**Expertise**

Jessica Gerrard, Jessica Holloway, 2023-01-26 This book offers an important and timely critique of expertise showing how it is a keyword shaped by social historical and political debates about what counts as knowledge and truth and who counts as experts Using teacher expertise as an illustrative case Jessica Gerrard and Jessica Holloway reflect on recent events including COVID 19 and the climate crisis to examine how expertise is never neutral objective or fixed They argue that getting political is not just an inevitable part of teacher expertise but a necessary basis of any claim to it Across the chapters Expertise explores how expertise is socially constructed in relation to governance uses of data and evidence understandings of ignorance and the unknown and ultimately power Using contemporary and historical examples from international contexts the authors address the political positioning of expertise and how this creates boundaries between who is an expert and who is not and what is and is not expertise Gerrard and Holloway argue that ongoing policy debates about teacher expertise cannot be resolved by neutral definitions of good teaching Rather expertise is unavoidably political in its expression

*Adult Social Care* Ferguson, Iain, Lavalette, Michael, 2013-10-23 Adult social care in Britain has been at the centre of much media and public attention in recent years Revelations of horrific abuse in learning disability settings the collapse of major private care home providers abject failures of inspection and regulation and uncertainty over how long term care of older people should be funded have all given rise to serious public concern In this short form book part of the Critical and Radical Debates in Social Work series Iain Ferguson and Michael Lavalette give an historical overview of adult social care The roots of the current crisis are located in the under valuing of older people and adults with disabilities and in the marketisation of social care over the past two decades The authors critically examine recent developments in social work with adults including the personalisation agenda and the prospects for adult social care and social work in a context of seemingly never ending austerity

**Ethics** Sarah Banks, 2014-03-01 The past few years have seen a renewed interest in social work ethics and this volume argues that this phenomenon can be seen as reflecting two very different agendas On the one hand this interest is part of a progressive movement that critiques market oriented approaches to managing the public sector often called New Public Management NPM by emphasizing the role of social workers as agents for social justice On the other hand the growth of interest in ethics could be viewed as part of the NPM and its efforts toward controlling the conduct of professionals and service users The contributors explore both of these viewpoints emphasizing the importance of reclaiming professional ethics for social work and outlining a preliminary framework for doing so

**Equality and Public Policy** Paul Chaney, 2011-01-31 Equality of opportunity is a contested concept It evokes strong emotions from proponents and opponents alike Enduring issues of inequality and discrimination mean that it remains at the forefront of political priorities in the twenty first century Traditional

analyses tend to focus on developments at the level of the unitary state or European Union. In contrast, this book underlines the salience of multi-level governance and offers the first detailed comparative analysis of contemporary efforts to promote equality of opportunity in the wake of constitutional reform in the UK. It presents a summary of social theory on equalities in relation to gender and a full range of social groups and identities such as disability, ethnicity, sexual orientation, and age. It outlines the contemporary evidence base relating to patterns and processes of inequality in the devolved nations. A governance perspective is also advanced, one that details how constitutional law establishing the devolved legislatures contains equality clauses that enable and empower government to promote equality in public policy and law. Analysis reveals the development of distinctive regulatory structures and equalities policy lobbies in each territory. Overall, this volume charts the development of divergent legal rights and public policy on the promotion of equality in the wake of constitutional reform in the UK. Notwithstanding ongoing challenges, it is argued that the move to quasi-federalism is significant for it marks a shift from the predominant centralised administration of social policy witnessed throughout the twentieth century to divergent approaches designed to address contrasting socio-economic patterns and processes in Wales, Scotland, and Northern Ireland.

Civil Societies and Social Movements Derrick Purdue, 2007-04-23. This volume examines and contributes to debates surrounding social capital, social movements, and the role of civil society in emerging forms of governance. The authors adopt a broad range of research approaches from testing hypotheses drawn from rational choice theory against available statistics on associations to ethnographic study of emerging attempts at participant deliberative democracy. Divided into three clear sections focusing on the following core aspects of civil society: the position of civic organizations between state and society in emerging forms of governance; the geographical scales of social movement mobilizations and actions from the local to the global; the patterns of public trust and civic engagement that falls under the rubric of social capital. The book draws on case studies from a wide range of countries including Russia, Ukraine, Britain, Greece, Spain, Germany, Argentina, and new Asian democracies. Presenting current research on the key dimensions of civil society, *Civil Societies and Social Movements* will appeal to those researching and studying in the fields of political science, sociology, and social policy. **Psychological and**
