Sati Historical And Phenomenological Ebays:

Sati Arvind Sharma,1988-01-01 Sati, the Blessing and the Curse John Stratton Hawley,1994 Sati symbolizes ultimate loyalty and self sacrifice It often figures near the core of a Hindu identity that feels embattled in a modern world Yet to those who deplore it sati is a curse a violation of every woman s womanhood *Gender Reversals and Gender Cultures* Sabrina Petra Ramet,2002-11-01 *Gender Reversals and Gender Cultures* is a collection of specially commissioned essays taking a cross cultural and cross historical perspective on the subject The book documents the universality of gender reversals with chapters ranging from early Christianity up to the present It examines how gender reversals are bound up with taboo and how this underlies various religious and ritual activities *Gender Reversals and Gender Cultures* also shows how attitudes to gender reversal can reveal much about a particular culture Anne Bolin Elon College Judith Ochshorn University of South Florida Karen Torjesen Claremont Graduate School California Julia Welch Winfried Schleiner Unive *Humanism and the Death of God* Ronald E. Osborn,2017-01-19 *Humanism and the Death of God* is a critical exploration of secular humanism and its discontents Through close readings of three exemplary nineteenth century philosophical naturalists or materialists who perhaps more than anyone set the stage for our contemporary quandaries when it comes to questions of human nature and moral obligation Ronald E Osborn argues that the death of God ultimately tends toward the death of liberal understandings of the human as well Any fully persuasive defense of humanistic values including the core humanistic concepts of inviolable dignity rights and equality attaching to each individual requires an essentially religious vision of personhood Osborn shows such a vision is found in an especially dramatic and historically consequential way in the scandalous particularity of the Christian narrative of God becoming a human He does not attempt to provide logical proofs for the central claims of Christian humanism along the lines some philosophers might demand Instead this study demonstrates how philosophical naturalism or materialism and secular humanisms and anti humanisms might be persuasively read from the perspective of a classically orthodox Christian faith Hinduism and Modernity David Smith,2008-04-15 This examination of Hinduism in the context of modernity will be of interest to all students of Hinduism as well as to those interested in the sociology and history of religion Shows Hinduism to be a highly dynamic world view which challenges western notions of modernity Considers a broad range of topics including women the caste system the self divinities and gurus Contains up to date discussions of modern Hindu culture and beliefs **Colonialism as Civilizing Mission** Harald Fischer-Tiné,Michael Mann,2004 Inherent in colonialism was the idea of self legitimation the most powerful tool of which was the colonizer s claim to bring the fruits of progress and modernity to the subject people In colonial logic people who were different because they were inferior had to be made similar and hence equal by civilizing them However once this equality had been attained the very basis for colonial rule would vanish *Colonialism as Civilizing Mission* explores British colonial ideology at work in South Asia Ranging from studies on sport and national education and pulp fiction to infanticide psychiatric therapy and religion these essays on the

various forms expressions and consequences of the British civilizing mission in South Asia shed light on a topic that even today continues to be an important factor in South Asian politics Feminism and Empire Clare Midgley,2007-09-28

Feminism and Empire establishes the foundational impact that Britain's position as leading imperial power had on the origins of modern western feminism Based on extensive new research this study exposes the intimate links between debates on the woman question and the constitution of colonial discourse in order to highlight the centrality of empire to white middle class women's activism in Britain The book begins by exploring the relationship between the construction of new knowledge about colonised others and the framing of debates on the woman question among advocates of women's rights and their evangelical opponents Moving on to examine white middle class women's activism on imperial issues in Britain topics include the anti slavery boycott of Caribbean sugar the campaign against widow burning in colonial India and women's role in the foreign missionary movement prior to direct employment by the major missionary societies Finally Clare Midgley highlights how the organised feminist movement which emerged in the late 1850s linked promotion of female emigration to Britain's white settler colonies to a new ideal of independent English womanhood This original work throws fascinating new light on the roots of later imperial feminism and contemporary debates concerning women's rights in an era of globalisation and neo imperialism
