Contributing authors from across the nation and around the globe include individuals from an array of sectors including Education PK 12 and Higher Education, Business, Public and Nonprofit Organizations, Government, Military, Law Enforcement, and the Healthcare Industry. With a focus on highlighting the best practices as it applies to effective leadership in any given organization, the book offers a much needed analysis of what it means to lead successfully in the 21st Century and beyond. Endorsements: If you are looking for a cutting edge resource regarding interdisciplinary leadership, I highly recommend *On Leadership*. Each chapter has a rich perspective which contributes to the interplay between one's context, value system, level of authenticity, perspectives, and unique experiences. I highly recommend *On Leadership* and look forward to using this in the leadership courses I teach. David De Jong, Dakota State University. As both a scholar in school leadership and a former school leader, I thought I knew just about everything about leadership, but after reading this book, I was delightfully enlightened about the practical application of leadership in varying contexts around the world. Organized in three sections, this book clearly presents the practical application of leadership through an interdisciplinary approach. Fowler and Raehl provide a rich text with contributions of authors in both PK 12 Schools and Higher Education, and this text would be a welcome addition to any educational leadership program. Sonya D Hayes, The University of Tennessee Knoxville. Effective leadership development and corresponding leadership skills are not unique to any one profession or leadership position. Effective leadership transcends all professions, and effective leadership is evident in all effective leaders and leadership positions. Therefore, *On Leadership An Interdisciplinary Approach* is a timely must read for current and aspiring leaders. Siloed leadership development must be a thing of the past. Michael Schwanenberger, Northern Arizona University. Undoubtedly forward thinking content that will serve as key fundamentals in the future training of leaders in and out of the educational landscape. Has your organization prepared for the imminent lack of leadership crisis? Do you have a pipeline of developed leaders for the future? Leadership is the most important competency for both individual and organizational success and advancement. *The New Leadership Literacies* Bob Johansen, 2017-09-05. Over the next decade, today's connected world will be explosively more connected. Anything that can be distributed will be distributed: workforces, organizations, supply webs, and more. The tired practices of centralized organizations will become brittle in a future where authority is radically decentralized. Rigid hierarchies will give way to liquid structures. Most leaders and most organizations aren't ready for this future. Are you? It's too late to catch up, but it's a great time to leapfrog. Noted futurist Bob Johansen goes beyond skills and competencies to propose five new leadership literacies: combinations of disciplines, practices, and worldviews that will be needed to thrive in a VUCA world of increasing volatility, uncertainty, complexity, and ambiguity. This book shows how to: 1. forecast likely futures so you can look back and make sure you're prepared now for the changes to come; 2. use low-risk gaming spaces to work through your concerns about the future and hone your leadership skills; 3. lead shape-shifting organizations where you can't just tell people what to do; 4. be a dynamic presence even when you're not there in person; and 5. keep your personal energy high and transmit that energy throughout your organization. This visionary book provides a vivid description of the ideal talent profile for future leaders. It is written for current rising stars and aspiring leaders, talent scouts, and executive coaches seeking a fresh view of how leaders will need to prepare. To get ready for this future, we will all need new leadership literacies.

In Pursuit of Great AND Godly Leadership Mike Bonem, 2011-11-15. Is it possible for church leaders to use biblical and secular leadership concepts in a way that keeps Christ, not the marketplace, at the center of their mission? Drawing on biblical material and business wisdom, *In Pursuit of Great AND Godly Leadership* explores the critical leadership decisions and practices that shape the success of Christian organizations. These decisions are illustrated in compelling interviews with over forty leaders of churches, universities, denominational bodies, and international ministries. Mike Bonem leverages his background as an MBA-trained manager and an experienced church leader to bridge the gap between the analytical and

structured world of business and the faith driven approach that is essential for healthy churches Written to offer practical solutions for senior pastors executive pastors key laypeople and leaders of other Christian entities In Pursuit of Great AND Godly Leadership clearly shows the ways that secular practices can be imported into their organizations Bonem addresses a variety of topics such as planning finances personnel management measurement team dynamics and organizational change In doing so he points to the AND that every spiritual organization should strive to achieve *Leadership, Institutions and Enforcement* Slobodan Tomić, 2019-03-08 This book presents an analysis of five anticorruption agencies ACAs from Serbia Macedonia and Croatia exploring the impact of organisational factors and leadership on their enforcement patterns during the first decade of the transitional reforms 2001 2012 Contrary to the conventional theory of agency insulation the analysis reveals that the ACAs de facto autonomy was not crucially shaped by their statutory independence but rather by the reputational management of their leaders The book draws on a mixture of qualitative and quantitative analysis to document these reputational strategies and how they shaped the ACAs de facto autonomy The findings also suggest that that the ACAs organisational model defined by the delegated mandate and powers preventative vs suppressive represented a key variable that mediated under which conditions high de facto autonomy can be achieved The book offers contributions to the study of anticorruption policy and ethics regulation as well as the wider inquiry into drivers of agency independence particularly in transitional contexts **Turnaround Leadership for Higher Education** Michael Fullan, Geoff Scott, 2009-03-23 Change leaders at all levels of the university will need to grapple with both the content and the process of change This book tackles the question of how universities can lead change from within **Leadership Competencies for Clinical Managers** Anne M.
