Passions Cassie Edwards, 1998-12 Yvonne secretly admired the chieftain of a peaceful Ottawa Tribe but white men and Indians alike threaten to keep them forever apart They d need the strength of a love both breathtaking and bold Strange Passion John Ngong Kum Ngong, 2010 In *Strange Passions* John Ngong Kum Ngong s vocation and prime obsession remain constant the soul of the nation Passion the central symbol in this collection is the patriotic sentiment in its various manifestations As a self conscious artist Ngong summons his audacious technical dexterity to sublimate the sauciness characteristic of his style and direct it towards ideological ends The significance of his contribution is as much in the urgency originality and authenticity of his message as in the full range and complexity of his style and the depth and density of his thoughts **Reverse Symbolism Dictionary** Steven Olderr, 2022-09-28 The only dictionary of its kind this greatly expanded second edition lists objects concepts traits and situations ancient and modern and gives their appropriate symbols A companion to *Symbolism A Comprehensive Dictionary* 2012 this volume presents symbols and their referents in reverse association but is not simply a reconfiguring of information Examples a symbol for hell is descending stairs an attribute of Saint Benedict is a raven joy after sorrow is signified by the gemstone amber Ethnic literary artistic religious heraldic numerological folkloric occult and psychological usages are included Passion and Criminality Louis Proal, 1905

Unraveling Edward S. Curtis's The North American Indian Herman Cohen Stuart, 2023-06-08 In the years 1900 1930 American photographer Edward S Curtis realized his life s work the monumental twenty volume book series *The North American Indian* 1907 1930 Over the years this work has been both praised and criticized In this comprehensive and innovative study Herman Cohen Stuart corrects a number of persistent misconceptions about the way Curtis for many the most image defining and influential photographer of American Indians has represented the indigenous peoples of North America The author argues that Curtis was keenly aware of the major changes Native Americans faced in the early 20th century As is demonstrated by a thorough both quantitative and qualitative analysis of both Curtis s texts and photographic artwork Curtis was deeply conscious of the fact that by and even before the turn of the century Western influences had already made large inroads into Native American life This book provides a reappraisal of Curtis s position during this complicated and trying period for Native Americans Suffrage and Beyond Caroline Daley, Melanie Nolan, 1994-12 Bringing together such eminent scholars as Nancy Cott Ellen Dubois and Carole Pateman this book offers a comprehensive look at the political history of suffrage on a global scale **Transatlantic Upper Canada** Kevin Hutchings, 2020-08-20 Literature emerging from nineteenth century Upper Canada born of dramatic cultural and political collisions reveals much about the colony s history through its contrasting understandings of nature ecology deforestation agricultural development and land rights In the first detailed study of literary interactions between Indigenous people and colonial authorities in Upper Canada and Britain Kevin Hutchings analyzes the period s key figures and the central role that romanticism ecology and

environment played in their writings Investigating the ties that bound Upper Canada and Great Britain together during the early nineteenth century Transatlantic Upper Canada demonstrates the existence of a cosmopolitan culture whose implications for the land and its people are still felt today The book examines the writings of Haudenosaunee leaders John Norton and John Brant and Anishinabeg authors Jane Johnston Schoolcraft Peter Jones and George Copway as well as European figures John Beverley Robinson John Strachan Anna Brownell Jameson and Sir Francis Bond Head Hutchings argues that despite their cultural differences many factors connected these writers including shared literary interests cross Atlantic journeys metropolitan experiences mutual acquaintance and engagement in ongoing dialogue over Indigenous territory and governance A close examination of relationships between peoples and their understandings of land Transatlantic Upper Canada creates a rich portrait of the nineteenth century British Atlantic world and the cultural and environmental consequences of colonialism and resistance

Lautréamont and Sade Maurice Blanchot, 2004 In this book Blanchot forcefully distinguishes his critical project from the major intellectual currents of his day surrealism and existentialism

