25 Brilliant and Cool After School Activities Cammie Graber, 2012-11-23 After school activities are the rage of the day With about 500 million invested in these programs and more than 10 million children attending them in America alone the popularity of these activities cannot be overlooked Everyone understands the need to develop new skills gain more knowledge and keep the children safe when parents are working The most important factor in the success of any program is the relationship between the children participating in the program and the adult members who work with these children Often children may confide in an adult member who is not a teacher This kind of emotional interaction is a must when children are struggling to make sense of the whirlpool of emotions that assail them Direct contact with professionals can be an inspiring experience Children are very much impressed by the knowledge and experience of these adults Young people gain a lot of knowledge and experience when they deal with experienced adults and older youth who serve as teachers or mentors in these programs These mentors are different from the teachers in the school and children are more likely to draw inspiration from them After school activities that are managed professionally by people who are successful in their own fields of expertise will produce children who are more enthusiastic and successful Meaningful interaction with adults is a learning experience in itself
