## Religious Texts And Material Contexts:

**Religious Texts and Material Contexts** Jacob Neusner, James F. Strange, 2001-07-17 No problem so vexes learning as how to balance the claims of the written record of humanity against the actualities of man's material detritus Religious Texts and Material Contexts brings together scholars of the written record and those of the material realm beyond especially those working in the academic study of religion This book examines the relationship between archaeology and text scholarship through religion featuring cases of archaeology supported and not supported by written evidence *Text, Context and Performance* James A. Kapaló, 2011-09-23 This ethnographic study of Gagauz religion offers an original perspective on folk religion as discourse and object of study It is also the first monograph published in a Western language on this little known European people's history and culture *Reading Religion in Text and Context* Peter Collins, 2017-05-15 To what extent is religion inherently textual What might the term textual mean in relation to religious faith and practice These are the two key questions addressed by the eleven thought provoking essays collected in this volume Accounts of the content and structure of sacred texts are commonplace The rather more adventurous aim of this book is to disclose within the context of religion the various ways in which meaning can be read of more or less obviously sacred writing and from discourses such as the body the built and natural environment drama and ritual Theology in the Context of World Christianity Timothy C. Tennent, 2009-05-26 Thinking more globally about the formation of theology enriches our understanding of what it means to be a Christian It's no secret that the center of Christianity has shifted from the West to the global South and East While the truths of the Christian faith are universal different contexts and cultures illuminate new questions understandings and expressions What does this mean for theology as Western theologians understand it Timothy Tennent argues that the Christian faith is culturally and theologically translatable Theology in the Context of World Christianity is written to expand our ecclesiastical cartography by highlighting within each of the major themes of systematic theology studies that are engaging the global church such as Anthropology with studies drawn from the different views of human identity between Eastern and Western cultures Christology with a focus on the emphases that African Christians place on the characteristics of Christ Pneumatology by looking at the role of the Holy Spirit in Latin American Pentecostalism Eschatology by focusing on how this branch of theology shapes world missions and evangelism Each of the ten chapters examines traditional theological categories in conversation with theologians from across the globe making this volume valuable for students pastors missionaries and theologians alike Theological reflection is active and exciting in the majority world church and Tennent invites you to your own reflection and celebration of Christ's global church These are perspectives that should be heard considered and brought into conversation with Western theologians Global theology can make us aware of our own blind spots and biases and has much to offer toward the revitalization of Western Christianity *Why Ask Questions About Islam?: Answers Christians Need to Understand* Gordon Kainer, 2016-07-11 Across the world Islam appears in eye catching headlines

We may be aware of what is happening but often we don't understand why. Most Christians have unanswered questions about Islam: don't we? Do Muslims and Christians worship the same God? Does it matter whether one is a Muslim or a Christian? How does Islam view love, sin, salvation, and forgiveness? Is a Muslim's view of Jesus different than a Christian's? What does Bible prophecy say about Islam? How best should a Christian witness to a Muslim? This book answers over 100 questions Christians ask about Islam and in so doing reveals Islam's greatest need: a saving faith in the gospel of Jesus Christ. It is the author's hope that this book provides you with a highly informative perspective as Islam is thoughtfully studied and evaluated within the framework of a biblical worldview. **Understanding Islam and Christianity** Josh McDowell, Jim Walker, 2013-10-01

For years international apologist Josh McDowell has been alert to the challenge of Islam and how Muslims' objections to Christianity can raise deep doubts in believers' minds. His recent on-the-ground research with Muslims in the Middle East has crystallized into this practical resource focusing on Jesus and the gospel. Aided by Islam expert Jim Walker, McDowell lays out the evidence on the crucial issues: What kind of prophet was Jesus? Was he the Messiah, Son of God, Son of Man? What's that about? How are God and Jesus related? Can they both be God? The gospel: how could God dishonor his Son by letting him die horribly? What good did his death do? Aren't the Bible's accounts of Jesus corrupt? With all this as well as background appendixes on the basics, believers will have authoritative evidence from Scripture and history to intelligently deal with Muslims' questions about and challenges to Christianity. From Scrolls to Scrolling Bradford A. Anderson, 2020-06-22

