## **Religious Resurgence Contemporary Cases In Islam Christianity And Judaism:**

*Religious Resurgence* Richard T. Antoun, Mary Elaine Hegland, 1987      *Religious Resurgence* Richard T. Antoun, Mary Elaine Hegland, 1987      **The Resurgence of Religion** David S. Zeidan, 2018-11-13 This book is a comparative study of basic themes in Christian and Islamic fundamentalist discourses analyzing and comparing texts from a wide variety of fundamentalist leaders and movements looking for family resemblances and significant differences in order to better understand the contemporary phenomenon of religious resurgence After placing fundamentalisms in a theoretical framework the study looks at selected themes important to fundamentalists noting resemblances and differences These themes include their anti secularist stance their theocentric worldviews their reliance on inerrant sacred scriptures and their attitudes to politics government state and democracy The study also looks at the fundamentalist view of the world as a perennial battlefield between the forces of good and those of evil in the realm of ideologies as well as politics and the legitimization of violence      Routledge Handbook of Religion and Politics Jeffrey Haynes, 2016-01-13 From the United States to the Middle East Asia and Africa religion continues to be an important factor in political activity and organisation The second edition of this successful handbook provides the definitive global survey of the interaction of religion and politics Featuring contributions from an international team of experts it examines the political aspects of all the world s major religions including such crucial contemporary issues as religious fundamentalism terrorism the war on terror the clash of civilizations the Arab Spring and science and religion Each chapter has been updated to reflect the latest developments and thinking in the field and new chapters such as Postsecularism and international relations and Securitization and Secularization The two pillars of state regulation of European Islam have been added to ensure the book is a comprehensive and up to date resource Four main themes addressed include World religions and politics Religion and governance Religion and international relations Religion security and development References at the end of each chapter have been overhauled to guide the reader towards the most up to date information on various topics This book is an indispensable source of information for students academics and the wider public interested in the dynamic relationship between politics and religion      Pioneers of Islamic Revival Ali Rahnema, 1994 *Pioneers of Islamic Revival* examines the political environments lives and works of those diverse nineteenth and twentieth century Muslim thinkers who believed that Islam was capable of providing practical solutions to the problems of the modern world      *Religion and Politics* John T. S. Madeley, 2019-07-15 This title was first published in 2003 This subject area of this work cross cuts conventional sub disciplinary boundaries in the study of comparative politics Connections between religion and politics can be identified in all of the thematic areas covered by the articles within **Islam, Peace and Social Justice** A Christian van Gorder, 2014-05-29 *Islam Peace and Social Justice* examines the ways in which Islamic cultures have dealt with issues of social justice historically and culturally With unwavering objectivity the author helps readers of any faith to gain a nuanced and accurate understanding of the challenges that we face in

contemporary multifaith engagements Dr van Gorder offers a comprehensive and sympathetic Christian insight into Islam The contentious issues of social justice that are encountered in this broad yet intricate study include the concept of Jihad poverty political oppression human rights genocide racism sexual injustice homophobia and environmental degradation The challenges are real and the problems are vast partnerships and solutions must be found people of faith Muslim Jewish and Christian must find ways to work together to address these shared challenges This work exposes misrepresentations and stereotypes about Islamic views of social justice that abound in Europe and North America The author encourages a deeper appreciation of how themes of social justice resound through Islamic texts and have been expressed both in the contemporary and historical life of various and diverse Islamic communities worldwide *Global Social Movements* Continuum, 2004-11-01 Articles by Sarah Ashwin Upendra Baxi Jim Beckford Cynthia Cockburn John Forrester Paul Havemann Paul Lubeck John Mattausch Ronaldo Munck Peter Newell Deborah Stienstra and Steven Yearley *Islam Across Boundaries* Tarmizi Taher, 2003 **Fatal Future?** Richard M. Pearlstein, 2004-04-01 Annotation This groundbreaking book examines the evolution of terrorism in the context of the new global disorder **Social Welfare and Religion in the Middle East** Rana Jawad, 2009-07-29 The original analysis in this book presents a new and comprehensive narrative of social welfare in the Middle East through an examination of the role of religious welfare **Ninian Smart on World Religions** John J. Shepherd, 2017-11-30 Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the late 1960s His pioneering views on education in religion proved hugely influential at all levels from primary schools to academic teaching and research An unending string of publications many of them accessible to the general public sustained a reputation that became worldwide Here for the first time a selection of Ninian Smart's wide ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century The editor John Shepherd was Principal Lecturer in Religion and Philosophy at the University of Cumbria He first met Smart as a postgraduate student and recently helped establish the Ninian Smart Archive at the University of Lancaster *Social Science and the Cults* John A. Saliba, 2019-03-20 This book first published in 1990 brings together descriptive comparative and theoretical materials on cults and sects in Western culture focusing on literature published since 1970 A historical section links the rise of the new movements to similar past phenomena in Western culture Other sections examine the methodology of studying religious movements and the various theories which have been brought to explain them current studies on traditional sects that are sometimes compared to the new religions and many studies of individual contemporary cults **Religious Actors and International Law** Ioana Cismas, 2014-07-17 This book assesses whether a new category of religious actors has been constructed within international law Religious actors through their interpretations of the religions they are associated with uphold and promote or indeed may transform potentially oppressive structures or discriminatory patterns This study moves beyond the concern that

