Ethiopia John Markakis, 2011 An historical overview of Ethiopia's transformation from a multicultural empire into a modern nation state Provides the gist of one scholar's knowledge of this country acquired over several decades The author of numerous works on Ethiopia Markakis presents here an overarching concise historical profile of a momentous effort to integrate a multicultural empire into a modern nation state The concept of nation state formation provides the analytical framework within which this process unfolds and the changes of direction it takes under different regimes as well as a standard for assessing its progress and shortcomings at each stage Over a century old the process is still far from completion and its ultimate success is far from certain In the author's view there are two major obstacles that need to be overcome two frontiers that need to be crossed to reach the desired goal The first is the monopoly of power inherited from the empire builders and zealously guarded ever since by a ruling class of Abyssinian origin The descendants of the people subjugated by the empire builders remain excluded from power a handicap that breeds political instability and violent conflict The second frontier is the arid lowlands on the margins of the state where the process of integration has not yet reached and where resistance to it is greatest Until this frontier is crossed the Ethiopian state will not have the secure borders that a mature nation state requires John Markakis is a political historian who has devoted a professional lifetime to the study of Ethiopia and its neighbours in the Horn of Africa He has published several books and many articles on this area

Politics and Violence in Eastern Africa David M. Anderson, Øystein H. Rolandsen, 2017-10-02 Over the fifty years between 1940 and 1990 the countries of eastern Africa were embroiled in a range of debilitating and destructive conflicts starting with the wars of independence but then incorporating rebellion secession and local insurrection as the Cold War replaced colonialism The articles gathered here illustrate how significant widespread and dramatic this violence was In these years violence was used as a principal instrument in the creation and consolidation of the authority of the state and it was also regularly and readily utilised by those who wished to challenge state authority through insurrection and secession Why was it that eastern Africa should have experienced such extensive and intensive violence in the fifty years before 1990 Was this resort to violence a consequence of imperial rule the legacy of oppressive colonial domination under a coercive and non representative state system Did essential contingencies such as the Cold War provoke and promote the use of violence Or was it a choice made by Africans themselves and their leaders a product of their own agency This book focuses on these turbulent decades exploring the principal conflicts in six key countries Kenya Uganda Sudan Ethiopia Somalia and Tanzania This book was published as a special issue of the Journal of Eastern African Studies

Dissent, Protest and Dispute in Africa Toyin Falola, Emmanuel Mbah, 2016-12-19 This book provides unique and detailed perspectives on different aspects of dissent protest and disputes and how these have in turn continued to pose challenges in Africa The contributors argue that dissent protest and most forms of disputes in Africa are the result of daily challenges that its people have faced and continue to encounter to this day These challenges include amongst others demands for transparency good governance and accountability waves of instability that have created insecurity in most parts of the continent an unsustainable level of youth unemployment rapid population growth a continent wide healthcare and poverty crises and numerous environmental challenges The chapters elevate the debates on dissent protest and disputes conflict in Africa by adding new ideas and introducing new and useful interpretations The book's strength lies in the contributors ability to conflate colonial and postcolonial tendencies to show how challenges of the past are not so different from those of today while also presenting important historical issues from various scholarly perspectives Dissent Protest and Dispute in Africa will be of interest for students and scholars of African history politics and culture as well as those interested in social movements and civil society

Sing and Sing On Kay Kaufman Shelemay, 2022-01-11 In Sentinel Musicians of the Ethiopian American Diaspora Kay Kaufman Shelemay shares more than forty years of research among Ethiopian musicians in the midst of a widespread and evolving diaspora Beginning on the eve of the Ethiopian revolution in 1974 all the way up to the present day Shelemay follows musicians as some leave Ethiopia for the US setting up essential networks of support in

cities such as New York Boston and Washington DC Throughout this profound transition Shelemay shows how Ethiopian musicians serve a critical function in social and political life by both safeguarding community identity and challenging authority within Ethiopian society She coins the term sentinel musicians to express musicians double capacity to guard culture and guide it through periods of change transforming the world around them under political pressures and during times of extreme social stress While musicians held this role in Ethiopian culture long before the revolution began it has taken on new meanings and contours in the Ethiopian diaspora Some sentinel musicians have quite literally led the way as they migrated to new locales establishing transnational networks founding new institutions and undertaking numerous initiatives in community building Ultimately Shelemay shows that musicians are uniquely positioned to serve this sentinel role as guardians and challengers of cultural heritage

War and Survival in Sudan's Frontierlands Wendy James, 2007-10-04 This book completes a trilogy by the anthropologist Wendy James It is a case study of how the Uduk speaking people originally from the Blue Nile region between the north and the south of Sudan have been caught up in and displaced by a generation of civil war Some have responded by defending their nation others by joining the armed resistance of the Sudan People's Liberation Army and yet others eventually finding security as international refugees in Ethiopia and even further afield in countries such as the USA Sudan's peace agreement of 2005 leaves much uncertainty for the future of the whole country as conflict still rages in Darfur The Uduk case shows how people who once lived together now try to maintain links across borders and even continents through modern communications and where possible recreate their traditional forms of story telling music and song

Ethiopia 1855 1991 **Visions of Zion** Erin C. MacLeod, 2014-07-04 In reggae song after reggae song Bob Marley and other reggae singers speak of the Promised Land of Ethiopia Repatriation is a must they cry The Rastafari have been travelling to Ethiopia since the movement originated in Jamaica in 1930s They consider it the Promised Land and repatriation is a cornerstone of their faith Though Ethiopians see Rastafari as immigrants the Rastafari see themselves as returning members of the Ethiopian diaspora In Visions of Zion Erin C MacLeod offers the first in depth investigation into how Ethiopians perceive Rastafari and Rastafarians within Ethiopia and the role this unique immigrant community plays within Ethiopian society Rastafari are unusual among migrants basing their movements on spiritual rather than economic choices This volume offers those who study the movement a broader understanding of the implications of repatriation Taking the Ethiopian perspective into account it argues that migrant and diaspora identities are the products of negotiation and it illuminates the implications of this negotiation for concepts of citizenship as well as for our understandings of pan Africanism and south south migration Providing a rare look at migration to a non Western country this volume also fills a gap in the broader immigration studies literature **Understanding Contemporary Ethiopia** Gérard Prunier, Éloi Ficquet, 2015-09-15 When we think of Ethiopia we tend to think in clichés Solomon and the Queen of Sheba the Falasha Jews the epic reign of Emperor Haile Selassie the Communist Revolution famine and civil war Among the countries of Africa it has a high profile yet is poorly known How ever all clichés contain within them a kernel of truth and occlude much more Today s Ethiopia and its painfully liberated sister state of Eritrea are largely obscured by these mythical views and a secondary literature that is partial or propagandist Moreover there have been few attempts to offer readers a comprehensive overview of the country s recent history politics and culture that goes beyond the usual guidebook fare Understanding Contemporary Ethiopia seeks to do just that presenting a measured detailed and systematic analysis of the main features of this unique country now building on the foundations of a magical and tumultuous past as it struggles to emerge in the modern world on its own terms
