Remembering The Fifties Growing Up In Western Canada:

Roughing it in the Suburbs Valerie J. Korinek, 2000-12-15 Originally launched in 1928 by the 1950s and 1960s nearly two million readers every month sampled Chatelaine magazine's eclectic mixture of traditional and surprisingly unconventional articles and editorials. At a time when the American women's magazine market began to flounder thanks to the advent of television, Chatelaine's subscriptions expanded as did the lively debate between its pages. Why In this exhilarating study of Canada's foremost women's publication in the 50s and 60s Valerie Korinek shows that while the magazine was certainly filled with advertisements that promoted domestic perfection through the endless expansion of consumer spending a number of its sections including fiction features letters and the editor's column began to contain material that subversively complicated the simple consumer recipes for affluent domesticity. Articles on abortion spousal abuse and poverty proliferated alongside explicitly feminist editorials. It was a potent mixture and the mail poured in both praising and criticizing the new directions at the magazine. It was Chatelaine's highly interactive and participatory nature that encouraged what Korinek calls a community of readers readers that in their very response to the magazine led to its success. Chatelaine did not cling to the stereotypical images of the era instead it forged ahead providing women with a variety of images ideas and critiques of women's role in society. Chatelaine's dissemination of feminist ideas laid the foundation for feminism in Canada in the 1970s and after. Comprehensive fascinating and full of lively debate and history **Roughing it in the Suburbs** provides a cultural study that weaves together a history of Chatelaine's producer's consumers and text. It illustrates how the structure of the magazine's production and the composition of its editorial and business offices allowed for feminist material to infiltrate a mass market women's monthly. In doing so it offers a detailed analysis of the times the issues and the national cross section of the women and sometimes men who participated in the success of a Canadian cultural landmark. Winner of the Laura Jamieson Prize awarded by the Canadian Research Institute for the Advancement of Women. **The Canadian Historical Review**, 1998 **Canadian Books in Print**, 2000 *Remembering Mass Violence* Steven High, Edward Little, Thi Ry Duong, 2014-02-05 *Remembering Mass Violence* breaks new ground in oral history new media and performance studies by exploring what is at stake when we attempt to represent war genocide and other violations of human rights in a variety of creative works. Textiles, 1750-1950 " Maureen Daly Goggin, 2017-07-05 Rejecting traditional notions of what constitutes art this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art Although scholars over the last twenty years have turned their attention to fiber arts redefining the conditions practices and products as art there is still much work to be done to deconstruct the stubborn patriarchal art/craft binary With essays on a range of fiber art practices including embroidery knitting crocheting machine stitching rug making weaving and quilting this collection contributes to the ongoing scholarly redefinition of women's relationship to creative activity Focusing on women as producers of cultural products and creators of social value the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles Each essay also examines the ways in which needlework both performs gender and in turn constructs gender Moreover in concentrating on and theorizing material practices of textiles these essays reorient the study of fiber arts towards a focus on process the making of the object including the conditions under which it was made by whom and for what purpose as a way to rethink the fiber arts as social praxis

Wiarda, 2007-01-01 The Dutch Diaspora is a comprehensive and personal study of the former colonial empire of the Netherlands The Netherlands is considered one of the most successful societies and at one point was the world's largest empire_stretching from Japan to the United States The author Howard Wiarda who grew up in western Michigan and is himself of Dutch descent combines thorough scholarship with first hand experience of travels to the far flung former colonies The study analyzes how colonies reacted to the ideological beliefs implanted by the Dutch settlers and how those colonies evolved in terms of cultural religious and political beliefs For example the Dutch in the seventeenth century brought Calvinism to South Africa and entrepreneurialism to New Amsterdam and Curaçao and in the nineteenth century supported slave plantation systems in Indonesia and Suriname but as time passed the evolution of the colonies was telling The United States outgrew Great Britain in wealth and power but while Calvinism declined in the Netherlands it remained vibrant and progressive in the American Midwest In many ways the former colonies adapted to modernization better than the mother country The Dutch Diaspora is an insightful and accessible study of colonialism useful to upper level undergraduates and all students and researchers of Dutch history *Inhabiting Memory in Canadian Literature / Habiter la*
