Reluctant Dragon Crisis Cycles In Chinese Foreign Economic Policy:

The Reluctant Dragon Lawrence C. Reardon, 2014-05-01 Chinese foreign economic policy before 1978 has been considered isolationist and centered on Maoist self reliance In this revisionist analysis the author argues that the dramatic economic reforms initiated by China s leaders in 1978 were in fact revisions and expansions of policies from the Maoist period

Indonesia John Bresnan, 2005-10-06 Indonesia is in the midst of an epic transition as it moves from decades of authoritarian government to a new era of democratic opening from years of secular government to a time of struggle over the role of Islam in public life and from the breakdown of a miracle economy to a search for resilience in the face of global forces In this timely work leading scholars analyze the causes of the social political and economic crises that erupted in Indonesia in the late 1990s the responses of the elite and civil society and the prospects for continuing reform In the process they explore such issues as the relevance of the nation state in an age of globalization the role of Islam in politics and violence the strengths and weaknesses of a negotiated route to democratic governance the relationship of corruption and structural reform to economic growth and the prospects for stability in Southeast Asia The first book to grapple with the scale and complexity of this historic transition this work offers a clear and compelling introduction to the Indonesian experience for students with an interest in the problems of post colonial states to scholars in comparative Asian studies and to anyone seeking a serious yet accessible introduction to the world s largest Islamic democracy A Study of the Weatherhead East Asian Institute Columbia University

Chinese Economic Statecraft from 1978 to 1989 Priscilla Roberts, 2022-05-10 This volume focuses on Chinese economic statecraft during the first decade of Deng Xiaoping s reform and opening up policies from 1978 to 1989 During these years Chinese economic engagement with the external world was tentative and experimental with long term strategies still decidedly under development Prominent topics covered are China s efforts to steer an economic course tailored to and representing what Deng Xiaoping famously described as socialism with Chinese characteristics China s quest for advanced science and technology China s dealings with international economic institutions especially the World Bank China s engagement with other powers including Japan the United States the ASEAN nations and Europe and the role of non governmental organizations including foreign policy think tanks exchange groups and educational institutions in developing Chinese economic thinking and methodology during this decade Contributors also focus on how elements of the Chinese military turned to building China s new economic infrastructure and on Chinese efforts to break into foreign markets The volume ends with an overview and reassessment of earlier findings on Chinese economic statecraft in these years by one of the leading Chinese experts on the PRC s international policy

The Everyday Cold War Chi-kwan Mark, 2017-10-05 In 1950 the British government accorded diplomatic recognition to the newly founded People s Republic of China But it took 22 years for Britain to establish full diplomatic relations with China How far was Britain s China policy a failure until 1972 This book argues that Britain and China were involved in the everyday Cold War or a continuous process of contestation and

cooperation that allowed them to normalize their confrontation in the absence of full diplomatic relations From Vietnam and Taiwan to the mainland and Hong Kong China s everyday Cold War against Britain was marked by diplomatic ritual propaganda rhetoric and symbolic gestures Rather than pursuing a failed policy of appeasement British decision makers and diplomats regarded engagement or negotiation with China as the best way of fighting the everyday Cold War Based on extensive British and Chinese archival sources this book examines not only the high politics of Anglo Chinese relations but also how the British diplomats experienced the Cold War at the local level **Taiwan Straits Standoff** Bruce A. Elleman, 2021-08-10 Following the Nationalist defeat on the mainland in 1949 Chiang Kai shek and his followers retreated to Taiwan forming the Republic of China ROC Tensions with the People s Republic of China PRC focused on control over a number of offshore islands especially Quemoy Jinmen and Matsu Mazu Twice in the 1950s tensions peaked during the first 1954 55 and second 1958 Taiwan Strait crises This small body of water often compared to the English Channel separates the PRC and Taiwan and has been the location for periodic military tensions some threatening to end in war Today relations between the ROC and PRC depend on quelling tensions over the Taiwan Strait This work provides a short but highly relevant history of the Taiwan Strait and its significance today **China Into the Hu-Wen Era** John Wong, Hongyi Lai, 2006 This volume is an updated survey and assessment of the recent policy initiatives of Hu Jintao and Wen Jiabao which have come to be known as the Hu Wen s New Deal Individual chapters are written by scholars from different academic disciplines and backgrounds These scholars hail from Singapore the United States Australia Korea Hong Kong Taiwan and Mainland China Topics cover the patterns and process of leadership succession emerging political factions social unrest sources of economic growth income disparities social security reform land use policy banking reform corporate governance labor and population policies rule of law and changes in the Party and ideology On the external aspects discussion includes China s changing relations with the U S Japan and ASEAN In many ways the Hu Wen leadership today is still coming to grips with the same issues and problems as discussed in this book *Economic Alliance, Economic Split* Tao Chen, Jan Zofka, 2025-06-19 This book delivers crucial historical background in these times as bloc building returns to the global economy and China and Russia massively intensify their economic cooperation It gathers global cutting edge research on the economic exchanges in the early years of the Cold War between the newly formed People s Republic of China and Soviet Eastern Europe Based on multidimensional archival sources from China Eastern Europe and beyond this book departs from the traditional Cold War accounts of superpowers and geopolitics and looks into economic practices how Chinese officials tried to access foreign markets via the Leipzig trade fair how the Soviet modelled car industry had to be built with US trained Chinese engineers or how socialist bureaucrats rationalized the giant projects of factory building in China with developing future markets for industrial products on a global scale Such a perspective helps to understand how economic rationales and second tier actors contributed to the forming of the short lived but far reaching alliance and how cooperation on the ground for a while was

