**Changes in Religious and Spiritual Practices in Western Society** Dr. Anthony B. Atwam (PhD), 2025-01-22 Adopting an interdisciplinary approach between the sociology of religion and practical theology this book examines the dynamic changes in religious and spiritual practices in the West from the 1960s From this examination the book demonstrates that westerners are becoming spiritually hungry and there is also a general thirst for righteousness When people demand faithfulness and loyalty in marriages relationships and at the workplace that is a thirst for righteousness Furthermore these changes are also leading to a paradigm shift in the West in religion and spirituality contexts we are moving from the Christian Age to a new era which some scholars claim to be the New Age In politics there is a potential shift in world dominance from the West to the East however there is some notable resistance from some quarters in America but Europe including Britain theologically seems to be following and championing events leading to its own demise In the context of world missions the centre of world Christianity is shifting from the West to the global south Africa in particular There is also a potential societal apocalypse despite our scientific endeavours and finally cosmologically the coming of God's kingdom is imminent The context in which these changes are occurring is the West Therefore this book is a great resource for policy makers students tutors Pastors the Church and people in Western nations The West is a mission field therefore this book is also a great resource for students institutions tutors missionaries and people in the global south Thus the discussion in the book contributes to our understanding of what is going on globally in the twenty first century Read this book to find out how these dynamic events affect you your family and society *Religious Transformation in Maya Guatemala* John P.

Hawkins, 2021-05-01 Mayas and indeed all Guatemalans are currently experiencing the collapse of their way of life This collapse is disrupting ideologies symbols life practices and social structures that have undergirded their society for almost five hundred years and it is causing rapid and massive religious transformation among the K'iche' Maya living in highland western Guatemala Many Maya are converting to Christian Pentecostal faiths in which adherents and leaders become bodily agitated during worship Drawing on over fifty years of research and data collected by field school students Hawkins argues that two factors cultural collapse and systematic social and economic exclusion explain the recent religious transformation of Maya Guatemala and the style and emotional intensity through which that transformation is expressed Guatemala serves as a window on religious change around the world and Hawkins examines the rapid pentecostalization of Christianity not only within Guatemala but also throughout the global South The pentecostal wail as he describes it is ultimately an

acknowledgment of the angst and insecurity of contemporary Maya

**Resilient Religion, Resilience and Heartbreaking Adversity** LIT Verlag, 2023-01-05 A resilience theory on religion needs to answer four questions What defines the kind of adversity which is addressed in religion What is characteristic for processes of resilience in religion What defines resilient religion as outcome Which logic of inference epistemology based on our beliefs and experiences about reality binds these three elements together The book starts with mapping the field of resilience theory on religion by addressing all four questions The need for thinking about Christian resilience and the God symbol is addressed and the need to be explicitly contextual with regard to resilience in South Africa Next three types practices of religious acting are related to experiences of resilience namely preaching narrating and discerning In the last chapters the focus is on the way stories help to express feelings of experiences of crises tragedy and trauma But also how stories can help heal the broken heart Prof Chris A M Hermans is extraordinary professor in practical theology and missiology at the University of the Free State South Africa He is emeritus professor in pastoral theology at Radboud University the Netherlands and emeritus professor in empirical study of religion as Radboud University the Netherlands Prof Kobus W J Schoeman is professor of practical theology at the University of the Free State South Africa

**Religion, Realism and Social Theory** Philip A Mellor, 2004-10-18 This book challenges those contemporary sociologists who argue that the notion of society is an outmoded basis for sociological analysis and instead revitalizes the idea that sociology is truly the study of society Mellor returns the human and religious aspects of social life to the centre of social theory

Schumaker, 2001-08-30 The often misunderstood modern person syndrome is a disorder linked to the conditions of living in our contemporary society The author argues that the conditions of modernity have introduced new processes forces and cultural motivations that have major implications for all aspects of mental health and social well being While modernity offers unprecedented opportunities for personal enhancement and creative expression there is mounting evidence of a mental health crisis that demands the immediate attention of mental health professionals In order to address the new challenges that have arisen under conditions of modernity mental health professionals must rethink fundamental assumptions about the relationship between society and mental health as well as the impact of modern social concerns upon individual behavior and psychological well being This innovative approach to mental health seeks to explain a variety of psychological trends including the steep rise in depression the sharp increase in the prevalence of existential disorders and the emergence of consumption disorders By shedding light on the interaction between modernity and mental health Schumaker illuminates the emerging patterns of mental disturbance while also offering new and more effective intervention and prevention strategies

