Playing with the Book Hannah Field, 2019-07-02 A beautifully illustrated exploration of how Victorian novelty picture books reshape the ways children read and interact with texts The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to

pull pages that could fold out pop up scenes and even mechanical toys mounted on pages Analyzing books for young children published between 1835 and 1914 *Playing with the Book* studies how these elaborately designed works raise questions not just about what books should look like but also about what reading is particularly in relation to children's literature and child readers Novelty books promised or threatened to make reading a physical as well as intellectual activity requiring the child to pull a tab or lift a flap to continue the story These books changed the relationship between pictures words and format in both productive and troubling ways Hannah Field considers these aspects of children's reading through case studies of different formats of novelty and movable books and intensive examination of editions that have survived from the nineteenth century She discovers that children ripped tore and colored in their novelty books despite these books explicit instructions against such behaviors Richly illustrated with images of these ingenious constructions *Playing with the Book* argues that novelty books construct a process of reading that involves touch as well as sight thus reconfiguring our understanding of the phenomenology of reading

Reading McLuhan Reading Paula McDowell, 2023-02-21 Sixty years after Understanding Media Marshall McLuhan remains one of the best known and most influential intellectuals of the twentieth century Far beyond academia readers and non readers recognize his coinages such as the Gutenberg era the global village and the medium is the message A literary scholar by profession McLuhan was one of the first academics to recognize the new opportunities offered by radio and television to reach audiences beyond the readerships of scholarly journals His talks and appearances ushered in public intellectual debate concerning the electronic age Although his reputation waned in the 1970s the recent making available to the public of his extraordinary personal library of some six thousand books enables new kinds of analyses of McLuhan as a reader thinker and cultural force The essays here focus not so much on his media theory per se

as on the habits and practices that animated his reading and on the larger questions of what reading and not reading mean. We don't need to agree with everything McLuhan says to make valuable use of his work. New resources offer us an unprecedented opportunity to revisit one fallible human reader whose texts and ideas are good to think with and against. This book was originally published as a special issue of the journal *Textual Practice*. **The Art of Political Fiction in Hamilton, Edgeworth, and Owenson** Susan B. Egenolf, 2009 Susan Egenolf's study informed by visual culture and a wide range of archival texts offers a new interdisciplinary reading of gendered and political responses to such key events in the history of Romanticism as the 1798 Irish Rebellion. She examines the artistry and political engagement of Elizabeth Hamilton, Maria Edgeworth and Sydney Owenson whose self-conscious use of glosses facilitated their critiques of politics and society and simultaneously revealed the process of fictional structuring.

William Blake's Manuscripts Mark Crosby, Josephine A. McQuail, 2024-04-12 This collection of essays examines how close analysis of William Blake's manuscripts can yield new discoveries about his techniques, his working habits and his influences. With the introduction of facsimile editions and more particularly the William Blake Archive, the largest digital repository of Blake materials online, scholars have been able to access Blake's work in as close to its original medium leading to important insights into Blake's creative process and mythopoetic system. Recent advancements in digital editing and reproduction have further increased interest in Blake's manuscripts. This volume brings together both established Blake scholars including G. E. Bentley Jr.'s final essay on Blake and upcoming scholars whose research is at the intersection of digital humanities, critical theory, textual scholarship, queer theory, transgender studies, reception history and bibliographical studies. The chapters seek to cover the breadth of Blake's manuscripts, poetry, letters, notebook entries and annotations. Together these chapters offer an overview of the current state of research in Blake studies on manuscripts at a point when his manuscripts have become increasingly available in digital environments and gesture to a possible future of Blake scholarship in general.

Marginal Notes Patrick Spedding, Paul Tankard, 2021-03-13 *Marginal Notes: Social Reading and the Literal Margins* offers an account of literary marginalia based on original research from a range of unique archival sources from mid 16th century France to early 20th century Tasmania. Chapters examine marginal commentary from 17th century China, 18th century Britain and 19th century America, investigating the reputations as reflected by attentive readers of He Zhou, Pierre Bayle, Samuel Johnson, Thomas Warton and Sir Walter Scott. The marginal writers include Jacques Gohory, Mary Astell, Hester Thrale, Herman Melville, the young daughters of the Broome family in Gloucestershire and the patrons of the library of the Huon Mechanics Institute, Tasmania. Though marginalia is often proscribed and frequently hidden or overlooked, the collection reveals the enduring power of marginalia, concluding with studies of the ethics of annotation and the resurrected life of marginalia in digital environments.

Subscription Theater Matthew Franks, 2020-08-28 Subscription Theater asks why turn of the century British and Irish citizens spent so much time money and effort adding their names to subscription lists Shining a spotlight on private play producing clubs public repertory theaters amateur drama groups and theatrical magazines Matthew Franks locates subscription theaters in a vast constellation of civic subscription initiatives ranging from voluntary schools and workers hospitals to soldiers memorials and Diamond Jubilee funds Across these enterprises Franks argues subscribers created their own spaces for performing social roles from which they had long been excluded Whether by undermining the authority of the Lord Chamberlain's Examiner of Plays and London's commercial theater producers or by extending rights to disenfranchised women and property less men a diverse cast of subscribers including typists plumbers and maids acted as political representatives for their fellow citizens both inside the theater and far beyond it Citizens prized a democratic or representative subscription list as an end in itself and such lists set the stage for the eventual public subsidy of subscription endeavors Subscription Theater points to the importance of printed ephemera such as programs tickets and prospectuses in questioning any assumption that theatrical collectivity is confined to the live performance event Drawing on

new media as well as old Franks uses a database of over 23 000 stage productions to reveal that subscribers introduced nearly a third of the plays that were most frequently revived between 1890 and the mid twentieth century as well as nearly half of all new translations and they were instrumental in staging the work of such writers as Shaw and Ibsen whose plays featured subscription lists as a plot point or prop Although subscribers often are blamed for being a conservative force in theater Franks demonstrates that they have been responsible for how we value audience and repertoire today and their history offers a new account of the relationship between ephemera drama and democracy
