**Treating**

**Couples** Gerald R. Weeks, 2013-05-24 In some ways the development of the theory and practice of marital therapy seems like a relative newcomer to those clinicians who practice systems therapy. Most of the books in the field stress the total family as the unit of treatment in terms of understanding the dynamics of family interactions and intervention techniques. For the past 15 or 20 years clinicians interested in systems work sought training in family therapy programs and at family therapy workshops. This training led to a dramatic shift in the practice of psychotherapy away from the individual as the unit of treatment to the family. Much less emphasis has been given to the marital dyad or couple as the unit of treatment.

Recreating Partnership Phillip Ziegler, Toby Hiller, 2001-07-31 All couples go through challenging times; some survive and thrive, others don't. How can we understand and use this distinction in the practical application of therapy? In their solution-oriented, competency-based approach to couples therapy, Phillip Ziegler and Toby Hiller answer this question. In *Recreating Partnership*, an innovative, theoretically sound and practical handbook for clinicians, Ziegler and Hiller present a bold and clinically useful concept: the good story/bad story dichotomy. The book shows clinicians how to use this narrative concept in conducting effective and efficient relationship therapy that will help couples build solutions collaboratively, invigorate partnership and thrive each in their own unique ways. The book covers issues such as establishing rapport with antagonistic partners, developing therapeutic goals, hosting conversations that reinvigorate the couple's good story, how, when and whether to offer task assignments, addressing issues such as domestic violence and how to bring therapy to a close, as well as many cogent and helpful transcripts. Written for psychologists, social workers, marriage and family therapists and anyone who works with couples, *Recreating Partnership* will be exciting and useful to both the novice and experienced practitioner.

Doing What Works in Brief Therapy Ellen K. Quick, 2008-03-11 *Doing What Works in Brief Therapy: A Strategic Solution-Focused Approach* is both a set of procedures for the therapist and a philosophy, one that is shared with clients and one that guides the work of the therapist. This second edition continues its excellence in offering clinicians a guide to doing what works in brief therapy for whom and when and how to use it. Psychotherapy that follows