able to survive while generally mutual disappointment about the quick exhaustion of the cooperation's benefits benefitted the swift split. These insights also provide a basis for rethinking the relationship between politics and economy in socialist regime building during the Cold War. This book will appeal to scholars and students of Cold War history, international relations and economic history. The chapters in this book were originally published as special issue of *European Review of History* *Revue européenne d'histoire*. **Taiwan's Offshore Islands** Bruce A. Elleman, 2019 Taiwan Offshore Islands and US China relations. Provided by publisher *China-India Relations*, Market Maoists Jason M. Kelly, 2021-05-11 Chinese Communists have long embraced capitalism for various reasons. In the 1930s Communists made deals with foreign capitalists to finance the revolution. Mao continued to promote trade after 1949. Jason Kelly shows how global deals kept China embedded in markets and their norms laying the groundwork for the capitalist reforms of the 1980s. The US Navy and the South China Sea Bruce A. Elleman, 2024-08-13 This book explores the question: Why is the US Navy in the South China Sea at all? It traces the history of diplomatic, economic and military tensions among the People's Republic of China, the Soviet Union, the United States and the Socialist Republic of Vietnam, outlining the origins of the United States-Vietnam relationship during the immediate post-World War II period, the turmoil of the Vietnam War during which China supported North Vietnam against a US-backed South Vietnam, and the decision of the US government to open relations with China beginning in 1972. It shows how from 1945-1975 the US government used its relations with Vietnam to exert diplomatic, economic and military pressure on China to open negotiations leading to full recognition, and further discusses the surprising action of the US Navy in 1974 to allow the Chinese Navy to take the Paracel Islands by force, thereby denying control over these islands to a united Vietnam closely allied with the Soviet Union, which was the common enemy of both China and the USA. Overall, the book demonstrates how the presence of the US Navy in the South China Sea is a crucial element in much wider global US strategy. *Uneasy Partners* Leo F. Goodstadt, 2005-01-01 Challenging the wisdom about the way capitalism and colonialism joined forces to transform Hong Kong into one of the world's great cities, this book deploys case studies of the clash of interests between alien colonials and their Chinese constituents and the conflict between a pro-business government and its political and social responsibilities. *Transforming East Asian Domestic and International Politics* Robert Compton, 2020-09-10 This title was first published in 2002. This text attempts to bridge the gap between international relations and comparative politics with particular reference to East Asia. The book begins with an exploration of the theme of globalization and the impact it has on the conduct of international relations and the process of domestic politics. It discusses the fact that domestic actors are unable to assume an insular political environment as previously, referring to the constant reception of stimuli which force adjustments to approaches in the conduct of domestic and international affairs. Globalization's ubiquitous presence reflects a changed reality for both state and non-state actors; no policy maker can afford to ignore or underemphasize its role in shaping or altering the course of public Leprosy in China Angela Ki Che Leung, 2009-01-01 Angela Ki Che Leung's