The Myth of American Individualism Barry Alan Shain, 2021-02-09 Sharpening the debate over the values that formed America's founding political philosophy Barry Alan Shain challenges us to reconsider what early Americans meant when they used such basic political concepts as the public good liberty and slavery We have too readily assumed he argues that eighteenth century Americans understood these and other terms in an individualistic manner However by exploring how these core elements of their political thought were employed in Revolutionary era sermons public documents newspaper editorials and political pamphlets Shain reveals a very different understanding one based on a reformed Protestant communalism In this context individual liberty was the freedom to order one's life in accord with the demanding ethical standards found in Scripture and confirmed by reason This was in keeping with Americans' widespread acceptance of original sin and the related assumption that a well lived life was only possible in a tightly knit intrusive community made up of families congregations and local government bodies Shain concludes that Revolutionary era Americans defended a Protestant communal vision of human flourishing that stands in stark opposition to contemporary liberal individualism This overlooked component of the American political inheritance he further suggests demands examination because it alters the historical ground upon which contemporary political alternatives often seek legitimation and it facilitates our understanding of much of American history and of the foundational language still used in authoritative political documents

Vladimir Solov'ëv's Justification of the Moral Good Thomas Nemeth, 2015-04-20 This new English translation of Solov'ëv's principal ethical treatise written in his later years presents Solov'ëv's mature views on a host of topics ranging from a critique of individualistic ethical systems to the death penalty the meaning of war animal rights and environmentalism Written for the educated public rather than for a narrow circle of specialists Solov'ëv's work largely avoids technical vocabulary while illustrating his points with references to

classical literature from the ancient Greeks to Goethe Although written from a deeply held Christian viewpoint Solov v emphasizes the turn from his earlier position now allegedly developing the independence of moral philosophy from metaphysics and revealed religion Solov v sees the formal universality of the idea of the moral good in all human beings albeit that this idea is bereft of material content This first new English language translation in a century makes a unique contribution to the study of Solov v s thought It uses the text of the second edition published in 1899 as its main text but provides the variations and additions from the earlier versions of each chapter in running notes Other unique features of this translation are that the pagination of the widely available 1914 edition is provided in the text and the sources of Solov v s numerous Biblical quotations and references as well as literary and historical allusions Illinois Education ,1921

Passion and Criminality in France Louis Proal,1901 *Passion and Language in Eighteenth-Century Literature* Earla Wilputte,2014-09-04 Providing imaginatively contextualized close readings this study focuses on three key eighteenth century writers Haywood Hill and Fowke Wilputte traces the development of the passionate language of these writers whose lives writing careers and interests intersected from 1720 to 1724 in the Hillarian coterie **An Address** Chilton Allan,1841

Nationalism and the Moral Psychology of Community Bernard Yack,2012-04-27 A brilliant and compelling book Nationalism and the Moral Psychology of Community sets out a revisionist conception of nationalism that cannot be ignored Pub desc *Bizet's Carmen* Burton D. Fisher,2001-08-15 Making Love Paul Kelleher,2015-07-16 In Making Love Sentiment and Sexuality in Eighteenth Century British Literature Paul Kelleher revises the history of sexuality from the vantage point of the literary history of sentimentalism Kelleher demonstrates how eighteenth century British philosophers essayists and novelists fundamentally reconceived the relations among sentiment sexuality and moral virtue It is his contention that sentimental discourse both philosophical and literary posited heterosexual desire as the precondition of moral feeling and conduct The author further suggests that sentimental writers fashioned the ideal of conjugal love as an ideological antidote to the theories of self love and self interest found in the works of Thomas Hobbes and Bernard Mandeville Heterosexual desire and its culmination in conjugal love in other words were represented as the privileged means for an individual to transcend self love and to develop a moral sensibility attuned to the thoughts and feelings of others At the same time Kelleher suggests other pleasures and desires particularly those rooted in same sex eroticism were increasingly depicted as antithetical to conjugal love and thus were morally devalued and socially disenfranchised Kelleher s argument unfolds through close readings of a variety of texts including Shaftesbury s Characteristics of Men Manners Opinions Times Joseph Addison and Richard Steele s the Tatler and the Spectator Eliza Haywood s Love in Excess Samuel Richardson s Pamela and Henry Fielding s Tom Jones Although these texts embody diverse rhetorical strategies and thematic concerns he shows how they collectively reinforce an overarching sentimental ideology on the one hand heterosexual desire and conjugal love become synonymous with sympathy benevolence and moral goodness while on the other hand same sex desire is

pathologized as a selfish withdrawal from procreation domesticity sociability and ultimately humanity itself *The Expositor*
