Remembering Heraclitus:

Remembering Heraclitus Richard G. Geldard, 2000 Fragments of Heraclitus To be wise is one thing to know the thought that directs all things through all things We should not act like the children of our parents This bright deep meditative jewel like study brings Heraclitus to life in a new way and shows him to be one of the principal sources of Western mystical thinking From Geldard's point of view the study of Heraclitus is not just an academic matter but on the contrary presents us with very real existential and phenomenological challenges. The book includes new translations of all the essential fragments Geldard through his exploration of Heraclitus shows us The more that human beings openly and humbly seek higher knowledge the more they develop the power to perceive it until finally they penetrate to the hidden universal order The result of this penetration is knowledge of the Logos that which directs all things through all things The acquisition of this knowledge is not an event it is a stance in the world It is Being in its fullness The Presocratics after Heidegger David C. Jacobs, 1999-01-01 This is the first in depth treatment of the pre metaphysical dimension of Greek thought from a loosely Heideggerian perspective per a cover endorsement Thirteen contributors including Heidegger himself offer diverse approaches to major philosophical issues logos logic truth history tradition ethics art and tragedy at the nexus of reflecting upon pre Socratic figures such as Anaximenes Empedocles Heraclitus Homer and Parmenides vis a vis Heidegger Other contributors include Jean François Courtine Michael Nass John Sallis and Veronique Foti Some of the essays were written specifically for this collection Annotation copyrighted by Book News Inc Portland OR Palimpsests of the Real in **Recent French Poetry** Glenn W. Fetzer, 2021-08-30 The richness and diversity of poetic voices in France since the mid twentieth century sharpen the challenge of charting the poetic landscape in ways that are accessible and cohesive Since poetry in France has long demonstrated a predisposition to philosophical questions Palimpsests of the Real in Recent French Poetry reads the work of six poets through the lens of the Pre Socratics The poets discussed range from the well known Jacques Dupin Andr du Bouchet Eug ne Guillevic to the lesser celebrated Jean Louis Chr tien C line Zins and Emmanuel Hocquard What binds these six together is an interest in the real and a fascination with the ways of sensing one s world of experiencing time unity memory and change For each poet the aesthetic character of the work takes precedence and its presentation is informed by the philosophical groundwork laid by ancient thinkers Written not only for specialists but also for students and all readers with a general interest in literature and poetry this book provides introductory material to each poet considered as well as offers critical readings that never stray far from the poetic texts Architecture and Fire Stamatis Zografos, 2019-06-12 Architecture and Fire develops a conceptual reassessment of architectural conservation through the study of the intimate relationship between architecture and fire Stamatis Zografos expands on the general agreement among many theorists that the primitive hut was erected around fire locating fire as the first memory of architecture at the very beginning of architectural evolution Following the introduction Zografos analyses the archive and the renewed interest in the

study of archives through the psychoanalysis of Jacques Derrida He moves on to explore the ambivalent nature of fire employing the conflicting philosophies of Gaston Bachelard and Henri Bergson to do so before discussing architectural conservation and the relationship between listed buildings the function of archives and the preservation of memories from the past The following chapter investigates how architecture evolves by absorbing and accommodating fire while the penultimate chapter examines the critical moment of architectural evolution the destruction of buildings by fire with a focus on the tragic disaster at London's Grenfell Tower in 2017 Zografos concludes with thoughts on Freud's drive theory He argues the practice of architectural conservation is an expression of the life drive and a simultaneous repression of the death drive which suggests controlled destruction should be an integral part of the conservation agenda Architecture and Fire is founded in new interdisciplinary research navigating across the boundaries of architecture conservation archival theory classical mythology evolutionary theory thermodynamics philosophy and psychoanalysis It will be of interest to readers working in and around these disciplines The Art of Spiritual Midwifery Stephen Faller, 2015-09-24 What comes after reflective listening What comes after the ministry of presence Spiritual midwifery is a powerful framework for offering pastoral care in today s fast paced environment Midwifery offers ways of thinking about those who are served the work itself and what it means to be a clinical caregiver within the tradition of the care of souls Spiritual midwifery has philosophical and spiritual roots that stem from the earliest seeds of Western thought even back to Jesus and Socrates Readers will find an inductive approach toward a conceptual model that offers insight for richer assessments and outcome oriented goals of care Part One sets out the metaphors of the midwife and the dialogue Part Two unpacks the methodology behindthe mechanics Part Three looks at creative applications of midwifery and is followed by a Symposium patterned after Plato s own Symposium A rigorous theory remains at the centre of the work but the tone is poetically balanced enough to invite the transformation of the spiritual caregiver From the philosophy of Heraclitus to the theology of Kierkegaard and the spiritual direction of Guenther The Art of Spiritual Midwifery brings forth a comprehensive conception of pastoral care and its The Catcher in the Rye and Philosophy Keith Dromm, Heather Salter, 2012 The puzzling frustrating world of delivery Holden Caulfield never loosens its grip on our imagination Somehow the growing pains of a privileged alienated teenager lock onto deeper issues that continue to haunt us all The Catcher in the Rye and Philosophy exposes these deeper issues by **Confessions of a Circuit Rider** looking at Salinger's masterpiece through a philosophic lens Publisher's website Stephen Faller, 2023-12-21 Chaplaincy Pastoral care Ministry The care of souls What lies beneath that which lies beneath them Like Virgil chaplain Stephen Faller guides an unusual tour winding through personal disclosure about ministry adoption chaplaincy and disability Contextualized within chaplaincy and clinical pastoral education Faller examines these visions from a little known country Within the landscape are the sights of living in a post 9 11 world as they prefigure the change and uncertainty that marked American life and ministry after the pandemic of 2020 A conclusion to a dialectical inquiry at the

