Liedtke, Metropolitan Museum of Art (New York, N.Y.), 1995 **Rembrandt, Reputation, and the Practice of Connoisseurship** Catherine B. Scallen, 2004 Annotation Elizabeth A Kaye specializes in communications as part of her coaching and consulting practice She has edited Requirements for Certification since the 2000 01 edition **A Corpus of Rembrandt Paintings VI** Ernst van de Wetering, 2014-11-11 A revised survey of Rembrandt's complete painted oeuvre The question of which 17th century paintings in Rembrandt's style were actually painted by Rembrandt himself had already become an issue during his lifetime It is an issue that is still hotly disputed among art historians today The problem arose because Rembrandt had numerous pupils who learned the art of painting by imitating their master or by assisting him with his work as a portrait painter He also left pieces unfinished to be completed by others The question is how to determine which works were from Rembrandt's own hand Can we for example define the criteria of quality that would allow us to distinguish the master's work from that of his followers Do we yet have methods of investigation that would deliver objective evidence of authenticity To what extent do research techniques used in the physical sciences help Or are we after all still dependent on the subjective expert eye of the connoisseur The book provides answers to these questions Prof Ernst van de Wetering the author of our forthcoming book which deals with these questions has been closely involved in all aspects of this

research since 1968 the year the renowned Rembrandt Research Project RRP was founded In particular he played an important role in developing new criteria for authentication Van de Wetering was also witness to the way the often overly zealous tendency to doubt the authenticity of Rembrandt's paintings got out of hand In this book he re attributes to the master a substantial number of unjustly rejected Rembrandts He also was closely involved in the re discovery of a considerable number of lost or completely unknown works by Rembrandt The verdicts of earlier specialists including the majority of members of the original RRP up to 1989 were based on connoisseurship the self confidence in one's ability to recognise a specific artist's style and hand Over the years Van de Wetering has carried out seminal research into 17th century studio practice and ideas about art current in Rembrandt's time In this book he demonstrates the fallibility of traditional connoisseurship especially in the case of Rembrandt who was par excellence a searching artist The methodological implications of this critical view are discussed in an introductory chapter which relates the history of the developments in this turbulent field of research Van de Wetering's account of his own involvement in it makes this book a lively and sometimes unexpectedly personal account The catalogue section presents a chronologically ordered survey of Rembrandt's entire painted oeuvre of 336 paintings richly illustrated and annotated For all the paintings re attributed in this book extensive commentaries have been included that provide a multi faceted new insight into Rembrandt's world and the world of art historical research Rembrandt's Paintings Revisited is the concluding sixth volume of A Corpus of Rembrandt Paintings Volumes I V 1982 1986 1989 2005 2010 It can also be read as a revisionary critique of the first three Volumes published by the old RRP team up till 1989 and of Gerson's influential survey of Rembrandt's painted oeuvre of 1968 69 At the same time the book is designed as an independent overview that can be used on the basis that anyone seeking more detailed information will be referred to the five previous digital versions of the Volumes and the detailed catalogues published in the meantime by the various museums with collections of Rembrandt paintings This work of art history and art research should belong in the library of every serious art historical institute university or museum

**Publications of the Metropolitan Museum of Art, 1964-2005** Metropolitan Museum of Art, 2012-10-09 The present volume Publications of The Metropolitan Museum of Art 1964 2005 is a successor to a volume published by the Museum in 1965 entitled Publications of The Metropolitan Museum of Art 1870 1964 These two bibliographic volumes endeavor to list all the known books pamphlets and serial publications bearing the Museum's imprint and issued by the institution during the first 135 years of its existence through June 2005 The first volume was compiled by Albert TenEyck Gardner at the time an Associate Curator of American Paintings and Sculpture and the present volume has been compiled from the Annual Reports issued by the Museum during the relevant years Together the two volumes testify to the tremendous contributions made to knowledge by the curators and conservators of the Metropolitan and by the many other experts who have contributed to the Museum's exhibition catalogues Various issues of the Bulletin emphasize the great sweep of the Museum's acquisitions during these years and the exhibition

catalogues a number of them Alfred H Barr Jr Award or the George Wittenborn Award testify to the continuity of the institution's dedicated program to enrich people's lives through knowledge of art This title was originally published in 2006