Throughout history the study of sacred texts has focused almost exclusively on the content and meaning of these writings. Such a focus obscures the fact that sacred texts are always embodied in particular material forms, from ancient scrolls to contemporary electronic devices. Using the digital turn as a starting point, this volume highlights material dimensions of the sacred texts of Judaism, Christianity, and Islam. The essays in this collection investigate how material aspects have shaped the production and use of these texts within and between the traditions of Judaism, Christianity, and Islam from antiquity to the present day. Contributors also reflect on the implications of transitions between varied material forms and media cultures. Taken together, the essays suggest that materiality is significant for the academic study of sacred texts as well as for reflection on developments within and between these religious traditions. This volume offers insightful analysis on key issues related to the materiality of sacred texts in the traditions of Judaism, Christianity, and Islam while also highlighting the significance of transitions between various material forms, including the current shift to digital culture. Discourse

Perspectives on English Risto Hiltunen, Janne Skaffari, 2003-12-19. Covering nearly one thousand years, this volume explores medieval and modern English texts from fresh perspectives. Within the relatively new field of historical discourse linguistics, the synchronic analysis of large textual units and consideration of text external features in relation to discourse has so far received little attention. To fill that gap, this volume offers studies of medieval instructional and religious texts and correspondence from the early modern period. The contributions highlight writer-audience relationships, the intended use of

texts descriptions of text type and questions of orality and manuscript contextualization The topics ranging from the reception of Old English texts to the conventions of practical instruction in Middle English to the epistolary construction of science in early Modern English are directly relevant to historical linguists discourse and text linguists and students of the history of English

KOINE Derek Counts,Anthony Tuck,2009-11-23 The Oxford English Dictionary defines koine as a set of cultural or other attributes common to various groups This volume merges an academic career over a half century in breadth and scope with an editorial vision that brings together a chorus of scholarly contributions echoing the core principles of R Ross Holloways own unique perspective on ancient Mediterranean studies Through broadly conceived themes the four individual sections of this volume I A View of Classical Art Iconography in Context II Crossroads of the Mediterranean Cultural Entanglements Across the Connecting Sea III Coins as Culture Art and Coinage from Sicily and IV Discovery and Discourse Archaeology and Interpretation are an attempt to capture the many and varied trajectories of thought that have marked his career and serve as testimony to the significance of his research The twenty four papers plus four introductory essays to the individual sections biographical sketch and main introduction contain recent research on subjects ranging from the Kleophrades Painter to the Black Sea Sicilian Coinage and archaeology in modern Rome *Exploring Context in Religious Education Research* Geir Skeie,Judith Everington,Ina ter Avest,Siebrin Miedema,2013 The relevance of contextual perspectives in religious education has been growing for the last decade It has been central to the European Network for Religious Education through Contextual Approaches ENRECA the research network that has produced the present book Several members of the network have contributed to the theoretical and empirical development of contextual approaches in different publications but for the first time this has been the focus of an entire collectively produced volume The history of the book dates back to research seminars in 2009 and 2010 and is based on the discussions in the seminar The chapters have been developed through a process of critical examination Through this process we believe to have produced a coherent and also comprehensively rich book dealing with the issue of context as a challenge and also a stimulus to religious education research and practice The chapters are presenting both empirical research and scholarly investigation into methodological and theoretical dimensions Taken together we hope that this book will contribute to the further development of contextual thinking in religious education research Or aim has not been to answer all questions but rather to pose questions and to complicate things in order to enrich the academic field of religion in education

**Inclusion or Exclusion in the Sacred Texts and Human Contexts** Muhammad Shafiq, Thomas Donlin-Smith, 2024-10-25 This work delves into the fundamental issue of Otherness from both sacred texts and communal experiences While the title adopts the dyad of inclusion or exclusion these analyses broadly reflect nuanced critical considerations Filled with profound psychological theological sociological anthropological and ethical dimensions experiencing the Other is richly expressed within religious traditions This book is a must for scholars interested in a multi disciplinary approach to inclusivity and religion **Chapters in the Formative History of Judaism** Jacob