end of the world Faller explores the history of philosophy and religion in order to navigate an already unusual life within strange times Essential reading for chaplains and helpful insights for all those within the helping professions As ministry continues to move beyond the surrounding walls of the institutional building Faller suggests that chaplaincy can be a meaningful space for ordained ministry as one of the great spaces between spaces Moreover this confessor's confession spells a way for storytellers and story collectors to find direction when meaning is lost Chaplaincy itself is a meaningful response to a world turned upside down **Kinesis** Dónal Mac Erlaine, 2024-03-12 Our universe is characterized by constant motion From electrons to galaxies all things are on the move This resonates within the human condition we are born to move From the earliest hunters sailors and horse riders to the modern world of trains bicycles and cars movement is everywhere in human life Our history as nomads compares starkly to our increasingly sedentary life today This fundamental disruption of the human as a moving being led to the invention of the wheel new religious cultures and even the rational mind This book considers the full depth of the link between humanity and motion examining how it manifests in us and how we embody it Broad and multidisciplinary it blends history geography psychology philosophy architecture anthropology and **The Fourfold Gospel, Volume 1** John DelHousaye,2020-08-07 In the spirit of Ludolph of Saxony c 1295 spirituality 1378 and Ignatius of Loyola 1491 1556 The Fourfold Gospel invites the reader into the mystery of God's redemption in Jesus Christ All the parallel passages in the Gospels are glossed together along with the unique material using a medieval interpretive approach called the Quadriga or the acronym PaRDeS in Hebrew Meditating on the literal canonical moral and theological senses of Scripture offers a scaffolding for the spiritual formation of the reader This volume in addition to a thorough introduction to the method and the Gospels focuses on the beginning of the story the birth baptism and temptations of Christ Cosmological Aesthetics through the Kantian Sublime and Nietzschean Dionysian Erman Kaplama, 2013-12-12 Erman Kaplama explores the principle of transition bergang from metaphysics to physics developed by Kant in his unfinished magnum opus Opus Postumum Drawing on the Heraclitean logos and Kant's notions of sense intuition Anschauung and reflective judgment Kaplama interprets transition as an aesthetic principle He revises the idea of nature phusis as the principle of motion referring to Heraclitus cosmology as well as Heidegger's and Nietzsche's lectures on the pre Socratics Kaplama compares the Kantian sublime and Nietzschean Dionysian as aesthetic theories representing the transition from the sensible to supersensible and as cosmological theories that consider human nature ethos as an extension of nature In light of such Nietzschean notions as the eternal recurrence and will to power the Dionysian is shown to trigger the transition by which nature and art are redefined Finally Cosmological Aesthetics employs the principles of transition and motion to analyze Van Gogh s Starry Night in an excursus Christianity and the Art of Wheelchair Maintenance Stephen Faller, 2018-08-08 After twenty years Stephen Faller shares his journey into seminary and ordained ministry This book reveals the story of how someone with a lifelong disability cerebral palsy might find his way into ministry as a hospital chaplain there is a certain

irony in that While particular in its own right this story will speak to anyone in college or graduate school studying one of the many disciplines hoping to make the world a better place Through narrative and dialogue Faller engages philosophers and theologians alike This is an intimate text that seeks to integrate mind body and spirit that situates itself more beyond the margins than as marginalized Just as Faller s own narrative is contextualized by disability this personal work is contextualized in our polarized and politicized culture as it considers the meaning of ministry for a contemporary time His is an embodied text that speaks to a multicultural society even if that body carries brokenness and even if that society is divided

