## Satire And Romanticism:

**Satire and Romanticism** Steven E. Jones, 2000 This study of the constructive and ultimately canon forming relationship between satiric and Romantic modes of writing from 1760 to 1832 hopes to provide a new understanding of the historical development of Romanticism as a literary movement Romantic poetry is conventionally seen as inward turning sentimental sublime and transcendent whereas satire with its public profane and topical rhetoric is commonly cast in the role of generic other as THE un Romantic mode This book argues instead that the two modes mutually defined each other and were subtly interwoven during the Romantic period By rearranging reputations changing aesthetic assumptions and redistributing cultural capital the interaction of satiric and Romantic modes helped make possible the Victorian and modern construction of English Romanticism

*Satire and Romanticism* S. Jones, 2000-04-21 This remarkable study of the constructive and ultimately canon forming relationship between satiric and Romantic modes of writing from 1760 to 1832 provides us with a new understanding of the historical development of Romanticism as a literary movement Romantic poetry is conventionally seen as inward turning sentimental sublime and transcendent whereas satire with its public profane and topical rhetoric is commonly cast in the role of generic other as the un Romantic mode This book argues instead that the two modes mutually defined each other and were subtly interwoven during the Romantic period By rearranging reputations changing aesthetic assumptions and re distributing cultural capital the interaction of satiric and Romantic modes helped make possible the Victorian and modern construction of English Romanticism

**The Satiric Eye** Steven Edward Jones, 2003 The Satiric Eye is a compelling collection of essays on satiric writing images and theatrical performances from 1780 1832 The title alludes to Wordsworth's famous inward eye Which is the bliss of solitude and is meant to raise significant critical questions about inwardness solitude sincerity and authenticity in the period questions which all these essays address These diverse contributions range from advertising to Jane Austen graphic pamphlets to the pantomime and illuminate with a satiric eye many presuppositions about early nineteenth century literature Taken together they challenge the critical conventions about what matters in the Romantic period the preoccupation with nature the Gothic revolution sentiment beauty and literary aesthetics In their stunning range the essays both decenter Romanticism and reorient the canonical works authors and the critical constructs that have defined it

*Neoclassical Satire and the Romantic School 1780-1830* Rolf P. Lessenich, 2012 Romanticism was not only heterogeneous and disunited It also had to face the hostile counter movement of the Enlightenment and Augustan Neoclassicism still going strong at the time of and in the decades following the French Revolution due to support from the ruling Establishment the ancien regime of the Crown and Church of England Neoclassicists regarded Romanticism as a heteretical amalgam of dissenting new schools which threatened the monopoly of the Classical Tradition The acrimonious debates in aesthetics and politics were conducted with the traditional strategies of the classical ars disputandi on both sides Under the duress of the heaviest satirical attacks Romanticism began gradually to

see itself as one movement giving rise to the problematic opposition of Classical and Romantic The construction of this rough divide however was indispensable for the clarification of different positions in the hubbub of conflicting voices and has also proved critical in literary and cultural studies which cannot do without such subsumptions The Classical Tradition encompassing Christianity emerges as an ongoing event from Greek and Latin antiquity running through to our time **A Handbook of Romanticism Studies** Joel Faflak, Julia M. Wright, 2016-01-19 The Handbook to Romanticism Studies is an accessible and indispensable resource providing students and scholars with a rich array of historical and up to date critical and theoretical contexts for the study of Romanticism Focuses on British Romanticism while also addressing continental and transatlantic Romanticism and earlier periods Utilizes keywords such as imagination sublime poetics philosophy race historiography and visual culture as points of access to the study of Romanticism and the theoretical concerns and the culture of the period Explores topics central to Romanticism studies and the critical trends of the last thirty years

*Satirizing Modernism* Emmett Stinson, 2017-06-01 *Satirizing Modernism* examines 20th century novels that satirize avant garde artists and authors while also using experimental techniques associated with literary modernism These novels such as Wyndham Lewis's *The Apes of God* William Gaddis's *The Recognitions* and Gilbert Sorrentino's *Imaginative Qualities of Actual Things* were under recognized and received poor reviews at the time of publication but have increasingly been acknowledged as both groundbreaking and deeply influential *Satirizing Modernism* analyzes these novels in order to present an alternative account of literary modernism which should be viewed neither as a radical break with the past nor an outmoded set of aesthetics overtaken by a later postmodernism In self reflexively critiquing their own aesthetics these works express an unconventional modernism that both revises literary history and continues to be felt today **Anger,**