A Corpus of Rembrandt Paintings IV Ernst van de Wetering, 2005-10-18 Volume IV of A Corpus of Rembrandt Paintings deals uniquely with the self portraits of Rembrandt In a clearly written explanatory style the head of the Rembrandt Research Project and Editor of this Volume Ernst van de Wetering discusses the full body of work of paintings and etchings portraying Rembrandt He sets the different parameters for accepting or rejecting a Rembrandt self portrait as such whilst also discussing the exact working environment of Rembrandt and his apprentices This workshop setting created a surroundings where apprentices could be involved in working on Rembrandt paintings making it more difficult to determine the hand of the master Van de Wetering who is one of the Rembrandt experts of our day and age goes down to great detail to explain how the different self portraits are made and what techniques Rembrandt uses also giving an overview of which paintings are to be attributed to the Dutch Master and which not In the additional catalogue the self portraits are examined in detail In clear and accessible explanatory text the different paintings are discussed larded with immaculate images of each painting Details are shown where possible as well as the results of modern day technical imaging like X radiography This work of art history and art research should be part of every serious art historical institute university or museum Nowhere in the art history have all Rembrandt's self portraits been discussed in such detailed and comparative manner by an authority such as Ernst van de Wetering This is a standard work for decades to come Rembrandt and Not Rembrandt Walter A. Liedtke, Metropolitan Museum of Art (New York, N.Y.), 1995-09 This volume accompanies an exhibition at the Metropolitan Museum of Art New York of all the museum's paintings by Rembrandt as well as pictures formerly attributed to him pictures which illuminate his role as a teacher and contribute to an appreciation of his close associates *A Corpus of Rembrandt Paintings V* Ernst van de Wetering, 2013-12-12 This volume is the fifth volume of A Corpus of Rembrandt Paintings a project devoted to all Rembrandt's paintings This is the work of The Rembrandt Research Project consisting of a group of scholars led since 1993 by Professor Ernst van de Wetering The project began in 1968 with the aim of separating Rembrandt's own paintings from the vast number of Rembrandtesque paintings made by his many apprentices and followers Having opted for a chronological approach to the cataloguing of Rembrandt's paintings from 1625 till 1642 in the first three volumes it was decided in 1993 to adopt a thematic approach for further volumes This was largely to facilitate the recognition of different hands The new approach yielded much more information not only about Rembrandt's working methods but also about the function and meaning of his works This expanded field of view meant that etchings and drawings with similar themes also needed to be included In 2005 Volume IV appeared devoted to Rembrandt's self portraits in painting etching and drawing Volume V consists of a catalogue and analysis of the so called small scale history and genre paintings That theme was chosen because this type of complex work shows a variety of full length protagonists acting in different narrative settings For this

reason in the 17th century painting etching or drawing biblical and mythological scenes was looked upon as an artist's greatest challenge. The choice of this theme proved to be highly fruitful in several ways. Small scale history pieces reveal Rembrandt's artistic ambitions most clearly. They also offer the authors a much more accurate view of the daily routine in Rembrandt's studio: his apprentices mostly copied this type of work or used it as a starting point for their own. As a result it was easier to distinguish the works by the master himself from those of his pupils. All aspects of the skills necessary to create a pictorial illusion play a part in the creation of small figured history paintings. These aspects were referred to as the basis of the noble art of painting in Rembrandt's days. Two seventeenth century painter theoreticians discussed these principles systematically in two books which up till now have only sporadically been consulted in the context of 17th century studio practice. Karel van Mander wrote his *Grond der edel vry schilder const* Basis of the Art of Painting in 1604 and Samuel van Hoogstraten produced his *Inleyding tot de hooge schoole der schilder konst* Academy of Painting in 1678. Van Hoogstraten was a pupil of Rembrandt between 1642 and 48. Comparing the two books and considering them in relation to Rembrandt's oeuvre gradually reveals his original views on painting and how these had developed during his career. Thus the authors of this new Volume of A Corpus have gained an unexpected and profound insight into Rembrandt's ideas and approach to his art. The basic aspects of painting included the following topics: function and methods of drawing human proportions; various positions, poses and gestures of figures; ways of arranging a scene's protagonists in a composition; facial expressions of a variety of emotions; light shadows and reflected light; landscape and animals; draperies and articles of clothing; methods of painting and various characteristics and uses of colours. The way these basic aspects were selected and dealt with presumed that the more practical side to the art of painting would be learned by the apprentice in the daily routine of his master's studio. With the development of art history in the nineteenth century the basic aspects of the art of painting listed above acquired the vague label of style. However the seventeenth century categorization of the basic aspects provides a much more acute means of probing the views and criteria for judging a painting by Rembrandt and his contemporaries than the concept of style. Volume V in the series A Corpus of Rembrandt Paintings breaks new ground from the point of view of art history not only in its approach to Rembrandt as an artist but more particularly to his thinking about painting. Moreover a detailed comparison of Rembrandt's works and those by his apprentices who based their works on his led to a profound and detailed understanding of Rembrandt's views on pictorial quality. In art historical literature quality usually does not feature prominently since it is regarded as being too subjective. This comparative approach together with the analysis of seventeenth century categories of thought about painting have given the research on Rembrandt a new impetus at the same time allowing us to see more clearly through seventeenth century eyes. That is why the new volume of the Corpus is an important publication not only for art historians but also for all who want to fully enjoy the numerous works of art that date back to the Dutch Golden Age now scattered in museums around the world.