The Rise and Fall of James Busby Paul Moon, 2020-09-17 One of the British Empire's most troubling colonial exports in the 19th century James Busby is known as the father of the Australian wine industry the author of New Zealand's Declaration of Independence and a central figure in the early history of independent New Zealand as its British Resident from 1833 to 1840 Officially the man on the ground for the British government in the volatile society of New Zealand in the 1830s Busby endeavoured to create his own parliament and act independently of his superiors in London This put him on a collision course with the British Government and ultimately destroyed his career With a reputation as an inept conceited and increasingly embittered person this caricature of Busby's character has slipped into the historical bloodstream where it remains to the present day This book draws on an extensive range of previously unused archival records to reconstruct Busby s life in much more intimate form and exposes the back room plotting that ultimately destroyed his plans for New Zealand It will alter the way that Britain's colonisation of New Zealand is understood and will leave readers with an appreciation of how individuals more than policies shaped the Empire and its rule Mystery in Philosophy Michael Craig Rhodes, 2012-08-25 Typically mystery does not receive much attention in philosophy Although Heidegger and other key philosophers have made a place for mystery in philosophy many find such philosophizing suspect and unconvincing As a general rule contemporary philosophers have taken a different approach and thus there has been very little discussion of mystery in philosophy As a study of mystery in philosophy this book is therefore somewhat unique Moreover it is also distinctive in the way it approaches the subject tuning to an unpopular figure Dionysius the Areopagite c 500 in contemporary philosophy in effort to make connections between that form of thought and various claims and indications of mystery Thus the book is unconventional in terms of both its subject matter and its methodology Aristotelians and Platonists Luigi Morelli, 2015-11-25 At the heart of this book is Rudolf Steiners culmination in the twentieth century or the convergence of the working of Aristotelians and Platonists for the renewal of culture And questions arise Where is the whole of the School of Michael at present How can we characterize and honor one and the other stream and avoid stereotypes and misunderstandings This work approaches the matter in its historical unfolding in three successive steps in which Steiner Aristotles and Plato Schrers incarnations form a thread The first tableau opens up in the previous Age of Michael in Greece when Plato and Aristotle inaugurated the work of the two Michaelic streams The second addresses the Middle Ages and centers around the contrast between Alain de Lille and

Thomas Aguinas between the School of Chartres and Scholasticism Steiners and Schrers life tasks in the nineteenth century form the prelude to the present The heart of the book and its longest section looks at the present It contrasts the working of Aristotelians and Platonists in the natural sciences in psychology and in the social sciences From the ground of extensive observation and characterization it then turns to pressing questions What can Platonists learn from Aristotelians And how about the reverse Starting from the example of individuals meeting across the streams how can we extend this understanding so that it becomes an ongoing practice and a cultural concern How can Michaelic individuals and institutions work in ways that honor the whole of the Michaelic movement A Hermeneutics of Violence Mark M. Ayyash, 2019-09-09 Attention to the elusiveness of violence opens up a rich landscape of analysis whereby social scientists can examine the often overlooked transformative dimensions of violent acts Theories of violence are numerous today but because of the mysterious nature of violence and how each individual or group may endure it uniquely its study cannot be limited to one specialized and highly restricted field A Hermeneutics of Violence seeks to remedy this problem by placing in dialogue various theories of violence from the disciplines of anthropology sociology international relations and philosophy This study uses a four dimensional lens to examine the many facets of violence including its instrumental linguistic mimetic and transcendental dimensions Far from irreconcilable these positions when placed within a four dimensional outlook open up new avenues for the study of particular cases of violence Exploring the complex interactions for instance of enemy siblings Mark M Ayyash reveals postures of incommensurability that continuously produce conflictual positions across a spectrum of time and space and demand the release of violence The book concludes that these postures must be understood and deconstructed before we can have a legitimate chance to achieve peace and justice the conceptions of which must come with the intent of not necessarily opposing violence but rather replacing our conceptions of what the violences have come to constitute as real **Aesthetics of Decay** Dylan Trigg, 2006 In The Aesthetics of Decay Dylan Trigg confronts the remnants from the fallout of post industrialism and postmodernism Through a considered analysis of memory place and nostalgia Trigg argues that the decline of reason enables a critique of progress to emerge In this ambitious work Trigg aims to reassess the direction of progress by situating it in a spatial context In doing so he applies his critique of rationality to modern ruins The derelict factory abandoned asylum and urban alleyway all become allies in Trigg's attack on a fixed image of temporality and progress The Aesthetics of Decay offers a model of post rational aesthetics in which spatial order is challenged by an Naturally Late Will Johncock, 2019-04-15 Is time a natural reality that social symbols such as affirmative ethics of ruin clocks and calendars merely contingently represent Lateness protocols seemingly exhibit such contingency for not all cultures regulate synchronization identically Just as social cultural time structures are interpreted to diverge from time s natural rhythm body modifications are often presented as social productions that divert human bodies from their naturally originated corporeal temporality A similar separation informs climate change discourses supposing a natural rhythm that