Neusner, 2010-07-15 This collection of eight essays draws on a half year of work the second six months of 2009 Neusner takes up three problems in the history of Religions four essays on fundamental issues in form history and the documentary hypothesis of the Rabbinic canon and one theological essay The reason Neusner periodically collects and publishes essays and reviews is to give them a second life after they have served as lectures or as summaries of monographs or as free standing articles or as expositions of Judaism in collections of comparative religions This re presentation serves a readership to whom the initial presentation in lectures or specialized journals or short run monographs is inaccessible Some of the essays furthermore provide a pr cis for colleagues in kindred fields of fully worked out monographs the comparative Midrash exercise for example *The Oxford Handbook of Early Christian Archaeology* David K. **First Steps in the Talmud** Jacob Neusner, 2012-07-10 The Talmud is a confusing piece of writing It begins no where and ends no where but it does not move in a circle It is written in several languages and follows rules that in certain circumstances trigger the use of one language over others Its components are diverse To translating it requires elaborate complementary language It cannot be translated verbatim into any language So a translation is a commentary in the most decisive way The Talmud accordingly cannot be merely read but only studied It contains diverse programs of writing some

descriptive and some analytical A large segment of the writing follows a clear pattern but the document encompasses vast components of miscellaneous collections of bits and pieces odds and ends It is a mishmash and a mess Yet it defines the program of study of the community of Judaism and governs the articulation of the norms and laws of Judaism its theology and its hermeneutics Above all else the Talmud of Babylonia is comprised of contention and produces conflict and disagreement with little effort at a resolution No wonder the Talmud confuses its audience But that does not explain the power of the Talmud to define Judaism and shape its intellect This book guides those puzzled by the Talmud and shows the system and order that animate the text

The Moral World of James James Riley Strange, 2010 In The Moral World of James James Riley Strange compares the moral system in the Epistle of James with other Greco Roman and Judaic texts The author of the epistle prescribed moral practices in a world in which other people both pagan and Jewish had long been expressing similar concerns and more would continue to take up the task centuries after Christianity was well established in the Roman Empire In this fresh and thick analysis Strange s systemic comparison of texts among them works of Plato Plutarch Epictetus and Aelius Aristides as well as Greek Magical Papyri tractates of the Mishnah and the Community Rule of the Dead Sea Scrolls reveals how James s vision of a distinctive way of community life was both part of and distinct from the moral and religious systems among which it emerged

Narrative and Document in the Rabbinic Canon: The Two Talmuds Jacob Neusner, 2010-07-15 The author states in his preface For a thousand years from its earliest documents of the second century to the High Middle Ages Rabbinic Judaism preferred to compose and collect anecdotes not to construct of them sustained and connected biographies This is a study of the inclusion of biographical narratives about sages in some of the components of the unfolding canon of Rabbinic Judaism in the formative age the documents of the first six centuries C E exclusive of the two Talmuds A sage here is defined as a man who embodies the Rabbinic system A sage story then is an anecdote about the life and deeds of a Rabbinic sage A biographical narrative in general is the record of things done on a concrete and specific past tense occasion by named individuals The stories are not told as part of a sustained biographical account of those individuals lives birth to death I am able in this way to correlate the unfolding of the authorized biography in the counterpart Christian one The documentary hypothesis yields the correlation between the advent of the Christian authorized biography and the advent of the sage story in the later documents of the Rabbinic canon

**How the Halakhah Unfolds** Jacob Neusner, Tzvee Zahavy, 2006 In separate multi volumed works form analytical English translations of the Mishnah Tosefta Yerushalmi and Bavli have been set forth Outlines of the Yerushalmi and the Bavli have been brought about and those outlines of the two Talmuds have been compared In addition for each subject the main points of the Halakhah of the topical expositions or tractates of the Mishnah Tosefta Yerushalmi Bavli have been set forth The theological message of the respective tractates has been spelled out Here we follow a single tractate through the principal documents of formative Judaism as these have already presented them How the academic commentaries outlines and comparisons and theological summaries yield a

systematic account of the Halakhah in its documentary unfolding is thus fully exposed