religious texts and practices may be incompatible with international law to provide an innovative analysis of how religious actors themselves are accountable under international law for the interpretations they choose to put forward The book defines religious actors as comprising religious states international organizations and non state entities that assume the role of interpreting religion and so claim a special legitimacy anchored in tradition or charisma Cutting across the state non state divide this definition allows the full remit of religious bodies to be investigated It analyses the crucial question of whether religious actors do in fact operate under different international legal norms to non religious states international organizations or companies To that end the Holy See Vatican the Organization of Islamic Cooperation and churches and religious organizations under the European Convention on Human Rights regime are examined in detail as case studies The study ultimately establishes that religious actors cannot be seen to form an autonomous legal category under international law they do not enjoy special or exclusive rights nor incur lesser obligations when compared to their respective non religious peers Going forward it concludes that a process of two sided legitimation may be at stake religious actors will need to provide evidence for the legality of their religious interpretations to strengthen their legitimacy and international law itself may benefit from religious actors fostering its legitimacy in different cultural contexts

Religion in Global Civil Society Mark Juergensmeyer, 2005-11-03 The worlds religions are becoming increasingly globalized One can no longer equate particular faiths with corresponding geographic locations Islam is as much a south or southeast Asian religion as it is a middle eastern one And Christianity is growing by leaps and bounds in Africa Asia and Latin America while it declines in Europe In addition to these major population shifts small communities of adherents of every religion are scattered across the globe where they mingle with and adapt to local cultures What are we to make of this new religious world The Oxford Handbook of Global Religions offers a comprehensive look at world religious societies in their contemporary global diversity Comprising 60 essays each by a leading scholar the volume focuses on communities rather than beliefs symbols or rites Communities in the diaspora and at the periphery are covered as well as the central geographic regions of all the major living religious traditions It is organized into six sections the Indic cultural region the Buddhist Confucian the Jewish Christian and Muslim regions and the African cultural region In each section an introductory essay discusses the social development of that religious tradition historically The other essays cover the basic social facts the communitys size location organizational and pilgrimage centers authority figures patterns of governance major subgroups and schisms as well as issues regarding boundary maintenance political involvement role in providing cultural identity and encounters with modernity The worlds religious communities are more diverse than ever before and there is no other volume that covers the tremendous variety of faith communities discussed in this Handbook This volume will be indispensable to anyone interested in contemporary religion

*State Power and Politics in the Making of the Modern Middle East* Roger Owen, 2002-04-12 This book continues to serve as an excellent introduction for new comers to the modern history and politics of a region that is usually portrayed as mysterious

unpredictable and violent      The Sociology of Religion George Lundskow, 2008-06-10 Most Sociology of Religion texts are decidedly staid and uninteresting covering contemporary developments which are only contemporary only from a disciplinary perspective They are not contemporary if viewed from the perspective of the religion's practitioners in religious and non religious settings The textbooks that attempt to be interesting to undergraduate students often fall short because they either try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one Many use real life examples only superficially to illustrate concepts Lundskow's approach is the opposite students will learn the facts of religion in its great diversity all the most interesting and compelling beliefs and practices and then learn relevant concepts that can be used to explain empirical observations The book thus follows the logic of actual research investigate and then analyze rather than approaching concepts with no real bearing on how religion is experienced in society This approach using provocative examples and with an eye toward the historical and theoretical not to mention global experience of religion will make this book a success in the classroom The author envisions a substantive approach that examines religion as it actually exists in all its forms including belief ritual daily living identity institutions social movements social control and social change Within these broad categories the book will devote particular chapters to important historical moments and movements leaders and various individual religions that have shaped the contemporary form and effect of religion in the world today

*Cultural Anthropology of the Middle East, A Bibliography, Volume 1 Cultural Anthropology of the Middle East 1965-1987* Strijp, 2021-12-06 During the last two decades the number of anthropologists conducting research in the Middle East has increased considerably Together they have produced an abundance of valuable studies often based on prolonged periods of ethnographic fieldwork This bibliography offers a comprehensive survey of their results published between 1965 and 1987 It refers to studies published in English French and German Geographically the bibliography covers the area from Mauritania in the West to Afghanistan in the East and from Turkey in the North to the Arab Peninsula and Northern Sudan in the South The majority of studies inserted has been written by anthropologists Besides a considerable number of studies related to anthropology but published by non anthropologists has been integrated as well The majority of the monographs and volumes has been annotated      Cultural Anthropology of the Middle East, 1992 During the last two decades the number of anthropological studies on the Middle East has increased exponentially This partially annotated bibliography offers a comprehensive survey of studies written in English French and German and covers the period from 1965 to 1987
