Schoolteaching in Canada Alexander Lockhart, 1991-12-15 Virtually every Canadian has been influenced for better or worse by schoolteachers Adults recall with clarity experiences with individual teachers children are in contact with schoolteachers on a daily basis parents know the importance of teachers in their children s lives Teachers are the key component in the hotly debated heavily funded education systems across the country Theirs is a profession at the centre of often contradictory interests pedagogic political professional and public Alexander Lockhart offers a survey of elementary and secondary schoolteachers and presents a profile of the profession as a whole Among the topics he discusses are the characteristics of today s teachers the conditions in which they work their professional associations career patterns in teaching the political environment current pedagogy and the public interest His findings reflect a profession in transition In elementary schools two thirds of teaching staff are women in secondary schools two thirds are men Half of all Canada s teachers are at mid career aged 35 49 and near the top of their salary levels Teachers salaries have risen faster than the industrial composite in recent years yet teachers are frustrated in their aspirations As a group Lockhart says teachers have less autonomy than other professionals Current policy directions and public attitudes aggravate this situation Lockhart warns that the teaching profession is moving into crisis The implications are serious for our children and for the quality of life throughout Canada as we look toward the twenty first century

Resources in Education, 1998 **Rural Teacher Education** Michael Corbett, Dianne Gereluk, 2020-02-15 This book examines challenges associated with the education of teachers in and for rural places. It offers a new perspective with respect to how Canadian educators are shifting the conversation toward a hopeful discourse concerning how educators can foster meaningful rural learning environments which will contribute to building stronger rural communities and regions. A central focus of the book is emerging reconceptualization of education place and indigeneity in Canadian education in the wake of the Truth and Reconciliation Commission. Though the challenge of addressing rural teaching and learning lies partly in the nuances and complexities of unique places, there are also common threads that affect virtually all communities in rural regional and remote educational cultural economic and social geographies. Chapters in this collection provide current research in Canadian rural education including examples and stories from the field contributed by teachers, administrators and superintendents on the challenges and creative opportunities that they have discovered in their own rural context, giving hope and inspiration for what is possible. The book will appeal to all readers interested in rural education and teacher education as well as to those concerned with educational inequality and indigenous education **Canada's Global Villagers** Ruth Compton Brouwer, 2013-09-27 Established in 1961 the same year as the US Peace Corps, Canadian University Service Overseas (CUSO) became the first Canadian NGO to undertake development work from a secular stance and in a context of rapid decolonization. Over the next twenty-five years, nine thousand volunteers, many of them women, travelled to over forty countries and became Canada's face in the Global South. Drawing on more than one hundred interviews, Brouwer tells the story of how these young Canadians responded to the challenges of underdevelopment. Moving beyond their initial naivete, they sought to fit into the host communities that had invited them and to provide social services, particularly in education. Returning home, they brought unique skills to the Canadian International Development Agency (CIDA) and other development organizations and a new level of global consciousness and cultural diversity to Canadian society. At a time when many are concerned about Canada's waning reputation for global humanitarianism, this book reminds us of an earlier, more hopeful time Canadian Education Robert M.
