**Over the Edge** Valerie J. Matsumoto, Blake Allmendinger, 2023-09-01 From the Gold Rush to rush hour the history of the American West is fraught with diverse subversive and at times downright eccentric elements This provocative volume challenges traditional readings of western history and literature and redraws the boundaries of the American West with absorbing essays ranging widely on topics from tourism to immigration from environmental battles to interethnic relations and from law to film Taken together the essays reassess the contributions of a diverse and multicultural America to the West as they link western issues to global frontiers Featuring the latest work by some of the best new writers both inside and outside academia the original essays in *Over the Edge* confront the traditional field of western American studies with a series of radical speculative and sometimes outrageous challenges The collection reads the West through Ben Hur and the films of Mae West revises the western American literary canon to include the works of African American and Mexican American writers examines the implications of miscegenation law and American Indian blood quantum requirements and brings attention to the historical participation of Mexican and Japanese American women Native American slaves and Alaskan cannery workers in community life

*West of Harlem* Emily Lutenski, 2023-04-01 Luminaries of the Harlem Renaissance Langston Hughes Jean Toomer Wallace Thurman and Arna Bontemps among others are associated with well Harlem But the story of these New York writers unexpectedly extends to the American West Hughes for instance grew up in Kansas Thurman in Utah and Bontemps in Los Angeles Toomer traveled often to New Mexico Indeed as *West of Harlem* reveals the West played a significant role in the lives and work of many of the artists who created the signal urban African American cultural movement of the twentieth century Uncovering the forgotten histories of these major American literary figures the book gives us a deeper appreciation of that movement and of the cultures it reflected and inspired These recovered experiences and literatures paint a new picture of the American West one that better accounts for the disparate African American populations that dotted its landscape and shaped the multiethnic literatures and cultures of the borderlands Tapping literary biographical historical and visual sources Emily Lutenski tells the New Negro movement s western story Hughes s move to Mexico opens a window on African American transnational experiences Thurman s engagement with Salt Lake City offers an unexpected perspective on African American sexual politics Arna Bontemps s Los Angeles constructed in conjunction with Louisiana provides a new vision of the Spanish borderlands Lesser known writer Anita Scott Coleman imagines black Western autonomy through domesticity The experience of others like Toomer invited to socialite Mabel Dodge Luhan s circle of artists in Taos present a more pluralistic view of the West It was this place with its transnational and multiracial mix of Native Americans Latina os Anglos and African Americans which buttressed Toomer s

idea of a new American race Turning the lens elsewhere Lutenski also explores how Latina o Asian American and Native American western writers understood and represented African Americans in the early twentieth century borderlands The result is a new unusually nuanced and unexpectedly complex view of key figures of the Harlem Renaissance and the borderlands cultures that influenced their art in surprising and important ways      **A History of the African American Novel** Valerie Babb,2017-07-31 This History is intended for a broad audience seeking knowledge of how novels interact with and influence their cultural landscape Its interdisciplinary approach will appeal to those interested in novels and film graphic novels novels and popular culture transatlantic blackness and the interfacing of race class gender and aesthetics

**Encyclopedia of African American History, 1896 to the Present** Paul Finkelman,2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century      Alain Leroy Locke Rudolph Alexander Kofi Cain,2021-10-25 This book fills a void in the scholarly treatment of Alain Locke by providing the reader with a comprehensive view of Locke s vision of mass and adult education as instruments for social change It is representative of the remarkable optimistic manifesto of 1925 in which the New Negro by virtue of a cosmopolitan education emphasizing value pluralism would become a full participant in American culture This text delineates Locke s crucial contribution to the philosophy of adult education and provides insights into how he expected others to use his aesthetic literary and anthropological theories as instruments for social and political transformation      **The Fugitive Poets** William Pratt,1991 Anthology of the finest modern Southern poets including Warren Ransom Tate Davidson      Fireflies David P. Owen, Jr.,2017-08-24 Fireflies is a book about how writing poetry can help us explore memory and identity and it is also a book of poetry that explores memory and identity This work is an example of the liminal scholarship advocated in The Need for Revision 2011 by the same author occupying a space in the academic world s windows and doorways not exactly in any one field but rather in the spaces between where the inside and outside commingle it seeks to trouble the boundaries between teacher and writer critic and artist writer and reader and teacher and student in a way from which all parties might benefit Fireflies aims for a different kind of scholarship and hopes to offer new ways for teachers to be professional and academic The second section of the book is a full length poetry text the author s own exploration of the notions that people who teach writing should also be writers and that poetry is more something you do than something you are The book says we should write poems not because of some inborn gift for it but because the act of writing poetry is good for us and helps us understand ourselves better it is a book written in the hopes that other books will be written Maybe by you David Owen has taken his understanding of currere the root of curriculum to a new level with his demonstration of the value of reading and writing poetry He argues that writing poetry develops an attitude of adventure into everydayness As his first chapter Songs of Ourselves suggests we all can be Whitman s if we take up our pens to celebrate what lives around us as well as in us Owen demonstrates this theory with a calendar of poems he

wrote that share small frozen moments of the seasons of a year Connecting his memories with forays into night skies and fireflies and the fractals that God makes David Owen's poetic images suggest that our deep connection with Earth can be recovered if we let a little more oak in the voice of our words Mary Aswell Doll author of *The Mythopoetics of Currere*

