Remembering Edward S. Casey, 1987-01-01 Remembering Places Janet Donohoe, 2014-06-18 This book is a phenomenological investigation of the interrelations of tradition memory place and the body Drawing upon philosophers such as Husserl Heidegger Merleau Ponty Gadamer and Ricoeur Janet Donohoe uses the idea of a palimpsest to argue that layers of the past are carried along as traditions through places and bodies such that we can speak of memory as being written upon place and place as being written upon memory In dialogue with theorists such as Jeff Malpas and Ed Casey Donohoe focuses on analysis of monuments and memorials to investigate how such deliberate places of collective memory can be ideological or can open us to the past and different traditions The insights in this book will be of particular value to place theorists and phenomenologists in disciplines such as philosophy geography memory studies public history and environmental studies Remembering the Personal Past Bruce M. Ross, 1992-01-02 In this resonant scholarly work Bruce Ross presents an encompassing theoretical framework and overview of autobiographical memory Drawing on a wide range of ideas from academic psychology the social sciences psychoanalysis and the humanistic disciplines the author presents a stimulating and original perspective on this increasingly important topic Ross description encompasses the full range of subjective responsiveness to personal memories both with and without awareness including real world social context and

examples that can be compared with one's own experience critical assessment of psychoanalytic memory concepts with a clear distinction drawn between Freud's ideas and those of his later followers childhood memories dealt with from dual standpoints of initial origin and adult retrospection explanations of problems and dilemmas in philosophy and the human sciences that determine both what is to be counted as a memory experience and how memories can be validated and the phenomena of individual memories compared with characteristics of group determined memories and socially structured memories that persist across generations Cognizant of the rich intellectual history of the field the book also calls on the works of James Titchener Freud Piaget Baldwin Janet Bartlett Ellis Bergson Bloch Halbwachs and Merleau Ponty among others to broaden our current understanding of the experience of autobiographical memory Students and researchers from a number of disciplines concerned with the psychology of memory cognition and identity will find this volume both insightful and thought provoking

Remembering Violence Nicolas Argenti, Katharina Schramm, 2010 Psychologists have done a great deal of research on the effects of trauma on the individual revealing the paradox that violent experiences are often secreted away beyond easy accessibility becoming impossible to verbalize explicitly However comparatively little research has been done on the transgenerational effects of trauma and the means by which experiences are transmitted from person to person across time to become intrinsic parts of the social fabric With eight contributions covering Africa Central and South America China Europe and the Middle East this volume sheds new light on the role of memory in constructing popular histories or historiographies of violence in the absence of or in contradistinction to authoritative written histories It brings new ethnographic data to light and presents a truly cross cultural range of case studies that will greatly enhance the discussion of memory and violence across disciplines

The Collective Memory Reader Jeffrey K. Olick, Vered Vinitzky-Seroussi, Daniel Levy, 2011-01-21 In the last few decades there are few concepts that have rivaled collective memory for attention in the humanities and social sciences Indeed use of the term has extended far beyond scholarship to the realm of politics and journalism where it has appeared in speeches at the centers of power and on the front pages of the world's leading newspapers Seen by scholars in numerous fields as a hallmark characteristic of our age an idea crucial for understanding our present social political and cultural conditions collective memory now guides inquiries into diverse though connected phenomena Nevertheless there remains a great deal of

confusion about the meaning origin and implication of the term and the field of inquiry it underwrites The Collective Memory Reader presents organizes and evaluates past work and contemporary contributions on collective memory Combining seminal texts hard to find classics previously untranslated references and contemporary landmarks it will serve as a key reference in the field In addition to a thorough introduction which outlines a useful past for contemporary memory studies The Collective Memory Reader includes five sections Precursors and Classics History Memory and Identity Power Politics and Contestation Media and Modes of Transmission Memory Justice and the Contemporary Epoch comprising ninety one texts A short editorial essay introduces each of the sections while brief capsules frame each of the selected texts An indispensable guide The Collective Memory Reader is at once a definitive entry point into the field for students and an essential resource for scholars *American Continental Philosophy* Walter Brogan, James Risser, 2000-07-22

Horsley, Applies new methods to the study of the historical Jesus Includes illuminating maps Shared Landscapes Rodney Harrison, 2004 The heritage of the pastoral industry stands as an integral symbol of identity for rural communities both black and white in New South Wales Modern changes in pastoral land management infrastructure and technology combined with broader land use changes and increased community interest in the conservation and rehabilitation of former grazing lands has meant that many former pastoral properties have been abandoned or acquired for other uses Tracking the history of these land use changes Shared Landscapes presents new ways of understanding historic heritage in settler societies through cross disciplinary case studies that examine the heritage of the pastoral industry in two national parks Assessing its current state of interpretation and

management in New South Wales Rodney Harrison shows that pastoral heritage is more than just woolsheds and homesteads the showpieces of white male settler colonial economies Pastoral heritage is the product of the mutual histories of Aboriginal and settler Australians It is a form of heritage that is both in and a part of the landscape His archaeological approach to the heritage of the pastoral industry involves both recording sites and revealing attachments to community heritage demonstrating that writing shared histories and celebrating shared heritage has the creative power to reconcile Aboriginal and settler Australians in powerful and positive ways

Memory and the Jesus Tradition Alan Kirk, 2018-02-22 Alan Kirk argues that memory theory in its social cultural and cognitive dimensions is able to provide a comprehensive account of the origins and history of the Jesus tradition one capable of displacing the moribund form critical model He shows that memory research gives new leverage on a range of classic problems in gospels historical Jesus and Christian origins scholarship This volume brings together 12 essays published between 2001 and 2016 newly revised for this edition and organized under the rubrics of Memory and the Formation of the Jesus Tradition Memory and Manuscript Memory and Historical Jesus Research and Memory in 2nd Century Gospel Writing The introductory essay written for this volume argues that the old form critical model in marginalizing memory abandoned the one factor actually capable of accounting for the origins of the gospel tradition its manifestation in oral and written media and its historical trajectory
