obscure discussions on education in the knowledge society and which look to models of informal learning whether in the learning communities of workplaces and families or in the new socio technical spaces of the Internet as a source of alternative educational strategies Rather Nordic researchers more modestly ask whether it is possible to envisage new models of teaching and learning which take seriously both the responsibility to social justice and social wellbeing which at least rhetorically underpinned a commitment to mass education of the 20th century as well as to the radical challenges to traditional educational models offered by the new socio technical spaces and practices of the 21st century *The Great Equalizer* Mark D. Benigni, Barbara A. Haefner, Lois B. Lehman, 2022-04-11 The Great Equalizer Six Strategies to Make Public Education Work in America delves into the bleak reality of leading a district with a school poised for state takeover and a district with growing inequalities and increasing student needs Learn how collaboration allowed that same district to become a 1 1 school system when K 12 schools were still dealing with technology roadblocks Discover how public schools can garner philanthropy and foundation support to lead their districts down the road of excellence Chapter hooks key takeaways and guided discussion questions provide a glimpse into the realities of leading public education systems across our nation By implementing six strategies for success public education can be innovative and make a difference for all students Together we can ensure that America s public education system remains the great equalizer
