explores the philosophical concept of transcendence Based on what Emmanuel Levinas called Wahl s famous lecture from 1937 *Existence humaine et transcendence* captured a watershed moment of European philosophy Included in the book are Wahl s remarkable original lecture and the debate that ensued with significant contributions by Gabriel Marcel and Nicolai Berdyaev as well as letters submitted on the occasion by Heidegger Levinas Jaspers and other famous figures from that era Concerned above all with the ineradicable felt value of human experience by which any philosophical thesis is measured Wahl makes a daring clarification of the concept of transcendence and explores its repercussions through a masterly appeal to many often surprising places within the entire history of Western thought Apart from its intrinsic philosophical significance as a discussion of the concepts of being the absolute and transcendence Wahl s work is valuable insofar as it became a focal point for a great many other European intellectuals Hackett has provided an annotated introduction to orient readers to this influential work of twentieth century French philosophy and to one of its key figures

**Writing and Filming the Painting** Laura M. Sager Eidt,2008 This innovative interdisciplinary study compares the uses of painting in literary texts and films In developing a framework of four types of ekphrasis the author argues for the expansion of the concept of ekphrasis by demonstrating its applicability as interpretive tool to films about the visual arts and artists Analyzing selected works of art by Goya Rembrandt and Vermeer and their ekphrastic treatment in various texts and films this book examines how the medium of ekphrasis affects the representation of the visual arts in order to show what the differences imply about issues such as gender roles and the function of art for the construction of a personal or social identity Because of its highly cross disciplinary nature this book is of interest not only to scholars of literature and aesthetics but also for scholars of film studies By providing an innovative approach to discussing non documentary films about artists the author shows that ekphrasis is a useful tool for exploring both aesthetic concerns and ideological issues in film This study also addresses art historians as it deals with the reception of major artists in European literature and film throughout the 20th century