industrialized culture has invaded the effects of which humans might be too late to arrest Interrogating this conceptual separation matters given that if certain times are considered to be more natural than others a situated politics emerges regarding the associated cultural structures Furthermore our personal investments in experiences of lateness which are embedded within social time seemingly contradict the constructionist impression that social time is merely a contingent misrepresentation of what time actually is Through Derridian deconstruction Merleau Pontian phenomenology and Bergsonian time philosophy complemented with voices from fields including object oriented ontology new materialism and new criticism this book re evaluates the timing of times from a philosophical perspective **Miseducating Americans** Richard F. Hamilton, 2017-09-08 In Miseducating Americans Richard F Hamilton examines accounts of American history appearing in textbooks and popular accounts and compares these with the reports contained in scholarly monographs The task to determine how certain myths and misconstructions became accepted as recorded history Hamilton provides much needed correction of those misleading accounts Was America historically the land of the free Not if you take into account slavery discrimination and post Civil War segregation policies Was America in the late nineteenth century truly expansionist as American textbooks imply or did it actually capitalize on unexpected political and economic opportunities like Russia s desire to rid itself of Alaska Was the acquisition of the Philippines a zealous profit seeking effort aiming for the China market or the fortuitous consequences of a move against Spain during the Spanish American War Miseducating Americans debunks many commonly accepted explanations of historical facts It contends that many accounts are oversimplifications and some are one sided depictions of virtue Hamilton traces the sources of these misconstructions which mostly come from history textbooks written by authors aiming for popular audiences He then offers explanations as to how and why the inaccuracies have been repeated and passed on The Soul of America Jon Meacham, 2019-04-30 1 NEW YORK TIMES BESTSELLER Pulitzer Prize winning author Jon Meacham helps us understand the present moment in American politics and life by looking back at critical times in our history when hope overcame division and fear Gripping and inspiring The Soul of America is Jon Meacham's declaration of his faith in America Newsday ONE OF OPRAH S BOOKS THAT HELP ME THROUGH A BEST BOOK OF THE YEAR NPR The Christian Science Monitor Southern Living Our current climate of partisan fury is not new and in The Soul of America Meacham shows us how what Abraham Lincoln called the better angels of our nature have repeatedly won the day Painting surprising portraits of Lincoln and other presidents including Ulysses S Grant Theodore Roosevelt Woodrow Wilson Franklin D Roosevelt Harry S Truman Dwight Eisenhower and Lyndon B Johnson and illuminating the courage of such influential citizen activists as Martin Luther King Jr early suffragettes Alice Paul and Carrie Chapman Catt civil rights pioneers Rosa Parks and John Lewis First Lady Eleanor Roosevelt and Army McCarthy hearings lawyer Joseph N Welch Meacham brings vividly to life turning points in American history He writes about the Civil War Reconstruction and the birth of the Lost Cause the backlash against immigrants in the First World War and the resurgence of the Ku Klux Klan in

the 1920s the fight for women s rights the demagoguery of Huey Long and Father Coughlin and the isolationist work of America First in the years before World War II the anti Communist witch hunts led by Senator Joseph McCarthy and Lyndon Johnson's crusade against Jim Crow Each of these dramatic hours in our national life have been shaped by the contest to lead the country to look forward rather than back to assert hope over fear a struggle that continues even now While the American story has not always or even often been heroic we have been sustained by a belief in progress even in the gloomiest of times In this inspiring book Meacham reassures us The good news is that we have come through such darkness before as time and again Lincoln's better angels have found a way to prevail Psychological Jurisprudence Bruce A. Arrigo, 2012-02-01 Psychological jurisprudence or the use of psychology in the legal realm relies on theories and methods of criminal justice and mental health to make decisions about intervention policy and programming While the intentions behind the law psychology field are humane the results often are not This book provides a radical agenda for psychological jurisprudence one that relies on the insights of literary criticism psychoanalysis feminist theory political economy analysis postmodernism and related strains of critical thought Contributors reveal the roots of psycholegal logic and demonstrate how citizen justice and structural reform are displaced by so called science and facts A number of complex issues in the law psychology field are addressed including forensic mental health decision making parricide competency to stand trial adolescent identity development penal punitiveness and offender rehabilitation In exploring how the current resolution to these and related controversies fail to promote the dignity or empowerment of persons with mental illness this book suggests how the law psychology field can meaningfully contribute to advancing the goals of justice and humanism in psychologal theory research and policy