meticulous study begins with the classical annals of the imperial era which contain the first descriptions of a feared and stigmatized disorder modern researchers now identify as leprosy She then tracks the relationship between the disease and China's social and political spheres theories of contagion prompted community and statewide efforts at segregation religious traditions Buddhism and Daoism ascribed redemptive meaning to those suffering from the disease and evolving medical discourse Chinese doctors have contested the disease's etiology for centuries Leprosy even pops up in Chinese folklore attributing the spread of the contagion to contact with immoral women Leung next places the history of leprosy into a global context of colonialism racial politics and imperial danger A perceived global pandemic in the late nineteenth century seemed to confirm Westerners' fears that Chinese immigration threatened public health Therefore battling to contain if not eliminate the disease became a central mission of the modernizing state building projects of the late Qing empire the nationalist government of the first half of the twentieth century and the People's Republic of China Stamping out the curse of leprosy was the first step toward achieving hygienic modernity and erasing the cultural and economic backwardness associated with the disease Leung's final move connects China's experience with leprosy to a larger history of public health and biomedical regimes of power exploring the cultural and political implications of China's Sino-Western approach to the disease

Northeast Asia Vinod K. Aggarwal, Min Gyo Koo, Seungjoo Lee, Chung-in Moon, 2008-09-26 Can regional mechanisms better institutionalize the increasing complexity of economic and security ties among the countries in Northeast Asia As the international state system undergoes dramatic changes in both security and economic relations in the wake of the end of the Cold War the Asian financial crisis and the attack of 9/11 this question is now at the forefront of the minds of both academics and policymakers Still little research has been done to integrate the analysis of security and economic analysis of changes in the region within a broader context that will give us theoretically informed policy insights Against this backdrop this book investigates the origins and evolution of Northeast Asia's new institutional architecture in trade finance and security from both a theoretical and empirical perspective

Mao's Great Famine Frank Dikötter, 2010-09-06 An unprecedented groundbreaking history of China's Great Famine that recasts the era of Mao Zedong and the history of the People's Republic of China

Manchurian Railways and the Opening of China: An International History Bruce Elleman, Stephen Kotkin, 2015-01-28 The railways of Manchuria offer an intriguing vantage point for an international history of northeast Asia Before the completion of the Trans-Siberian railway in 1916 the only rail route from the Imperial Russian capital of St. Petersburg to the Pacific port of Vladivostok transited Manchuria A spur line from the Manchurian city of Harbin led south to ice-free Port Arthur Control of these two rail lines gave Imperial Russia military economic and political advantages that excited rivalry on the part of Japan and unease on the part of weak and divided China

Meanwhile the effort to defend and retain that strategic hold against rising Japanese power strained distant Moscow Control of the Manchurian railways was contested in the Russo Japanese War of 1904 5 Japan s 1931 invasion and establishment of the puppet state of Manchukuo the second Sino Japanese War and World War II in Asia and the Chinese civil war that culminated in the Communist victory over the Nationalists Today the railways are critical to plans for development of China s sparsely populated interior This volume brings together an international group of scholars to explore this fascinating history

US-China Naval Co-operation Against the Soviet Union Bruce A. Elleman, 2025-07-25 This book discusses the key role of the transfer of naval technology from the U S to China in building up the Chinese Navy during the Cold War Revealing how this process began in the late 1970s under the Carter Administration when Deng Xiaoping was newly in power and how it accelerated under both the Reagan and Bush administrations moving from the transfer of simple technology to entire naval systems the book highlights how the policy was successful in helping make China a serious threat to the Soviet Union and how it thereby contributed to the collapse of the Soviet Union and the end of the Cold War The book also demonstrates how this same policy also enabled China now with the world s largest navy to become much more assertive in East Asia more widely resulting in the U S reversing its technology transfer policy following the Tiananmen Square massacre and in China turning to Russia and other former Soviet countries including Ukraine for the supply of Soviet era equipment Utilising disclosed and formerly secret documents this book will be a valuable resource to both students and scholars of international relations security studies and naval studies particularly in relation to Chinese U S USSR relations during the Cold War
