Sculpture and the Vitrine John C. Welchman, 2017-07-05

Vitrines and glass cabinets are familiar apparatuses that have in large part defined modern modes of display and visibility both within and beyond the museum They separate objects from their contexts group them with other objects both similar and dissimilar and often serve to reinforce their intrinsic or aesthetic values The vitrine has much in common with the picture frame the plinth and the gallery but it has not yet received the kind of detailed art historical and theoretical discussion that has been brought to these other modes of formal display The twelve contributions to this volume examine some of the points of origin of the vitrine and the various relations it brokers with sculpture first in the Wunderkammer and cabinet of curiosities and then in dialog with the development of glazed architecture beginning with Paxton's Crystal Palace 1851 The collection offers close discussions of the role of the vitrine and shop window in the rise of commodity culture and their apposition with

Constructivist design in the work of Frederick Kiesler as well as original readings of the use of vitrines in Surrealism and Fluxus and in work by Joseph Beuys Paul Thek Claes Oldenburg and his collaborators Jeff Koons Mike Kelley Dan Graham Vito Acconci Damien Hirst and Josephine Meckseper among others Sculpture and the Vitrine also raises key questions about the nature and implications of vitrinous space including its fronts onto desire and the spectacle transparency and legibility and onto ideas and practices associated with the archive collecting preserving and ordering

Part-Architecture Emma Cheadle, 2017-07-20 Part Architecture presents a detailed and original study of Pierre Chareau's Maison de Verre through another seminal modernist artwork Marcel Duchamp's Large Glass Aligning the two works materially historically and conceptually the book challenges the accepted architectural descriptions of the Maison de Verre makes original spatial and social accounts of its inhabitation in 1930s Paris and presents new architectural readings of the Large Glass Through a rich analysis which incorporates creative projects into history and theory research the book establishes new ways of writing about architecture Designed for politically progressive gynaecologist Dr Jean Dalsace and his avant garde wife Annie Dalsace the Maison de Verre combines a family home with a gynaecology clinic into a free plan layout Screened only by glass walls the presence of the clinic in the home suggests an untold dialogue on 1930s sexuality The text explores the Maison de Verre through another radical glass construction the Large Glass where Duchamp's complex depiction of unconsummated sexual relations across the glass planes reveals his resistance to the marital conventions of 1920s Paris This and other analyses of the Large Glass are used as a framework to examine the Maison de Verre as a register of the changing history of women's domestic and maternal choices reclaiming the building as a piece of female social architectural history The process used to uncover and write the accounts in the book is termed part architecture Derived from psychoanalytic theory part architecture fuses analytical descriptive and creative processes to produce a unique social and architectural critique Identifying three essential materials to the Large Glass the book has three main chapters Glass Dust and Air Combining theory text creative writing and drawing each traces the history and meaning of the material and its contribution to the spaces and sexuality of the Large Glass and the Maison de Verre As a

whole the book contributes important and unique spatial readings to existing scholarship and expands definitions of architectural design and history **Elusive Archives** Martin Brückner, Sandy Isenstadt, 2021-08-27 The essays that comprise *Elusive Archives* raise a common question how do we study material culture when the objects of study are transient evanescent dispersed or subjective Such things resist the taxonomic protocols that institutions such as museums and archives rely on to channel their acquisitions into meaningful collections What holds these disparate things together here are the questions authors ask of them Each essay creates by means of its method a provisional collection of things an elusive archive Scattered matter then becomes fixed within each author's analytical framework rather than within the walls of an archive's reading room or in cases along a museum corridor This book follows the ways in which objects may be identified gathered arranged conceptualized and even displayed rather than by discovering artifacts in an archive and then asking how they came to be there The authors approach material culture outside the traditional bounds of learning about the past Their essays are varied not only in subject matter but also in narrative format and conceptual reach making the volume accessible and easy to navigate for a quick reference or if read straight through build toward a new way to think about material culture

Cinematic Style Jess Berry, 2022-01-27 From cinema's silent beginnings fashion and interior design have been vital to character development and narrative structure. Despite spectacular technological advancements on screen, stunning silhouettes and striking spaces still have the ability to dazzle to dramatic effect. This book is the first to consider the significant interplay between fashion and interiors and their combined contribution to cinematic style from early film to the digital age. With examples from Frank Lloyd Wright inspired architecture in Hitchcock's *North by Northwest* to Coco Chanel's costumes for Gloria Swanson and a *Great Gatsby* film set turned Ralph Lauren flagship, *Cinematic Style* describes the reciprocal relationship between these cultural forms. Exposing the bleeding lines between fashion and interiors in cinematic and real life contexts, Berry presents case studies of cinematic styles adopted as brand identities and design movements promoted through filmic fantasy. Shedding light on consumer culture, social history and gender politics as well as on fashion film and interior design theory, *Cinematic Style* considers the leading roles domestic spaces, quaint cafes, little black dresses and sharp suits have played in 20th and 21st century film.

House of Fashion Jess Berry, 2018-07-12 Since Charles Fredrick Worth established his luxurious *Maison de Couture* in 1858, the interior has played a crucial role in the display of fashion. *House of Fashion* provides a full historical account of the interplay between fashion and the modern interior, demonstrating how they continue to function as a site for performing modern gendered identities for designers and their clientele alike. In doing so, it traces how designers including Poiret, Vionnet, Schiaparelli and Dior used commercial spaces and domestic interiors to enhance their credentials as connoisseurs of taste and style. Taking us from the early years of haute couture to the luxury fashion of the present day, Berry explores how the salon, the atelier and the boutique have allowed fashion to move beyond the aesthetics of dress to embrace the visual seduction of the theatrical, artistic and the exotic. From the Art Deco allure of Coco Chanel's *Maison* to the luminous spaces of contemporary flagship stores, *House of Fashion* sets out fashion's links with key figures in architecture and design, including Louis S. e Robert Mallet Stevens, Eileen Gray and Jean Michel Frank. Drawing on photographs, advertisements, paintings and illustrations, this interdisciplinary study examines how fashionable interiors have shaped our understanding of architecture, dress and elegance.

Twentieth-Century Pattern Design Lesley Jackson, 2007-02-08 *Twentieth Century Pattern Design* combines photographs including many newly published images with soundly researched text, creating an essential resource for enthusiasts and historians of modern design. The book also serves as a creative sourcebook for students and designers, inspiring new flights of fancy in pattern design. Jacket