**Reflections on Religious Individuality** Jörg Rüpke, Wolfgang Spickermann, 2012-07-04 This volume will concentrate its search for religious individuality on texts and practices related to texts from Classical Greece to Late Antiquity Texts offer opportunities to express one's own religious experience and shape one's own religious personality within the boundaries of what is acceptable Inscriptions in public or at least easily accessible spaces might substantially differ in their range of expressions and topics from letters within a sectarian religious group which at the same time might put enormous pressure on conformity among its members regarded as deviant by a majority of contemporaries Furthermore texts might offer and advocate new practices in reading meditating remembering or repeating these very texts Such practices might contribute to the development of religious individuality experienced or expressed in factual isolation responsibility competition and finally in philosophical or theological reflections about personhood or self The volume develops its topic in three sections addressing personhood representative and charismatic individuality the interaction of individual and groups and practices of reading and writing It explores Jewish Christian Greek and Latin texts Modernity and Subjectivity Harvie Ferguson, 2000 Few concepts have come to dominate the human sciences as much as modernity yet there is very little agreement over what the term actually means Every aspect of contemporary human reality modern society modern life modern times modern art

modern science modern music the modern world has been cited as a part of modernity's distinctive and all embracing presence But what is the exact nature of the reality to which the term modern refers Has not such a promiscuous ill defined concept come to obscure and confuse rather than clarify a genuine understanding of our experience Harvie Ferguson proposes a new view of modernity arguing that although it may variously be associated with the Renaissance the European discovery of the New World the Reformation the Industrial Revolution and many other significant ruptures with primitive or premodern society modernity fails as an idea if it only defines itself against what it replaced Instead he writes modernity finds its clearest definition through an exploration of subjectivity For the modern world there is no higher authority than experience No longer is the human world subordinate to a divine reality beyond the capacity of its own senses This idea finds its greatest expression in the philosophy of doubt originated by Descartes Doubt seemed the radical starting point from which to found a wholly modern philosophy that makes the distinction between subject and object but those who came after Descartes soon reached the limits of self discovery and became trapped in deepening levels of despair This despair in turn found expression in the concepts of self and other and eventually in a dialectic of ego and world which distinguishes and links together the most important social cultural and psychological aspects of modernity Moving beyond these dualities of subject and object mind and body ego and world and replacing them with the triad of body soul and spirit Ferguson redraws the map of contemporary experience finding links with the premodern world that modernity's self founding concealed

*Re-Forming the Body* MR Philip A Mellor, Philip A. Mellor Chris Shilling, Professor Chris Shilling, 1997-02-14 Enriches the conceptual arsenal for interdisciplinary analysis of political social and cultural change stimulates more nuanced thinking about the cultural and political legacy of the Reformation era manages both to clarify tensions surrounding cultural and social integration in the late 20th century while underscoring the real historical complexity of modern bodies American Journal of Sociology Through an analysis of successive re formations of the body this innovative and penetrating book constructs a fascinating and wide ranging account of how the creation and evolution of different patterns of human community are intimately related to the somatic experience of the sacred The book places the relationship between the embodiment and the sacred at the crux of social theory and casts a fresh light on the emergence and transformation of modernity It critically examines the thesis that the rational projects of modern embodiment have died and gone to cyberspace and suggests that we are witnessing the rise of a virulent effervescent form of the sacred which is changing how people see and keep in touch with the world around them

Wolf, 1991-08-13 This book intends to systematically overcome the received practice of treating religion and politics as wholly separate and independent domains It studies power and meaning in their antagonistic interdependencies rather than approaching religion purely as a realm of meaning without reference to issues of power or dealing with politics as the province of power without raising questions of meaning Religion and politics are thus seen in relation to one another and attention is focused on the disputes about how political and religious regimes should be formed Religious Regimes and State Formation will convince the reader that god and politics have much in common and offers surprising new perspectives on old problems Religion, Culture & Society Andrew Singleton, 2014-03-10 The reader is taken on a global exploration of the forms and diversities of religions and their social and cultural contexts It is up to the minute in research and theory and comfortably grounded in the traditions of the social explanation of things religious and spiritual Gary Bouma AM Monash University Tells how sociology of religion originated in the work of key nineteenth and

Wilson,2016-09-29 Fifty years after its publication Bryan Wilson s Religion in Secular Society 1966 remains a seminal work It is one of the clearest articulations of the secularization thesis the claim that modernizations brings with it fundamental changes in the nature and status of religion For Wilson secularization refers to the fact that religion has lost influence at the societal the institutional and the individual level Individual secularization is about the loss of authority of the Churches to define what people should believe practise and accept as moral principles guiding their lives In other words individual piety may still persist however if it develops independently of religious authorities then it is an indication of individual secularization Wilson stresses that the consequences of the process of societalization in modern societies and on this basis he formulated his thesis that secularization is linked to the decline of community and is a concomitant of societalization Revised and updated Steve Bruce builds on Wilson s work by noting the changes in religious culture of the UK and US in an appendix on major changes since the 1960s Bruce also provides a critical response to the core ideas of Religion in Secular Society

**From Multiculturalism to Democratic Discrimination** Alberto Spektorowski,Daphna Elfersy,2020-12-10 The effect of Islam on Western Europe has been profound Spektorowski and Elfersy argue that it has transformed European democratic values by inspiring an ultra liberalism that now faces an ultra conservative backlash Questions of what to do about Muslim immigration how to deal with burqas how to deal with gender politics have all been influenced by western democracies grappling with ideas of inclusion and most recently exclusion This book examines those forces and ultimately sees not an unbridgeable gap but a future in which Islam and European democracies are compatible rich and evolving **David Jones and Rome** Jasmine Hunter Evans,2022 This volume examines the reception of ancient Rome in the work of David Jones 1895 1974 Hunter Evans demonstrates how Jones s vision of Roman culture emerged from a concern with the decline of Western civilisation and a desire to use Rome to resist it