**Search for Values** John Danesh, Seena Fazel, 2004      **African American Dramatists** Emmanuel S. Nelson, 2004-10-30

**Postmodern Racial Dialectics** Richard A. Jones, 2015-12-07 *Postmodern Racial Dialectics* is a collection of ten essays on African American philosophy Addressing issues as disparate as why there are no graduate programs in philosophy at the

more than one hundred traditionally black colleges and universities in the U S to conceptions of Black utopianism to the nature of postmodern revolutions these essays are beyond the bounds of traditional racial discourse The essays are dialectical in the sense that they are conversations between personal histories between ideologies and between changing ways that the races talk to one another The book is postmodern in that it is beyond modernity s linear logic Postmodern Racial Dialectics is also a political entreaty for African Americans to be wary of conventional ways of thinking and to begin thinking transgressively beyond narrowly prescribed conceptions from both sides of the color line      **Gullah Spirituals** Eric Sean Crawford,2021-07-16 In Gullah Spirituals musicologist Eric Crawford traces Gullah Geechee songs from their beginnings in West Africa to their height as songs for social change and Black identity in the twentieth century American South While much has been done to study preserve and interpret Gullah culture in the lowcountry and sea islands of South Carolina and Georgia some traditions like the shouting and rowing songs have been all but forgotten This work which focuses primarily on South Carolina s St Helena Island illuminates the remarkable history survival and influence of spirituals since the earliest recordings in the 1860s Grounded in an oral tradition with a dynamic and evolving character spirituals proved equally adaptable for use during social and political unrest and in unlikely circumstances Most notably the island s songs were used at the turn of the century to help rally support for the United States involvement in World War I and to calm racial tensions between black and white soldiers In the 1960s civil rights activists adopted spirituals as freedom songs though many were unaware of their connection to the island Gullah Spirituals uses fieldwork personal recordings and oral interviews to build upon earlier studies and includes an appendix with more than fifty transcriptions of St Helena spirituals many no longer performed and more than half derived from Crawford s own transcriptions Through this work Crawford hopes to restore the cultural memory lost to time while tracing the long arc and historical significance of the St Helena spirituals      Hip Hop's Amnesia Reiland Rabaka,2012-05-11 Hip Hop s Amnesia is a study about aesthetics and politics music and social movements as well as the ways in which African Americans unique history and culture has consistently led them to create musics that have served as the soundtracks for their socio political aspirations and frustrations their socio political organizations and nationally networked movements The musics of the major African American social and political movements of the 1950s 1960s and 1970s were based and ultimately built on earlier forms of African American movement music Therefore in order to really and truly understand rap music and hip hop culture we must critically examine both classical African American musics and the classical African American movements that these musics served as soundtracks for      *Concepts of Cabralism* Reiland Rabaka,2014-07-16 By examining Amilcar Cabral s theories and praxes as well as several of the antecedents and major influences on the evolution of his radical politics and critical social theory Concepts of Cabralism Amilcar Cabral and Africana Critical Theory simultaneously reintroduces chronicles and analyzes several of the core characteristics of the Africana tradition of critical theory Reiland Rabaka s primary preoccupation is with Cabral s theoretical and political legacies

that is to say with the ways in which he constructed deconstructed and reconstructed theory and the aims objectives and concrete outcomes of his theoretical applications and discursive practices The book begins with the Negritude Movement and specifically the work of L opold Senghor Aim C saire and Jean Paul Sartre Next it shifts the focus to Frantz Fanon s discourse on radical disalienation and revolutionary decolonization Finally it offers an extended engagement of Cabral s critical theory and contributions to the Africana tradition of critical theory Ultimately Concepts of Cabralism chronicles and critiques revisits and revises the black radical tradition with an eye toward the ways in which classical black radicalism informs or should inform not only contemporary black radicalism African nationalism and Pan Africanism but also contemporary efforts to create a new anti racist anti sexist anti capitalist anti colonialist and anti imperialist critical theory of contemporary society what has come to be called Africana critical theory

The Muse in Bronzeville Robert Bone, Richard A. Courage, 2011 A dynamic reappraisal of a neglected period in African American cultural history from the early 1930s to the cold war and the first comprehensive critical study of the creative awakening that occurred on Chicago s South Side from cover

The Negritude Movement Reiland Rabaka, 2015-05-20 The Negritude Movement provides readers with not only an intellectual history of the Negritude Movement but also its prehistory W E B Du Bois the New Negro Movement and the Harlem Renaissance and its posthistory Frantz Fanon and the evolution of Fanonism By viewing Negritude as an insurgent idea to invoke this book s intentionally incendiary subtitle as opposed to merely a form of poetics and aesthetics The Negritude Movement explores Negritude as a traveling theory la Edward Said s concept that consistently crisscrossed the Atlantic Ocean in the twentieth century from Harlem to Haiti Haiti to Paris Paris to Martinique Martinique to Senegal and on and on ad infinitum The Negritude Movement maps the movements of proto Negritude concepts from Du Bois s discourse in *The Souls of Black Folk* through to post Negritude concepts in Fanon s *Black Skin White Masks* and *The Wretched of the Earth* Utilizing Negritude as a conceptual framework to on the one hand explore the Africana intellectual tradition in the twentieth century and on the other hand demonstrate discursive continuity between Du Bois and Fanon as well as the Harlem Renaissance and Negritude Movement The Negritude Movement ultimately accents what Negritude contributed to arguably its greatest intellectual heir Frantz Fanon and the development of his distinct critical theory Fanonism Rabaka argues that if Fanon and Fanonism remain relevant in the twenty first century then to a certain extent Negritude remains relevant in the twenty first century
