Taddeo and Federico Zuccaro Julian Brooks, Peter M. Lukehart, Christina Strunck, Robert Williams, 2007 One of the most important series of drawings in late sixteenth century Italian art the twenty large sheets by Federico Zuccaro ca 1541 1609 showing the early life of his older brother Taddeo 1529 1566 was acquired by the J Paul Getty Museum in 1999 Never fully published the series shows Taddeo's trials and tribulations as a young artist trying to achieve success in Renaissance Rome and his eventual triumph The drawings contain charming details of the life of a struggling artist and reveal much about the younger brother Federico a successful artist in his own right This volume published to coincide with an exhibition at the J Paul Getty Museum to be held from October 1 2007 to January 6 2008 presents Federico Zuccaro's twenty drawings and accompanying poems in their historical and artistic context and will be of interest to art historians and general readers alike Of particular importance is its examination of the role of the copying of masterworks in the training of young Renaissance artists

Sixteenth-century Italian Drawings Edward J. Olszewski, Burton Lewis Dunbar, 2008 Paintings sculpture and classical antiquities are the most valuable resources of any museum and are the first objects to be published in each museum's own collection catalogue or online inventory Collection catalogues however have customarily included only a small sample of the riches to be found in Midwestern collections of master drawings This volume of sixteenth century drawings has been largely

the work of Burton L Dunbar University of Missouri Kansas City director of the project and a specialist in the arts of northern Europe and Edward J Olszewski Case Western Reserve University co editor for the series a well known authority on drawings of the Italian Renaissance This volume covers the sixteenth century including artists born as a rule between 1480 and 1580 with the exception of Giovanni Baglione ca 1573 1644 and the Carracci This study represents a gathering of drawings from forty institutions between Ohio and Oklahoma based on a census of seventy five museums and art centers Jacob Burckhardt's contention that the Renaissance was in many respects an age of paganism is readily belied here by the 471 Italian drawings the great majority of which are religious subjects Antiquity provided a veneer beneath which sixteenth century artists could cloak their Christianity to make it seem fresh reminding believers of the origins of their faith and reviving the purity of Christian doctrine in its early years It is no surprise then to find numerous drawings of antiquities and mythologies among the many subjects A corpus this large can be representative in many ways offering a cross section of media subjects drawing types and collectors Of the 471 Italian drawings scattered across Midwestern America here we reassemble many that were at one time in one or more prominent collections Every drawing was examined for the following information Artist place of birth and death with dates biography title of drawing date of drawing dimensions in mm and in inches media institutional credit line accession number technical condition inscriptions collectors marks watermark provenance exhibitions bibliography comments
