The Status of Religion and the Public Benefit in Charity Law Barry W. Bussey, 2020-02-29 The Status of Religion and the Public Benefit in Charity Law is an apologetic for maintaining the presumption of public benefit for the charitable category advancement of religion in democratic countries within the English common law tradition In response to growing academic and political pressure to reform charity law including recurring calls to remove tax exemptions granted to religious charities the scholars in this volume analyse the implications of legislative and legal developments in Canada the UK Australia New Zealand and South Africa In the process they also confront more fundamental sociological or philosophical questions on the very nature and role of religion in a secular society that would deny any space for religious communities outside their houses of worship In other words this book is concerned with the place of religion and religious institutions in contemporary society It represents a series of concerns about the proper role of the state in relation to the differing beliefs of citizens some of which will quite rightly manifest in actions to benefit the wider society This debate then naturally engages with broader issues related to secularism civic engagement and liberal democratic freedoms

in the Liberal Polity Emily R. Gill, 2019-08-21 This book addresses the challenge of providing for the free exercise of religion without allowing religious exercise by some individuals and groups to impinge upon the conscientious convictions of others State neutrality toward religion is impossible because neutrality means inattention to religion for some but leveling the playing field through accommodations or exemptions for others Both formal and substantive neutrality have a place in addressing particular conflicts One such example is public funding for religiously affiliated social service programs for which neither type of neutrality is satisfactory and thus some restrictions are justifiable conversely private voluntary organizations

that do not receive direct public funding should be allowed wide latitude regarding their practices This title also examines the expansive free exercise claims that are now made by those who argue that following the law impinges upon their beliefs as exemplified by the ministerial exception and the Hobby Lobby and Masterpiece Cakeshop Supreme Court cases It concludes by analyzing the relationship between neutrality and marriage as a civil status which impacts a variety of commitment types and plural marriage The End of Religion Kathleen McPhillips, Naomi Goldenberg, 2020-10-22 Feminist theory has enhanced and expanded the agency influence status and contributions of women throughout the globe However feminist critical analysis has not yet examined how the assumption that religion is natural timeless universal and omnipresent supports sexist and race based oppression This book proposes radical new thinking about religion in order to better comprehend and confront the systematic disempowerment of women and marginalized groups Utilising feminist and post colonial analysis of access equity and violence contributors draw on recent critical theory to collapse accepted boundaries between religion and secularity with the aim of understanding that religion is a technology of governance in its function meaning and history The volume includes case studies focusing on how the category of religion is deployed to perpetuate male hegemony and racist inequities in Australia Mexico the United States Britain and Canada This trenchant feminist critique and academic analysis will be of key interest to scholars and students of Religion Sociology Political Science and Gender Studies