**Revolution, and Romanticism** Andrew M. Stauffer, 2005-08-11 The Romantic age was one of anger and its consequences revolution and reaction terror and war Andrew M Stauffer explores the changing place of anger in the literature and culture of the period as English men and women rethought their relationship to the aggressive passions in the wake of the French Revolution Drawing on diverse fields and discourses such as aesthetics politics medicine and the law and tracing the classical legacy the Romantics inherited Stauffer charts the period's struggle to define the relationship of anger to justice and the creative self In their poetry and prose Romantic authors including Blake Coleridge Godwin Shelley and Byron negotiate the meanings of indignation and rage amidst a clamorous debate over the place of anger in art and in civil society This innovative book has much to contribute to the understanding of Romantic literature and the cultural history of the emotions

**Wordsworth's Poetic Collections, Supplementary Writing and Parodic Reception** Brian R Bates, 2015-10-06

Wordsworth's process of revision, his organization of poetic volumes and his supplementary writings are often seen as distinct from his poetic composition. Bates asserts that an analysis of these supplementary writings and paratexts are necessary to a full understanding of Wordsworth's poetry. *Romantic Disillusionism and the Sceptical Tradition* Rolf P.

Lessenich, 2017-01-16. Platonic Romanticism had a dark underside from its inception. Romantic Disillusionism encompassing the Gothic and the new demonic doppelgänger. The Classical Tradition's conflict between Plato and Pyrrho, foundationalism and scepticism, optimism and pessimism was thus continued. Lord Byron's was the most listened to and echoed voice of Romantic Disillusionism in Europe though by far not the only one. This comparative study of a multiplicity of sceptical English, French, German, Italian, Spanish, Russian, Polish and Czech voices shows how traditional Pyrrhonic arguments were updated to suit the decades of the Romantic Movement, surviving as a subversive countercurrent to later Victorianism and resurging in the literature of the Decadence and Fin de Siècle. **The Oxford Handbook of British Romantic Prose** Robert

Morrison, 2024-04-03. The Oxford Handbook of British Romantic Prose is a full-length essay collection devoted entirely to British Romantic nonfiction prose. Organized into eight parts, each containing between five and nine chapters arranged alphabetically, the Handbook weaves together familiar and unfamiliar texts, events and authors and invites readers to draw comparisons, reimagine connections and disconnections and confront frequently stark contradictions within British Romantic nonfiction prose but also in its relationship to British Romanticism more generally and to the literary practices and cultural contexts of other periods and countries. The Handbook builds on previous scholarship in the field, considers emerging trends and evolving methodologies and suggests future areas of study. Throughout the emphasis is on lucid expression rather than gnomic declaration and on chapters that offer not a dutiful survey but evaluative assessments that keep an eye on the bigger picture yet also dwell meaningfully on specific paradoxes and the most telling examples. Taken as a whole, the volume demonstrates the energy, originality and diversity at the crux of British Romantic nonfiction prose. It vigorously challenges the

traditional construction of the British Romantic movement as focused too exclusively on the accomplishments of its poets and it reveals the many ways in which scholars of the period are steadily broadening out and opening up delineations of British Romanticism in order to encompass and thoroughly evaluate the achievements of its nonfiction prose writers

**Persistent Forms** Ilya Kliger, Boris Maslov, 2015-12-14 Since the mid 1980s attempts to think history and literature together have produced much exciting work in the humanities Indeed some form of historicism can be said to inform most of the current scholarship in literary studies including work in poetics yet much of this scholarship remains undertheorized Envisioning a revitalized and more expansive historicism this volume builds on the tradition of Historical Poetics pioneered by Alexander Veselovsky 1838 1906 and developed in various fruitful directions by the Russian Formalists Mikhail Bakhtin and Olga Freidenberg The volume includes previously untranslated texts of some of the major scholars in this critical tradition as well as original contributions which place that tradition in dialogue with other thinkers who have approached literature in a globally comparatist and evolutionary historical spirit The contributors seek to challenge and complement a historicism that stresses proximate sociopolitical contexts through an engagement with the *longue durée* of literary forms and institutions In particular Historical Poetics aims to uncover deep historical stratifications and asynchronicities in which formal solutions may display elective affinities with other chronologically distant solutions to analogous social and political problems By recovering the traditional nexus of philology and history Persistent Forms seeks to reinvigorate poetics as a theoretical discipline that would respond to such critical and intellectual developments as Marxism New Historicism the study of world literature practices of distant reading and a renewed attention to ritual oral poetics and genre

**The Old Norse Element in Swedish Romanticism** Adolph Burnett Benson, 1914 Deals with a number of heterogeneous writers bound together by a common interest in Scandinavian antiquity Strives to characterize the interest and to collect and examine literary moments from 1810 1825 that make use of Scandinavian saga
