how or if they can be related to each other without involving either oppression or anarchy This debate requires historical understanding and a contemporary grasp of the points at issue amongst different cultures By virtue of their proximity and frequent historical interaction Britain and France lend themselves to comparative study The studies in this volume collectively demonstrate that the affairs of religious minorities in these two

countries were not only of concern to themselves and their national established churches Rather over a long term period they had a sustained impact on many other issues All chapters illustrate the problematic shift from a persecutory to a pluralistic mentality

Minorities and Populism - Critical Perspectives from South Asia and Europe Volker Kaul, Ananya Vajpeyi, 2020-02-28 This volume assembles renowned scholars to address for the first time the relationship between minorities and populism in South Asia and Europe from a critical perspective Despite the very different and to some extent opposite historical and political trajectories there is today a convergence on nationalist affirmation and on majoritarian politics between South Asia and Europe In India the Hindu majority rebels against wide ranging minority rights anchored in the Constitution In Europe the refugee crisis and Islamic radicalization bring to the forefront the postcolonial legacy Despite all rhetoric there are obvious dangers of majoritarianism Populist parties are divisive partisan disregard minority rights engage in lynching social division stigmatization and exclusion turning minorities into second class citizens There is a profound structural connection between minorities and the current rise of populism in India and Europe But there remains a deep perplexity and also anxiety Does the presence of minorities necessarily have to trigger majoritarian policies Are there no solutions to this dilemma Many observers considered multicultural policies and affirmative action programs in India as a possible model for Europe to adopt in order to achieve greater integration But eventually they seem to have failed Why so Are multiculturalism and the recognition of differences still options today On the other hand most scholars in India

typically reject the European model of liberal democracy and secularism as impracticable in India and locate the reason for the current malaise in the west But is liberal democracy really so bad in dealing with pluralism This volume collecting a selection of the Reset DOC Venice Padua Delhi dialogue series is going to answer two fundamental questions First what precisely is the nexus between minorities and populism in South Asia and Europe Starting from those case studies the authors will also draw some general theoretical inferences about the nature of populism Secondly given the dangers of populism for minorities the volume will look for the most adequate and feasible solutions

Exploring Religious Diversity and Covenantal Pluralism in Asia Dennis R. Hoover, 2022-12-26 This book examines the growing diversity of religions and

worldviews across South Central Asia and the factors affecting prospects for covenantal pluralism in these regions Going beyond banal appeals for mere tolerance the theory of covenantal pluralism calls for a constitutional order of religious freedom and equal treatment combined with a culture of practical religious literacy and everyday virtues of engagement across lines of religious difference According to the Pew Religious Diversity Index half of the world's most religiously diverse countries are in Asia The presence of deep religious worldview difference is often seen as a potential threat to socio political cohesion or even as a source of violent conflict Yet in Asia as elsewhere the degree of this diversity is not consistently associated with socio political problems Indeed while religious difference is implicated in some social challenges there are also many instances of respectful multi faith engagement practical collaboration and peaceful debate Volume II offers a pioneering exploration of the prospects for this robust and non relativistic type of pluralism in South Central Asia Volume I examined East Southeast Asia The chapters in these volumes originally appeared as research articles in a series on covenantal pluralism published by The Review of Faith International Affairs *A Public Faith* Miroslav Volf,2011-08 An intellectual and applied Christian engagement with what it really means to flourish as human beings in relationship to God and one another **Sufism East and West** Jamal Malik,Saeed Zarrabi-Zadeh,2019-07-15 In Sufism East and West the contributors investigate the redirection and dynamics of Sufism in the modern era specifically from the perspective of global cross cultural exchange Edited by Jamal Malik and Saeed Zarrabi Zadeh the book explores the role of mystical Islam in the complex interchange and fluidity in the resonance spaces of East and West The volume challenges the enduring Orientalist binary coding of East versus West and argues instead for a more mutual process of cultural plaiting and shared tradition By highlighting amendments adaptations and expansions of Sufi semantics during the last centuries it also questions the persistent perception of Sufism in its post classical epoch as a corrupt imitation of the legacy of the great Sufis of the past
